Note: If the number coming from Cage-A is '1' and the number coming from Cage-B is greater than '1', then the number shall be declared as greater number as the highest application number that has been assigned is '**112088**' and to be redrawn.

5.0 **Procedure for Draw:**

5.1 First the digit in the “**Lakhs**” place will be drawn from “**Cage-A**”. The digit coming out will be for the lakh place (0 or 1) which after recording will be put back into the cage. The digit coming out, say ‘1’, means the digit in the “lakh” place is ‘1’.

5.2 For the digit in the “**Ten Thousands**” place, draw will be done from “**Cage-B**”. The digit coming out will be for ten thousand place (within 0 to 9), which after recording will be put back into the cage. The digit coming out, say ‘1’, means the digit in the “ten thousand” place is ‘1’.

Note: *If the number coming from Cage-A is '1' and the number coming from Cage-B is greater than '1', then the number shall be declared as greater number as the highest application number that has been assigned is '112088' and to be redrawn.*

5.3 For the digit in the “**Thousands**” place, draw will be done from “**Cage-C**”. The digit coming out will be for the thousands place (within 0 to 9), which after recording will be put back into the cage. The digit coming out, say 0, means the digit in the “thousands” place is ‘0’.

5.4 For the digit in the “**Hundreds**” place, draw will be done from “**Cage-D**”. The digit coming out will be for the hundred place (within 0 to 9), which after recording will be put back into the cage. The digit coming out, say 9, means the digit in the “hundreds” place is ‘9’.

5.5 For the digit in the “**Tens**” place, draw will be done from “**Cage-E**” in a similar manner and after recording the number (within 0 to 9) will be put back into the cage. The digit coming out, say 4, means the digit in the “tens” place is ‘4’.

5.6 The digit in the “**Unit**” place will be drawn from “**Cage-F**”. The digit coming out will be for the unit place (within 0 to 9) which after recording will be put back into the cage. The digit coming out, say 3, means the digit in the “unit” place is ‘3’.

5.7 After drawing this, a six-digit number will be found which will be assigned the “**Priority Number**”. From the above illustration, the number thus arising is **110943**.

Hence the final APPLICATION FORM NUMBER of the applicant arising is 110943.

5.7 The eligible applicant bearing the first number thus selected would be assigned as Priority No. “1” and will be considered for further processing as per tender norms. Draw shall be continued similarly for selecting Priority No. “1” to “700” in that order.

6.0 **Redraw:** Redraw for all the digits will be done in the following instances:

- (i) If the number found is “000000”.
- (ii) If the number is found to be greater than “112088”.
- (iii) If the number found is a **repeat number**.
- (iv) If the number found is **not allotted** as per the list declared (Annexure-A).
