

File No: SEAC/SEIAA.4452/2026

State Environment Impact Assessment Authority (SEIAA), Assam

(Constituted as per the provision of EIA Notification, 2006, as amended by the Ministry of Environment, Forest and Climate Change, Government of India)

Dated: 05/09/2026

To,

Executive Director (HSE & ESG)
OIL INDIA LIMITED
OIL INDIA LIMITED, DULIAJAN, District: Dibrugarh , ASSAM, 786602
safety@oilindia.in

Subject: Grant of EC under the provision of the EIA Notification 2006-regarding.

Sir/Madam,

This is in reference to your application for Grant of EC under the provision of the EIA Notification 2006-regarding in respect of project Exploratory Drilling at Location. HZO submitted to SEAC & SEIAA vide proposal number SIA/AS/IND2/546689/2026 dated 15/07/2026.

2. The particulars of the proposal are as below:

(i) EC Identification No.	EC26C0302AS5359717N
(ii) File No.	SEAC/SEIAA.4452/2026
(iii) Clearance Type	EC
(iv) Category	B2
(v) Project/Activity Included Schedule No.	1(b) Off-shore and onshore oil and gas exploration, development and production
(vi) Name of Project	Exploratory Drilling at Location. HZO
(vii) Name of Company/Organization	OIL INDIA LIMITED
(viii) Location of Project (District, State)	TINSUKIA, ASSAM
(ix) Issuing Authority	SEIAA
(x) Applicability of General Conditions	no
(xi) Applicability of Specific Conditions	no

In view of the particulars given in the Para 1 above, the project proposal interalia including Form-1(Part A and B) were submitted to the State Expert Appraisal Committee (SEAC), Assam under the provision of EIA notification 2006 and its subsequent amendments.

The above-mentioned proposal has been considered by State Expert Appraisal Committee (SEAC) in the meeting held on 24/08/2026. The minutes of the meeting and all the Application and documents submitted (viz. Form-1 Part A and Part B)

are available on PARIVESH portal.

The brief about configuration of plant/equipment, products and by products and salient features of the project along with environment settings, as submitted by the Project proponent in Form-1 (Part A and B) /presented during SEIAA.

The SEIAA, in its meeting held on 27/08/2026, based on information & clarifications provided by the project proponent and after detailed deliberations recommended the proposal for grant of EC under the provision of EIA Notification, 2006 and as amended thereof subject to stipulation of specific and general conditions.

The SEAC has examined the proposal in accordance with the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and after recommendations of the State Environment Impact Assessment Authority (SEIAA) hereby decided to grant EC for instant proposal of **OIL INDIA LTD** under the provisions of EIA Notification, 2006 and as amended thereof.

The SEIAA reserves the right to stipulate additional conditions, if found necessary.

The EC to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.

This issue with the approval of the Competent Authority.

EC is approved for Exploratory Drilling at Location. HZO in Dumduma PML in Tinsukia District falling in the Forest Land (Upper Dehing Reserve Forest). The area also falls inside the ESZ of Dehing Patkai National Park (7.81 km approx.).

GPS coordinates of the Location HZO is 27°23'49.34" N, 95°31'13.05" E. Stage I / Inprinciple approval dated 09.06.2026 is uploaded. MoM of the recommendation of 84th Standing Committee of National Board for Wildlife (SCNBWL) meeting, held on 26.06.2025 has been submitted.

Total land required for the project is 4.9 Ha (Forest land). Total project cost estimated is Rs. 1964 Lakh.

All the other terms and conditions mentioned by SEAC shall remain unchanged.

Copy To

3. The Scientist E, Integrated Regional Office Ministry of Environment Forest & Climate Change, 4th Floor Housefed Building G.S. Road Rukminigaon Guwahati-22, Kamrup Metro, Assam, iro.guwahati-mefcc@gov.in

Annexure 1

Specific EC Conditions for (Off-shore And Onshore Oil And Gas Exploration, Development And Production)

