Diplomacy, not war: Modi's keynote on Ukraine crisis

India, Poland take relations to next level with strategic partnership upgrade

New Delhi, 22 August

rime Minister (PM) Narendra Modi reiterated India's stance on the ongoing war in Ukraine on Thursday, calling for dialogue and diplomacy rather than military solutions. He also announced the elevation of India's bilateral ties with Poland to the level of a strategic partnership.

"The ongoing conflicts in Ukraine and West Asia are a matter of deep concern for all of us. India firmly believes that no problem can be solved on the battlefield," Modi said at a joint press conference with Polish PM Donald Tusk in Warsaw.

The PM was on a two-day visit to Poland and departed for Ukraine on Thursday night.

"The loss of innocent lives in any crisis is the biggest challenge for humanity. We support dialogue and diplomacy for the early restoration of peace and stability. India is ready to provide all possible support along with its friendly countries,"

Modi and Tusk emphasised the need for a comprehensive, just, and lasting peace in line with international law.

"They also noted the negative impacts of the war in Ukraine on global food and energy security, particularly for the Global South. In the context of this war, they shared the view that the use, or threat of use, of nuclear weapons is unacceptable," a joint statement released after the meeting read.

India can play vital role in bringing swift and just end to Ukraine conflict: Polish PM

India can play a vital role in bringing a swift and just end to the conflict in Ukraine, Polish Prime Minister Donald Tusk said on Thursday after he held talks with Prime Minister Narendra Modi, who is embarking on a historic visit to Kyiv.

In his media statement, Tusk said that he and the Indian Prime Minister clarified their positions on issues that concern the whole world today. "I am very pleased that the Prime Minister confirmed the readiness of his personal commitment to a peaceful, just, quick end to the war. We are both convinced that India can play a very serious role here, and a positive role," Tusk said.

"We are united in our conviction that India is capable of playing an important and positive role in this matter," he was quoted as saying by the Polish Press Agency.

CRISIL SME TRACKER

Steel MSMEs may see softer growth this financial year

The growth of micro, small and medium enterprises (MSMEs) in the steel sector may moderate this financial year (FY25). The moderation will be

because of slower spending growth of core infrastructure ministries such as railways. road, rural and urban development, power, renewable energy and civil aviation. The growth can moderate from 15.1 per cent (FY24 Revised Estimates (RE) vs FY23 Actuals) to 8.4 per cent (FY25 Budget Estimates vs

Despite this, growth is still projected to exceed decadal averages and will continue to be aided by demand from infrastructure and construction segments.

FY24 RE).

Steel MSMEs in India mainly manufacture longsteel products such as reinforcing bars and wire rods using induction-based furnaces from raw material such as steel scrap and sponge iron, or by re-rolling billets.

iron players import low-ash thermal coal for production and, hence, thermal coal and iron ore have a material bearing on sponge iron prices.

Cumulative demand for long steel in the first quarter of FY25 stood at about 19.1 million tonnes (mt), up 1.75 mt, or 10.1 per cent year-onyear (Y-o-Y). CRISIL Market

Intelligence & Analytics

demand to grow 6-8 per cent in FY25 as well as over the medium term by FY29. Similarly, production of long steel increased 9.8 per cent Y-o-Y in the first quarter. Of the total 19.3 mt fin-

(MI&A) projects long steel

ished steel production, 71.3 per cent was manufactured by medium and small steel mills and the remaining by six large integrated steel producers (JSW group, Tata Steel group, SAIL, JSPL, AM/NS, and RINL). India houses more than

600 small-scale inductionbased furnace operators, constituting 12-14 per cent of the total crude steel capacity. Several small mills have either expanded capacity or integrated upstream or

downstream capacities,

thus moving out of the

MSME bucket. Continued domestic demand support, combined with cooling raw material prices, have kept margins positive and utilisation

levels high.

However, iron ore prices are likely to increase with the recent Supreme Court ruling underscoring the authority of states to impose taxes on minerals, in addition to the royalty levied by the Centre.

But a response from states remains a key factor, except .Tharkhand — one of the key iron ore producing states which has passed a Bill to levy ₹100 per tonne tax on iron ore. The levy will increase

the cost of iron ore for mills by 2-3 per cent. MSMEs may see their margins contract as long-steel prices are expected to remain soft Decreasing volatility in

steel prices will help steel rerollers and traders gain better visibility of margins, while demand will ensure healthy inventory levels and working capital. Higher capital rates and

inflationary pressure are likely to increase the cost of doing business.
