- 16.6 All the conditions of the contract to be made with the successful bidder are given in various Sections of this document. Bidders are requested to state their compliance/ non-compliance to each clause as per **Proforma-D**. This should be enclosed with the technical bid.
- 16.7 Timely delivery of the bids is the responsibility of the Bidder. Bidders should send their bids as far as possible by Courier Services or Registered Post or safe hand mode. Bids may also be handed over to the Officer in Charge of receiving the bids before the bid closing date and time. Company shall not be responsible for any postal delay/transit loss.
- 16.8 Bids received in any other form (e-mail, fax etc.) shall not be accepted except mentioned in **clause No. 14.0**, above.
- 17.0 DEADLINE FOR SUBMISSION OF BIDS:** Bids in physical form in triplicate (Original + 2-copies) must be received by the company within the Bid Closing Date & Time at the address specified in the "Forwarding Letter".
- 18.0 LATE BIDS:** Any Bid received by the Company after the deadline for submission of bids prescribed by the Company shall be straightway rejected.
- 19.0 MODIFICATION AND WITHDRAWAL OF BIDS:**
- 19.1 The Bidder after submission of bid may modify or withdraw its bid by written notice prior to bid closing date and time.
- 19.2 The Bidder's modification or withdrawal notice shall be prepared sealed, marked and dispatched in accordance with the provisions of **para 16.0**, above. A withdrawal notice

may also be sent by e-mail but followed by a signed confirmation copy, postmarked no later than the deadline for submission of bids.

19.3 No bid can be modified subsequent to the deadline for submission of bids.

19.4 No bid may be withdrawn in the interval between the deadline for submission of bids and the expiry of the period of bid validity specified by the Bidder on the Bid Form.

20.0 EXTENSION OF BID SUBMISSION DATE:

20.1 Normally no request for extension of Bid Closing Date & Time will be entertained. However, OIL at its discretion, may extend the Bid Closing Date and/or Time due to any reasons. In case of receipt of only one Bid on the Bid Closing Date and Time, OIL may extend the Bid Closing /Opening Date by 2(two) weeks. However, the bidder whose bid has been received within the bid closing date and time will not be allowed to revise their Bid/prices.

21.0 BID OPENING AND EVALUATION:

21.1 Company will open the Technical Bids (in case of Single Stage Two Bid System), including submission made pursuant to para 16.0, in presence of Bidder's representatives who choose to attend at the date, time and place mentioned in the Forwarding Letter. However, an authorization letter (as per **Proforma-G**) from the bidder must be produced by the Bidder's representative at the time of bid opening. Unless this Letter is presented, the representative will not be allowed to attend the bid opening. The Bidder's representatives who are allowed to attend the bid opening shall sign a register evidencing their attendance. Only one representative against each bid will be allowed to attend.

21.2 In case of any unscheduled holiday or Bandh/strike on the Bid Opening Date, the Bids will be opened on the next full working day. Accordingly, Bid Closing Date / time will get extended up to the next working day and time.

21.3 Bid for which an acceptable notice of withdrawal has been received pursuant to para 19.0 shall not be opened. Company will examine bids to determine whether they are complete, whether documents have been properly signed and whether the bids are generally in order.

21.4 At bid opening, Company will announce the Bidder's names, written notifications of bid modifications or withdrawal, if any, and such other details as the Company may consider appropriate.

21.5 Company shall prepare, for its own records, minutes of bid opening including the information disclosed to those present in accordance with the subpara 21.3.

