

## Inauguration of the Handbook - Geological Sample Analysis

On 15th July 2024, the inauguration of the newly prepared comprehensive **“Handbook-Geological Sample Analysis,”** by Dr. Ranjit Rath, Chairman & Managing Director (CMD), OIL, took place in the esteemed presence of functional Directors and independent Directors at Duliajan. This significant event marks a milestone in our continuous pursuit of excellence and innovation in the oil industry.

This handbook is a valuable resource for our Geoscientists and R&D personnel, enhancing the precision and reliability of our operations and the analysis of all aspects of geological information. It contributes to comprehensive basin analysis for the successful exploration and development of oil and gas fields. The handbook is meticulously structured into six chapters, each focusing on specific areas of expertise, ranging from geological sample analysis to advanced geochemical and micropaleontological studies.

The inauguration ceremony was a moment of pride for all involved, highlighting our commitment to maintaining the highest standards in our exploration and field development efforts.

Highlights of Inauguration:
