CORRIGENDUM

Amendment No. 2 Dated 10.11.2015

to

Tender No. SDG8357P16/06 for Supply of COMPOSITIONAL SIMULATOR SOFTWARE

This Amendment No. 2 dated 10.11.2015 to **Tender No. SDG8357P16/06 for Procurement of** COMPOSITIONAL SIMULATOR SOFTWARE is issued to add the following additional clauses in “General notes to Bidders” and to extend the Bid Closing / Technical Bid Opening date as under:

Additional clause:

- A. “OIL intends to model the Asphaltene formation and its impact on reservoir formation using the Compositional Simulator. It should have sufficient flexibility to simulate the wide range of processes associated with Asphaltene behavior like precipitation, dissolution, flocculation, dissociation, deposition etc.”
- B. “OIL intends to model the effect of low versus high salinity on the flow performance with the low salinity option. The salinities can be made of different salt species. The parameters will be provided either based on lab results or best possible estimates depending on the available data with the RE Group.”
- C. “OIL requires a Compositional Simulator, either standalone or add-on, that should meet the SOW and should not have any compatibility issue with ECLIPSE and Petrel RE simulators available with OIL.”