- 21.6 Normally no clarifications shall be sought from the Bidders. However, for assisting in the evaluation of the bids especially on the issues where the Bidder confirms compliance in the evaluation and contradiction exists on the same issues due to lack of required supporting documents in the Bid (i.e. document is deficient or missing), or due to some statement at other place of the Bid (i.e. reconfirmation of confirmation) or vice versa, clarifications may be sought by OIL. In all the above situations, the Bidder will not be allowed to change the basic structure of the Bid already submitted by them and no change in the price or substance of the Bid shall be sought, offered or permitted.
- 21.7 Prior to the detailed evaluation, Company will determine the substantial responsiveness of each bid to the requirement of the Bidding Documents. For purpose of these paragraphs, a substantially responsive bid is one, which conforms to all the terms and conditions of the Bidding Document without material deviations or reservation. A material deviation or reservation is one which affects in any way substantial way the scope, quality, or performance of work, or which limits in any substantial way, inconsistent way with the bidding documents, the Company's right or the bidder's obligations under the contract, and the rectification of which deviation or reservation would affect unfairly the competitive position of other bidders presenting substantial responsive bids. The Company's determination of bid's responsiveness is to be based on the contents of the Bid itself without recourse to extrinsic evidence.
- 21.8 A Bid determined as not substantially responsive will be rejected by the Company and may not subsequently be made responsive by the Bidder by correction of the non-conformity.
- 21.9 The Company may waive minor informality or non-conformity or irregularity in a bid, which does not constitute a material deviation, provided such waiver, does not prejudice or affect the relative ranking of any Bidder.
- 22.0 OPENING OF PRICE BIDS:**
- 22.1 Company will open the Priced Bids of the techno-commercially qualified Bidders on a specific date in presence of representatives of the qualified bidders. The techno-commercially qualified Bidders will be intimated about the Priced Bid Opening Date & Time in advance. In case of any unscheduled holiday or Bandh/strike on the Priced Bid Opening Date, the Bids will be opened on the next working day.
- 22.2 The Priced bids of the unsuccessful bidders which remain unopened with OIL may be returned to the concerned bidders on request only after receipt of Performance Security from the successful bidders after issue of Letter of Award (LOA) by OIL
- 22.3 The Company will examine the Price quoted by Bidders to determine whether they are complete, any computational errors have been made, the documents have been properly signed, and the bids are generally in order.
- 22.4 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price (that is obtained by multiplying the unit price and quantity) the unit price shall prevail and the total price shall be corrected accordingly. If any Bidder does not accept the correction of the errors, their bid will be rejected. If

there is a discrepancy between words, and figures, the amount in words will prevail. If any Bidder does not accept the correction of the errors, their Bid will be rejected.

23.0 CONVERSION TO SINGLE CURRENCY:

While evaluating the bids, the closing rate of exchange declared by OANDA Exchange Rate of Gabon on the day prior to price bid opening will be taken into account for conversion of foreign currency. Where the time lag between the opening of the price bids and final decision exceeds three months, the rate of exchange declared by OANDA Exchange Rate of Gabon on the date prior to the date of final decision will be adopted for conversion.

24.0 EVALUATION AND COMPARISON OF BIDS: The Company will evaluate and compare the bids as per **BID EVALUATING CRITERIA (BEC)/BID REJECTION CRITERIA (BRC)** in **Part-2** of the bidding documents.

25.0 DISCOUNT/REBATES:

25.1 Unconditional discounts/rebates, if any, given in the bid will be considered for evaluation.

25.2 Post bid or conditional discounts/rebates offered by any bidder shall not be considered for evaluation of bids. However, if the lowest bidder happens to be the final acceptable bidder for award of contract, and if they have offered any discounts/rebates, the contract shall be awarded after taking into account such discounts/rebates.

26.0 EXCHANGE RATE RISK: Since bidders are permitted to quote any currency and receive payments in that currency, company will not be compensating for any exchange rate fluctuations in respective of the services.

27.0 CONTACTING THE COMPANY:

27.1 Except as otherwise provided in para 21.0 above, no Bidder shall contact Company on any matter relating to its bid, from the time of the bid opening to the time the Contract is awarded except as required by Company vide para 21.6.

27.2 An effort by a Bidder to influence the Company in the Company's bid evaluation, bid comparison or Contract award decisions may result in the rejection of their bid.

28.0 AWARD OF CONTRACT:

28.1 **AWARD CRITERIA:** The Company will award the Contract to the successful Bidder whose bid has been determined to be substantially responsive and has been determined as the **lowest evaluated bid**, provided further that the Bidder is determined to be qualified to perform the Contract satisfactorily.

