PACS computerisation

Employees to be given training on handling software

STAFF REPORTER

GUWAHATI, Jan 20: The Institute of Cooperative Management (ICM), Guwahati will provide necessary training to the employees on handling software in connection with the computerisation of Primary Agricultural Cooperative Credit Societies (PACS) in the State.

HK Das, director (incharge) of ICM, Guwahati, said computerisation of PACS would bring transparency, efficiency, enhance trustworthiness and help PACS become the nodal delivery service point at the panchayat level.

"The employees will be taught how to keep records and maintenance of accounts with the help of the software. Computerisation will be done in two phases. In Assam, out of the total 806 Gaon Panchayat Samabai Samitis (GPSS), 586 will be computerised in the first phase," Das said.

"Computerisation of PACS, besides serving the purpose of financial inclusion and strengthening service delivery to farmers, especially small and marginal farmers (SMFs), will also become a nodal service delivery point for various services and provision of inputs like fertilizer, seeds, etc. This will help improve the outreach of the PACS as outlets for banking activities as well as non-banking activities, apart from improving digitalisation in rural areas," he added.

"The project comprises the development of cloud
