

OIRDS implements Health and Nutrition initiatives

Date: 27th September 2023

In alignment with this year's CSR theme 'Health and Nutrition' for CPSEs, OIRDS under the aegis of OIL Arogya carried out various activities in the villages of OIL's operational areas promoting the health of mother and child. The project is also in alignment with Govt. of India's campaign, Poshan Maah (Nutrition Month) fostering nutritional understanding through community mobilisation. During the month-long activities, OIL Arogya carried out widespread awareness and hands on training in 24 villages for promoting the habit of consuming indigenous and locally found nutritious, inexpensive food and recipes impacting sustainable health amongst newborn, pregnant women, lactating mothers and adolescent girls. In addition, in an event under Swachhata Hi Seva, water filters were distributed at Village level Healthcare Centres.