29.0 COMPANY'S RIGHT TO ACCEPT OR REJECT ANY BID: Company reserves the right to accept or reject any or all bids and to annul the bidding process and reject all bids, at any time prior to award of contract, without thereby incurring any liability to the affected bidder, or bidders or any obligation to inform the affected bidder of the grounds for Company's action.

30.0 NOTIFICATION OF AWARD:

30.1 Prior to the expiry of the period of bid validity or extended validity, the company will notify the successful Bidder in writing by e-mail or registered letter that its bid has been accepted.

30.2 The notification of award will constitute the formation of the Contract.

31.0 PERFORMANCE SECURITY: Successful bidder has to submit Performance Security for an amount 10% of the total evaluated contract value within **15(Fifteen) days** from the date of issue of LOA.

31.1 On receipt of notification of award from the Company, the successful Bidder shall furnish to Company the Performance Security for an amount specified in the Forwarding Letter of the tender (and Letter of Award (LOA) issued by Company to Contractor awarding the contract) which must be in the form of Bank Guarantee as per **Proforma-H** or Bank Draft or certified Banker's cheque in favour of Oil India Limited or in any other format acceptable to the Company. The performance security shall be payable to Company as compensation for any loss resulting from Contractor's failure to fulfil its obligations under the Contract. The Performance Security shall be denominated in the currency of the contract. In the event of extension of the contract period, the validity of performance security/Bank Guarantee shall be suitable extended by the Contractor.

31.2 Bank Guarantee issued by a Bank, amongst others, must contain the following particulars of such bank:

- (i) Full address
- (ii) Branch Code, if any
- (iii) The authorized signatory full name and designation
- (iv) Phone Nos., Fax Nos., E-mail address

31.3 The Performance Security specified above must be valid for 3(three) months beyond the contract period. The Performance Security will be discharged by Company not later than 30 days following its expiry. In the event of any extension of the Contract period, Bank Guarantee should be extended by Contractor by the period equivalent to the extended period.

31.4 The performance security shall be payable to Company as compensation for any loss resulting from Contractor's failure to fulfil its obligations under the Contract.

31.5 The Performance Security will not accrue any interest during its period of validity or extended validity.

31.6 In the event of failure of the successful Bidder to comply with the requirements of para 31.0 and/or 32.0, it shall constitute sufficient grounds for annulment of the award. In such an event the Company may call for new bid as the case may be and take action with the bidder as deemed fit. In such an eventuality, the party shall be debarred for a period of 2(two) years from the date of default.

32.0 SIGNING OF CONTRACT:

- 32.1 At the same time as the Company notifies the successful Bidder that its Bid has been accepted, the Company will either call the successful bidder for signing of the agreement or send the Contract Form provided in the Bidding Documents, along with the General & Special Conditions of Contract, Technical Specifications, Schedule of rates incorporating all agreements between the parties.
- 32.2 Within 30 days of issue of Letter of Award (LOA), the successful Bidder shall sign and date the contract and return it to the company. Till the contract is signed, the LOA issued to the successful bidder shall remain binding amongst the two parties.
- 32.3 In the event of failure on the part of the successful bidder to sign the contract within the period specified above or any other time period specified by Company, OIL reserves the right to terminate the LOA issued to the successful bidder. The party shall also be debarred for a period of 2(two) years from the date of default.

33.0 FURNISHING FRAUDULENT INFORMATION/DOCUMENTS:

If it is found that a bidder/contractor has furnished fraudulent information/documents, the Performance Security shall be forfeited and the party shall be debarred for a period of 3 (Three) years from the date of detection of such fraudulent act besides the legal action.

- 34.0 CREDIT FACILITY:** Bidder should indicate clearly in the Bid about availability of any credit facility inclusive of Government to Government credits indicating the applicable terms and conditions of such credit.