1. Specific Conditions By Seac

S. No	EC Conditions
1.1	I) CER activities shall be carried out in terms of the approved EMP and compliance of the same

S. No	EC Conditions
	shall be uploaded in the PARIVESH 2.0 portal. II) CER activity shall be undertaken through a premier educational institution of the state for empowering women, raising their livelihood, through conduct of seminar/workshop as a part of Climate Change Resilient activities and an amount of not exceeding Rs 2.50 Lakh shall be earmarked for the purposes.
1.2	CER (Corporate Environment Responsibility): Green Belt and others: I) The proponent shall develop Green Belt around the Wells comprising 10% of the area of the project area and shall ensure planting of indigenous species of plants as are prescribed. For the purpose, the concerned DFO may be consulted to have the quality planting materials ready in advance in the Departmental Nursery and requisite fund for the purpose should be made available to the DFO in advance for raising of minimum of 1,500 poly-pot saplings. II) The recommended species of plants in the area could be of species like Nahor (<i>Mesua ferrea</i>), Siris (<i>Albizia procera</i>), Hollock (<i>Terminalia myriocarpa</i>), Amlokhi (<i>Phyllanthus emblica</i>), Hilikha (<i>Terminalia chebula</i>), Jamun (<i>Syzygium cumini</i>), Cham (<i>Artocarpus chaplasha</i>), Dimaru (<i>Ficus spp</i>), Ow Tenga (<i>Dillenia indica</i>), Thekera (<i>Garcinia spp</i>), Bhomora (<i>Terminalia bellirica</i>) etc etc. Density of plantations shall be 1,250 plants per Hectare and the Proponent is required to raise plantations covering an area measuring 33% of the project area against the Well as prescribed. III) To cover the prescribed area under plantation, educational institution, Govt lands around the project area may be selected and local NGOs, Students, Villagers may be involved in plantation activities and the preferred species of plants may be fruit bearing, of medicinal value and aesthetic in nature. IV) The proponent shall take all requisite measures to maintain natural environment in the oil fields and its surroundings are to be maintained in healthy and environment friendly conditions. All necessary measures and precautions must have to be taken by the proponent to prevent any probable / random oil spillage, discharge of effluents in the surroundings. V) Compliance of the Solid Waste Management (SWM) Rules, 2026 (as to be enforced from 1st April' 26) duly notified by the MoEF & CC vide S.O. 388 (E) Dated 27.01.2026 shall be strictly adhered to by the PP. VI) The PP shall obtain Consent to Operate (CTO) from Assam Pollution Control Board under the provisions of the Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981, as applicable before starting of the construction activities and during the construction activities respectively. VII) Requisite clearances / permissions shall duly be obtained from the competent authority in due course. VIII) All the above conditions shall form part of the CER activities and shall be complied with in a time bound manner and Half Yearly Compliance Reports (HCR) are mandatory on the part of project Proponent which need to be uploaded on or before 1st June and 1st December of the calendar year in PARIVESH 2.0 portal. IX) It shall be bounden on the project Proponent to upload the Half Yearly Compliance Report (HCR) in terms of the guidelines circulated under OM No. IA3-22/1/2022-IA.III Dated 14.06.2024 by the Ministry in the MoEF & CC, GoI. Compliance of the same shall duly be uploaded by the Proponent in the PARIVESH portal.

