NOTE 1 Significant accounting principle

General

Oil India Sweden AB, corporate identity number 556794-0530 is a Swedish private limited company registered in Stockholm, Sweden. The Company's address is c/o TMF Sweden AB, Sergels Torg 12, 6tr, SE-111 57, Stockholm.

The principal activities of the company, which was incorporated on the 20th November 2009, are to conduct owning of shares in other companies, perform administrative tasks and associate activities.

The consolidated accounts for the financial year 2016-04-01 – 2017-03-31 comprise of the Parent company, the participation in Indoil Netherlands B.V. a joint operations owned and run in partnership with IOC Sweden AB.

Summary of key accounting principles

The key accounting principles applied during the preparation of this annual report are presented below.

The accounting currency of the Parent company is Euro and the financial statements are presented in Euro.

Fixed assets and long-term liabilities essentially consist of amounts that are expected to be recovered or paid more than 12 months after the closing day. Current assets and current liabilities essentially consist solely of amounts that are expected to be recovered or paid within 12 months of the closing day.

Basis for preparing the reports

The consolidated accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS) published by the International Accounting Standards Boards (IASB), and the interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) as approved by the Commission of the European Communities for application in the European Union.

RFR 2; Supplementary accounting rules for groups, issued by the Swedish Financial Reporting Board has also been used.

The Parent company has prepared its annual report in accordance with the Swedish Financial Reporting Board's standard RFR 2.3, the same accounting standards as used for the group, apart from when it is stated "accounting standards for the Parent company". The difference between the accounting principles for the group and the parent company are due to the fact that there are restrictions regarding the use of IFRS in the parent company regulated in the Swedish Annual Accounts Act or in some cases due to tax reasons.

Valuation principles applied in the preparation of the financial statements

Assets and liabilities are reported at historical cost, with the exception of certain financial assets and liabilities, which are measured at the fair value or amortized cost.

Financial assets and liabilities measured at fair value consist of financial assets classified as financial assets measured at fair value through profit/loss for the year or financial assets held for sale.

Translation of foreign currency

Transactions and balance sheet items

Transactions in foreign currencies are translated into functional currency at the exchange rate in force on the transaction date. Monetary assets and liabilities in foreign currencies are translated into the functional currency at the exchange rate in force on the balance sheet date. Exchange rate differences arising from the conversions are recognized in profit/loss for the year. Non-monetary assets and liabilities recognized at the value are converted into the functional currency at the rate in effect at the time of the fair value assessment.

Group companies

The results and financial position of all group companies that have an operational currency other than the presentation currency, are translated into the group's presentation currency as follows:

Assets and liabilities for each of the consolidated statements of financial position are translated according to the closing day rate.

Income and expenses for each of the income statements are translated according to the average exchange rate.

All translation differences are reported in other comprehensive income.

Assessments and estimates in the financial accounts

Preparation of the financial statements in accordance with IFRS requires management to make assessments, estimations and assumptions that affect the application of the accounting principles and the figures reported for assets, liabilities, income and expenses. The actual outcome may deviate from these estimations that may cause material adjustments to the financial statements of the ensuing year are mainly the valuation of the financial fixed assets.

Consolidated financial statements

Joint arrangements

For accounting purposes, joint operations whereby the parties that have joint control of the operations have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint operations are consolidated in the consolidated accounts in accordance with the proportional method.

The proportional method entails that the proportional part belonging to the group, of the assets for which the group has joint control and the liabilities for which the group has a joint responsibility, are included in the consolidated statement of financial position. The consolidated statement of comprehensive income includes the proportional part belonging to the group of the income and expenses of the joint operations.

Intra-group receivables and liabilities, income or expenses and unrealized gains or losses arising from intra-group transactions between group companies are eliminated in full when preparing the consolidated accounts.

Operating segments

The operating segments are organized in a compatible way with the internal financial reporting to the senior management. The senior management is the function who is responsible for allocation of resources and monitoring the financial outcome of the operating segments.

In this group, the board of directors in the parent company has the function as the senior management, making the strategic decisions.

Income

Income encompasses the fair value of what has been received or is expected to be received for sold goods and services in the group's operating activities. Income is reported excluding VAT, returns and discounts and after elimination of intra-group sales.

Oil India Sweden AB

Corporate identity no 556794-0530

Annual report 2016 04 01 – 2017 03 31

The group reports income when the amount can be measured in a reliable manner, when it is likely that future economic benefits will accrue to the company.

Other operating income

Costs arising from subordinated activities within the principal operation are presented as the other operating income.

Other operating costs

Costs arising from subordinated activities within the principal operation concerning operational receivables and operational liabilities are presented as other operational costs.

Taxes

The period's tax expense is made up of actual tax expense for the year and changes in the provision for deferred tax liabilities and changes in the presented value of the deferred tax receivables.

The actual tax liability is based on the taxable income for the year. The taxable income diverge from net profit/loss for the year as presented in the income statement, as the taxable income can contain either nontaxable income or non-tax deductible expenses, that are not deductible in the actual financial year, or taxable or deductible in other years than the actual financial year.