35.0 LOCAL CONDITIONS:

It is imperative for each Bidder to fully inform themselves of all Gabon as well as local conditions, factors and legislation which may have any effect on the execution of the scope of work covered under the Bid Document. The bidders shall be deemed prior to submitting their bids to have satisfied themselves as to the circumstances at the Site, including without limitation, the ground and subsoil, the form and nature of the Site and the climate and hydrological conditions of the Site and obtained for themselves all necessary information as to the risks, contingencies and all other circumstances, which may influence or affect the Contract price and its obligations under the Contract.

No request will be considered for clarifications from the Company (OIL) regarding such conditions, factors and legislation. It is understood and agreed that such conditions, factors and legislation have been properly investigated and considered by the Bidders while submitting the Bids. Failure to do so shall not relieve the Bidders from responsibility to estimate properly the cost of performing the work within the provided timeframe. Company (OIL) will assume no responsibility for any understandings or representations concerning conditions made by any of his officers or agents prior to award of the Contract. Company (OIL) shall not permit any Changes to the time schedule of the Contract or any financial adjustments arising from the Bidder's lack of knowledge and its effect on the cost of execution of the Contract.

36.0 SPECIFICATIONS:

Before submission of Bids, bidders are requested to make themselves fully conversant with all Conditions of the Bid Document and other relevant information related to the works to be executed under this contract. The bidder has also to submit the Statement as per the format (**Proforma-E**) attached with the bid that they are fully aware of all the laws prevailing in Gabon including statutory permissions required for complete performance of the scope of work as per this bid to the satisfaction of OIL.

37.0 MOBILIZATION ADVANCE:

- 37.1 Request for advance payment shall not be normally considered. However, depending on the merit and at the discretion of the Company, advance against mobilisation charge may be given at an interest rate of 1% above the prevailing Bank rate (CC rate) of Gabon preferably through CITI Bank, Gabon or State Bank of India from the date of payment of the advance till recovery/refund.
- 37.2 Advance payment agreed to by the Company shall be paid only against submission of an acceptable bank guarantee whose value should be equivalent to the amount of advance plus the amount of interest covering the period of advance. Bank guarantee shall be valid for 2 months beyond completion of mobilisation and the same may be invoked in the event of Contractor's failure to mobilise as per agreement.
- 37.3 In the event of any extension to the mobilisation period, Contractor shall have to enhance the value of the bank guarantee to cover the interest for the extended period and also to extend the validity of bank guarantee accordingly.
- 38.0 Bidder(s) should clearly understand all the terms & conditions, criteria, specification etc. of this tender.
- 39.0 OIL INDIA LIMITED reserves the right to (a) accept or reject any/all bids, (b) curtail/enhance the scope of work; submitted by parties or (c) cancel the process at any time, if required without any liability and assigning any reason thereof to the bidders.

(b) Oil India Limited (OIL) reserves the right to contact the Client(s) referred by the Bidder for authentication of the documents submitted by the Bidder. OIL may contact the clients/operators under intimation/copy to the respective Bidder. OIL will not be responsible for Client(s) not conforming or not replying to OIL's request for information. If OIL does not get an affirmative response within the stipulated time, then such Bidder's technical bid will be considered as non-responsive and shall be rejected in such case. It will be the responsibility of the Bidder to take up the matter with his Client(s) and arrange for the confirmation as desired by OIL.

8.0 **GENERAL CRITERIA:**

- (a) To ascertain the substantial responsiveness of the bid the Company reserves the right to ask the bidder for clarification in respect of clauses covered under BEC/BRC also and such clarifications fulfilling the BEC/BRC clauses in toto must be received on or before the deadline given by the company, failing which the offer will be evaluated based on the submission. However, mere submission of such clarification shall not make the offer responsive, unless Company is satisfied with the substantial responsiveness of the offer.
- (b) If any of the clauses in the BEC/BRC contradicts with other clauses of bidding document elsewhere, the clauses in the BEC/BRC shall prevail.

