CONTRACT SECTION,PHQ,NARANGI

CORRIGENDUM-1 FOR OIL E-TENDER CGI 9015P22

PART7-Section III Preamble (A) Page 94 under sub heading “(A)For testing and certification based on Direct Assessment “ to be read as follows:--

Approved External Agency’s (AE) Direct Assessment (DA) Site Manager to have extensive experience “in the field” for ICDA programs who shall be experienced to perform and supervise all the DA activities. Experienced DA crew to be present at OIL during all field activities associated with DA. AE personnel to carry complete inspection kit which would include among others at least an anchor profile gauge, coating thickness gauge, fish scale, coating disbondment assessment kit, ultrasonic flaw detector, PSP meter, soil pH machine, soil ORP machine, soil resistivity machine, pit gauge, dent measurement equipment etc. to conduct a full direct examination based inspection (few of these tests may not be applicable for the subject pipeline) - After receipt of Non-destructive Evaluation (NDE) data, detailed report will be compiled by AE for which the worst metal loss anomalies will undergo individual pressure burst calculations. AE personnel to stake the site locations on completion of IDI assessment. - Upon completion of each of the four (4) DA steps, reports to be submitted for each stage by AE. Upon completion of Post-Assessment, final presentation to the client. Wet chemistry sampling and testing (where applicable) will be conducted by AE through their field tests kits and also through OIL’s sampling team and lab facilities wherever available and necessary

ALL OTHER TERMS AND CONDITIONS SHALL REMAIN UNCHANGED IN THE ABOVE TENDER.