The actual tax liability has been calculated using the tax rates decided upon the balance sheet date.

Deferred tax is the tax as the company expects to pay or receive based on the differences between the presented values of assets and liabilities in the balance sheet and the equivalent taxable values.

Deferred tax assets (receivables) for taxable losses carried forward will only be presented if it is likely to use them in future and only to the expected decreased future tax expenses.

Financial assets

The group classifies its financial assets according to the following categories: financial assets measured at fair value in profit/loss, loan receivables and accounts receivables.

The classification is based on the reason for the purchase of the financial assets.

Financial assets recognized as assets in the consolidated statement of financial position include cash and cash equivalents, accounts receivables, financial investments and derivatives.

Financial assets which are not derivatives are initially recognized at a cost corresponding to the assets fair value including direct expenses. Exceptions are those financial assets recognized at fair value via profits/loss, which are recognized at fair value excluding transaction expenses.

Loan receivables and accounts receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in a active market.

Loan receivables are measured at the amortized cost, based on the effective interest calculated at the time of acquisition. Accounts receivables are recognized at the amount estimated to be paid after deduction for bad debts. Provision for bad debts is recognized in the operating expenses.

Cash and cash equivalents

Cash and cash equivalents comprise cash and instantly accessible balances at banks and equivalent institutions, as well as current investments with a term from the acquisition date of less than three months which are exposed to only a negligible risk of fluctuation.

Financial liabilities

Financial liabilities are classified as financial liabilities measured at fair value in profit/loss or as financial liabilities measured at the amortized cost.

Annual report 2016 04 01 – 2017 03 31

Accounts payables are obligations to pay for goods or services purchased in the operation from suppliers. Accounts payables are classified as current liabilities when they are due for payment within one year from the balance sheet date. Otherwise they are classified as long-term liabilities.

Earnings per share

The calculation of earnings per share is based on group profit for the year attributable to the Parent company's shareholders and the weighted average number of shares outstanding during the year.

Contingent liabilities

A contingent liability is recognized when there is a possible obligation arising from past events and the existence of which is substantiated only by one or more uncertain future events, or when there is an obligation which is not recognized as a liability or provision because it is not likely that an outflow of resources will be required.

Parent company's accounting principles

The differences between the accounting principles of the Group and the Parent company are due to the restrictions in the Swedish Annual Accounts Act for the use of IFRS in the Parent company and the tax regulations that make it possible to use in other accounting principles in a legal entity than the group accounts.

Participation in joint operations

Participation in joint operation is recognized in the Parent company in accordance with the cost method. Write-down of the booked value has been made at the balance sheet date to the equity value corresponding to the part belonging to the company in the joint operation.

Participation in associated companies

Participation in associated companies is recognized in the Parent company in accordance with the cost method. The Parent company's part of Net profit and loss in the associated company is recognized in the Profit and Loss statement to a value equal to the percentage holding of the shares in the associated company and in the balance sheet as a current receivable or liability from related party.

Restricted and non-restricted equity

In the Parent company's balance sheet the equity is divided into restricted and non-restricted equity in accordance with the Swedish Annual Accounts Act.

Note 15 Translation differences on foreign operations for the year

In the joint operation entity, all assets and liabilities expressed in currencies other than US-dollars have been translated at the rates of exchange prevailing at the balance sheet date, except for the investments in participations which are stated at historical rates. All transactions in foreign currencies have been translated into US dollars at the rates of exchange approximating those ruling at the date of the transactions. Resulting exchange differences have been recognized in the Profit and loss account except for the exchange differences arising from translation of share capital denominated in EUR, which are booked in the currency translation reserve. The following exchange rate has been applied as at 31 March 2017: USD 1 = EUR 0.93579 (31 March 2016: EUR 0.88247).

Translation of the above into the consolidated statements for Oil India Sweden AB resulted in significant amount of currency translation reserve.

Note 16 Financial risk

The Group's main exposure to financial risk consists of currency risk, liquidity and financing risk and interests.

Currency risk

The consolidated statement of comprehensive income is effected by exchange rate exposure when the joint operation's income statement is translated into SEK. The consolidated equity is also affected by exchange rate exposure when the net assets in the joint operation are translated into SEK.

Oil India Sweden AB has, with start from the beginning of financial year 2011/2012, changed its accounting currency to Euro, to decrease the risk of exchange rate fluctuations affecting the profit/loss for the year.

Oil India Sweden AB

Corporate identity no 556794-0530

Annual report 2016 04 01 – 2017 03 31

Liquidity and financing risk

Liquidity and financing risk refers to the fact that Oil India Sweden AB cannot meet its payment obligations due to insufficient liquidity or difficulties in raising new loans.

The activities of the group are fully financed by capital injections from the parent company Oil India Limited.

The principal activity of the group is to, through the joint operation Indoil Netherlands B.V., invest in joint arrangements with activities in Project Carabobo, Venezuela. The project will require additional financing, which will be fully covered by the parent company.

Interest risk

The group's revenues and operating cash flow are in all essentially not affected by interest rate adjustments due to the condition of the market.