- (c) In case bidder takes exception to any clause of bidding document not covered under BEC/BRC, then the Company has the discretion to load or reject the offer on account of such exception if the bidder does not withdraw / modify the deviation when / as advised by company. The loading so done by the Company will be final and binding on the bidders. No deviation will however be accepted in the clauses covered under BEC/BRC.
- (d) **Submission of Forged Documents:** Bidders should note that Company (OIL) may verify authenticity of all the documents /certificates / information submitted by the bidder(s) against the tender. In case at any stage of tendering process or Contract execution etc., if it is established that bidder has submitted forged documents / certificates / information towards fulfilment of any of the tender / contract conditions, Company shall immediately reject the bid of such bidder(s) or cancel / terminate the contract besides taking action as per OIL's Banning Policy dated 6th January 2017, available in the OIL's website. Accordingly, service provider/vendor to submit the Undertaking of authenticity of information/documents submitted as per **ANNEXURE-VI**.
- (e) All certificates and documentary evidences required to be submitted in support of above clauses should be clearly legible and in English language. If any certificate is submitted in a language other than English language, the same should be translated to English by certified translator, in which case, for purposes of interpretation of the bid, the translation shall prevail. Illegible and incomplete certificates or documents will not be considered for evaluation.
- (f) Vendor/Contractor/Service Provider must agree to abide by the law of Gabon for all purposes.
- (g) The originals, of the documents submitted by the bidder, shall have to be produced by the bidder(s) to OIL as and when asked for.
- (h) For evaluation of Bids, the closing rate of exchange declared by OANDA Exchange Rate of Gabon on the day prior to bid opening will be taken into account for conversion.
- (i) Any exception/deviation to the tender must be spelt out by the bidder in their "Technical Bid" only. Any additional information/terms & conditions furnished in sealed Price Bid will not be considered by OIL for evaluation/award of contract. However, OIL INDIA LIMITED expects the bidders to fully accept the terms and conditions of the bid document.

9.0 EVALUATION CRITERIA:

Techno-commercially Qualified Bids conforming to the technical specifications, terms and conditions stipulated in the bidding document and considered to be substantially responsive after subjecting to Bid Evaluation Criteria (BEC) shall be considered for further evaluation as per the Evaluation Criteria given below:

- (a) The bidders must quote their Prices in the manner as called for vide Price Bid Format in **Proforma-B**.
- (b) If there is any discrepancy between the unit price and the total price, the unit price will prevail and the total price shall be corrected. Similarly, if there is any discrepancy between words and figure, the amounts in words shall prevail and will be adopted for evaluation.
- (c) If bidders happen to be two or more in the same position, priority list will be prepared by drawing Lottery/Lots among the bidders within the same position.
- (d) The rates towards Mobilization Charges, Standby day Rate, Force Majeure and Demobilization Charges will be restricted to the limit indicated against each as under:
 - (i) Mobilization charges of Mud Engineering Service Package including manpower, mud chemicals, laboratory, Equipment, etc **shall not exceed 10% of the total evaluated contract price** for 2(Two) wells operations. However, mobilization charges if quoted in excess of **10%** of the estimated total contract cost, the excess amount shall be paid at the end of the contract. However, the holding amount will not accrue any bank interest.
 - (ii) Demobilization Charge of the Mud Engineering Service Package including manpower, mud chemicals(left-over), laboratory, Equipment, etc **shall not be lower than 5% of total evaluated contract value**. In case de-mob charges quoted is lower than 5%, the differential amount (between 5% and quoted price) will be kept on hold from the 1st invoice onwards as per equation shown below and the same will be paid at the end of the contract along with Demobilization charges.

Amount that will be kept on hold in case of demobilization charge is less than 5% of the total contract value = (5% of total quoted contract value) - (Total Quoted Value of Demobilization)

However, the holding amount will not accrue any bank interest.
 - (iii) Standby day rate shall not exceed 85% of the operating day rate.
- (e) The Mud Engineering Service Package including manpower, mud chemicals, laboratory, Equipment, etc under this tender shall be used in OIL's exploration area in Gabon for which the items imported for the exploration activities are exempted from customs duty. Hence, NIL rates have to consider for Custom Duty. Bidders are requested to go through the rules & regulations, procedures of Customs of Gabon prior to bidding to make them fully aware and understand the Customs Rule.

