

**Amendments in Technical Specification for 3.1/2 inches Mud Motor**

TECHNICAL SPECIFICATIONS

Sl. No	Earlier Specifications	Amended Specifications
5	Motor flow rate range = Around 70-160 GPM (265-606 LPM). The minimum flow rate should not be higher than 70 GPM (265 LPM) and the maximum flow rate should not be lower than 160 GPM (606 LPM)	Motor flow rate range = 70-160 GPM (265-606 LPM). The minimum flow rate should not be higher than 70 GPM (265 LPM) and the maximum flow rate should not be lower than 160 GPM (606 LPM)
7	Bit speed = Around 100 - 240 RPM The minimum bit speed should not be higher than 100 RPM and the maximum bit speed should not be lower than 240 RPM	Bit speed = 100 - 240 RPM The minimum bit speed should not be higher than 100 RPM and the maximum bit speed should not be lower than 240 RPM