2. Stipulations By The Apcb:

S. No	EC Conditions
2.1	(A) General Conditions:

S. No	EC Conditions
	a. To maintain the environment and ecology of the area, development of green belt by planting local species of trees shall be done with a target to achieve plantation of 33% of the total area. Greenbelt shall be developed all around the site or along the periphery. b. All the mud pits, waste pits, etc, shall also be reclaimed after the end of drilling activities. The pits should not be kept un-reclaimed for the purpose of future drilling. c. Oil Spill Contingency Plan (OSCP) shall be prepared to handle all major, moderate & minor spills. The project proponent shall strictly adhere to the OSCP in order to prevent any environmental degradation. d. All fuels, lubricants and chemicals shall be kept in well designed & safe storage facility. e. To prevent well blowouts during drilling and related operations, Blowout preventive measures shall be adequately followed. (B) Air Aspect: a. Ambient Air Quality shall be maintained as per the National Ambient Air Quality Standards issued by the Ministry vide GSR No. 826(E) dtd. 16.11.2009 for PM10, PM2.5, SO2, NO2, CO, Methane& Non-Methane HC etc. b. The unit shall make necessary arrangement for control of noise from the drilling activity/sources so as to comply with standard as specified in the schedule annexed with The Noise Pollution (Regulation and Control Rule), 2000 notified vide S.O 123(E) dated 14.02.2000. c. The unit shall follow the Standards and Guidelines for control of Noise Pollution from Stationary Diesel Generator Sets as per EPA, 1996 [GSR7, dtd. Dec 22, 1998] (C) Water Aspects: a. The unit shall obtain CGWA permission for all its drilling locations. b. The unit shall operate ETP, equipped with requisite unit treatment process, to achieve Zero Liquid Discharge (ZLD). The industrial waste water shall be reused in process /utilities. c. The unit shall comply with standards of liquid effluent discharge as mentioned in the Environment (Protection) Rules, 1986 for oil drilling and gas extraction. d. i. Storm water drains should be segregated from the effluent drains. ii. Storm water for a unit shall not be allowed to mix with effluent and/or floor washing. iii. Storm water within the battery limits of the unit shall be channelized through separate pipe passing through an Oil & Grease trap. (D) Solid Waste Aspect: a) Adequate facility should be created for collection, storage, transportation, treatment & disposal of non-hazardous industrial solid waste generated from the units. b) Adequate system should be adopted for reduction of waste generation and enhancement of reutilization & recycling of waste materials. c) Solid waste generated in the unit shall be disposed of as per the provision of Solid Waste Management Rules, 2026. (E) E-Waste Aspects: a) The unit shall comply with the provisions of E-Waste Management Rules, 2022. (F) Hazardous Waste Aspects: a) Authorization under Hazardous and Other Wastes (Management &Trans-boundary Movement) Rules, 2016 shall be obtained from the Board. b) The project authorities shall comply with the provisions of the said Rules. c) Adequate facility shall be provided for collection and storage of used/spent oil, which shall be sent to registered recyclers for recycling.

S. No	EC Conditions
	d) The unit shall dispose of any other Hazardous Waste generated by the unit as per the provisions of the Rules. e) The unit shall identify and quantify all streams of Hazardous Waste generation as per Schedule-I and maintain proper record in Form-III of the said Rules. f) The unit should submit the annual return under the Rule in the Form-IV within 30th June every year.

Standard EC Conditions for (Off-shore and onshore oil and gas exploration, development and production)

1. Specific Conditions

S. No	EC Conditions
1.1	The company shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.
1.2	No pipelines or its part shall be laid in the Forest land/Protected Area without prior permission/approval from the Competent Authority.
1.3	Total fresh water requirement shall not exceed 39 m ³ /day will be met from groundwater. Prior permission shall be obtained from the concerned regulatory authority.
1.4	The project proponent will treat and reuse the treated water within the factory and no waste or treated water shall be discharged outside the premises. Mobile ETP coupled with RO shall be installed to reuse the treated water in drilling system. Size of the waste shall be equal to the hole volume+ volume of drill cutting and volume of discarded mud if any. Two feet free board may be left to accommodate rain water. There shall be separate storm water channel and rain water shall not be allowed to mix with waste water. Alternatively, if possible pit less drilling be practiced instead of above.
1.5	During production, storage and handling, the fugitive emission of methane, if any, shall be monitored using Infra-red camera/ appropriate technology.
1.6	The project proponent also to ensure trapping/storing of the CO ₂ generated, if any, during the process and handling.
1.7	Approach road shall be made pucca to minimize generation of suspended dust.
1.8	The project proponent shall make all arrangements for control of noise from the drilling activity. Acoustic enclosure shall be provided for the DG sets along with the adequate stack height as per CPCB guidelines.
1.9	The company shall construct the garland drain to prevent runoff of any oil containing waste into the nearby water bodies. Separate drainage system shall be created for oil contaminated and non-oil contaminated.
1.10	Drill cuttings separated from drilling fluid shall be adequately washed and disposed in HDPE lined

S. No	EC Conditions
	pit. Waste mud shall be tested for hazardous contaminants and disposed according to HWMH Rules, 2016. No effluent/drilling mud shall be discharged/disposed off into nearby surface water bodies. The company shall comply with the guidelines for disposal of solid waste, drill cutting and drilling fluids for onshore drilling operation notified vide GSR.546(E) dated 30th August, 2005.
1.11	Oil spillage prevention and mitigation scheme shall be prepared. In case of oil spillage/contamination, action plan shall be prepared to clean the site by adopting proven technology. The recyclable waste (oily sludge) and spent oil shall be disposed of to the authorized recyclers.
1.12	The project proponent shall take necessary measures to prevent fire hazards, containing oil spill and soil remediation as needed. At fixed installations or plants use of ground flare shall be explored. At the place of ground flaring, the overhead flaring stack with knockout drums shall be installed to minimize gaseous emissions during operation.
1.13	The project proponent shall develop a contingency plan for H2S release including all necessary aspects from evacuation to resumption of normal operations. The workers shall be provided with personal H2S detectors in locations of high risk of exposure along with self-containing breathing apparatus.
1.14	Blow Out Preventer system shall be installed to prevent well blowouts during drilling operations.
1.15	On completion of the project, necessary measures shall be taken for safe plugging of wells with secured enclosures to restore the drilling site to the original condition. The same shall be confirmed by the concerned regulatory authority from environment safety angle. In case of hydrocarbon not found economically viable, a full abandonment plan shall be implemented for the drilling site in accordance with the applicable DGH / Indian Petroleum Regulations.
1.16	As per the Ministry's OM dated 30.09.2020 superseding the OM dated 01.05.2018 regarding the Corporate Environmental Responsibility, and as per the action plan proposed by the project proponent to address the socio-economic and environmental issues in the study area, the project proponent, as committed, shall provide education funds in technical training centers/ support in nearby village's schools, support in health care facilities, drinking water supply and funds for miscellaneous activities like solar street lights, battery, solar panel etc., in the nearby villages. The action plan shall to be completed within time as proposed.
1.17	No lead acid batteries shall be utilized in the project/site.
1.18	Occupational health surveillance of the workers shall be carried out as per the prevailing Acts and Rules. All workers & employees shall be provided with required safety kits/mask for personal protection.
1.19	Oil content in the drill cuttings shall be monitored and report & shall sent to the Ministry's Regional Office.
1.20	The project proponent shall prepare operating manual in respect of all activities, which would cover all safety & environment related issues and measures to be taken for protection. One set of environmental manual shall be made available at the drilling site/ project site. Awareness shall be created at each level of the management. All the schedules and results of environmental monitoring shall be available at the project site office. Remote monitoring of site should be done.

S. No	EC Conditions
1.21	PP shall sensitize and create awareness among the people working within the project area as well as its surrounding area on the ban of Single Use Plastic in order to ensure the compliance of Notification published by MOEFCC on 12th August, 2021. A report along with photographs on the measures taken shall also be included in the six-monthly compliance report being submitted to concerned authority.

2. General Conditions

S. No	EC Conditions
2.1	No further expansion or modifications in the plant, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/SEIAA, as applicable. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
2.2	The energy source for lighting purpose shall be preferably LED based, or advanced having preference in energy conservation and environment betterment.
2.3	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under the Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).
2.4	The company shall undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CER activities shall be undertaken by involving local villages and administration and shall be implemented. The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment.
2.5	The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/ pollution control measures shall not be diverted for any other purpose.
2.6	A copy of the clearance letter shall be sent by the project proponent to concerned Panchayat, Zilla Parishad/Municipal Corporation, Urban local Body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal.
2.7	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF&CC, the respective Zonal Office of CPCB and SPCB. A copy of Environmental Clearance and six monthly compliance status report shall be posted on the website of the company.
2.8	The environmental statement for each financial year ending 31st March in Form-V as is mandated shall be submitted to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of

S. No	EC Conditions
	the company along with the status of compliance of environmental clearance conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.
2.9	The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry and at https://parivesh.nic.in/ . This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.
2.10	The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
2.11	This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.

3. NbwI Conditions

S. No	EC Conditions
3.1	The environmental clearance is subject to obtaining prior clearance from the wildlife angle, including clearance from the Standing Committee of the National Board for Wildlife, as applicable, as per the Ministry's OM dated 8th August, 2019. Grant of environmental clearance does not necessarily imply that Wildlife Clearance shall be granted to the project and that their proposal for Wildlife Clearance will be considered by the respective authorities on its merit and decision taken. PP shall also strictly follow the conditions mentioned in existing NBWL clearance. (if required)
3.2	The project proponent shall prepare a site specific conservation plan and wildlife management plan in case of the presence of Schedule-1 species in the study area, as applicable to the project, and submit to Chief Wildlife Warden for approval. The recommendations shall be implemented in consultation with the State Forest/Wildlife Department in a time bound manner. (if required)