Note: The equipment/items/materials if imported in to Gabon on re-exportable basis for execution of this contract shall have to re-export after completion of the assignment and should complete all required formalities & documentation by the

contractor/service provider. The Contractor/service provider should arrange for re-export of all items/equipment/materials within a specified period.

- (f) The quantities shown against each item in the "Price Bid Format (i.e. in **PROFORMA-B**" shall be considered for the purpose of Bid Evaluation. It is, however, to be clearly understood that the assumptions made in respect of the number of days/parameters for various operations are only for the purpose of evaluation of the bid and the Contractor will be paid on the basis of the actual number of days/parameter, as the case may be.
- (g) To ascertain the inter-se-ranking, the comparison of the responsive bids will be made subject to loading for any deviation. Commercial Bids shall be evaluated taking into account the rates quoted in the PRICE BID FORMAT as per **PROFORMA-B**.

34.0 INTELLECTUAL PROPERTY OWNERSHIP

While providing the Services to Company, contractor may utilize expertise, know-how and other intellectual capital (including intellectual Property) and develop additional expertise,

know-how and other intellectual capital (including intellectual property) which are contractor's exclusive property and which Contractor may freely utilize in providing Services for its other customers. Except where expressly and specifically indicated in writing, and in exchange for appropriate agreed payment, Contractor does not develop any intellectual property for ownership by Company, Contractor retains sole ownership of any such intellectual capital (including intellectual property) created by Contractor during the course of providing the Services. Contractor grants no title, license or right to Company to use Contractor intellectual capital (including intellectual property).

35.0 INTELLECTUAL PROPERTY INFRINGEMENT

Contractor shall indemnify and hold the Company harmless from any third party claims arising on account of intellectual property infringement with respect to its Services. Except when such infringement is caused due to (a) combination of contractor's equipment or Services in combination or their equipment and / or services not recommended by Contractor (b) out of unauthorized additions or modifications of contractor's equipment or services by Company, or (c) Company's use of contractor's equipment or services that does not correspond to Contractor.

36.0 ROYALTY AND PATENTS: Each party shall hold harmless and indemnify the other from and against all claim and proceedings for or on account of any patent rights, design, trade mark or other protected rights arising from any use of materials, equipment, processes, inventions and methods which have not been imposed on the attending party by the terms of the contract or the specifications or drawings forming part thereof.

37.0 INSPECTION BY OPERATOR: The Company shall have the right to inspect and reject for any valid cause any items furnished by Contractor and Contractor shall replace or repair at its sole expense such items so rejected with items free of defects, to the satisfaction of the Company.

38.0 The Contractor shall assume all responsibility for cleaning up and controlling pollution or contamination which originates from Contractor's equipment and facilities above the surface including all claims, demands and causes of action of every kind and character arising from such pollution or contamination.

39.0 CUSTOMS DUTY:

- (i) The services under this Contract shall be carried out in OIL's exploration areas, for which, the items / equipment / spares / tools / materials to be imported in connection with execution of this particular Contract are exempted from customs duty but are subject to approval of the DGH-Gabon and Custom authority of Gabon. **Bidders/Service Providers should go through the rules & regulations, procedures of Customs of Gabon to make them fully aware and understand the Customs Rule for a suitable offer.**
- (ii) Bidder/Contractor should provide the list of items to be imported by them under the Contract in the format specified in **Proforma-A** along with their bid for issuance of DGH-Gabon approval for exemption of Custom Duty benefit. Contractor shall made written request to DGH-Gabon immediately through company (OIL) after shipment of the goods indicated by them in Proforma-A along with the invoices and all shipping

documents (with clear 15(fifteen) working days notice) requesting for exemption of Custom Duty. OIL will provide necessary documents, if required to avail Custom duty exemption. It shall be however, Contractor's responsibility to obtain recommendation of approval from DGH and clear the goods through customs. OIL shall not be liable in whatsoever manner for the rejection of their claims for zero customs duty by any of the authorities including DGH-Gabon arising solely as a result of any default on the part of the Contractor. Contractor shall indemnify OIL from all liabilities of Customs Duty.

- (iii) It is the single point responsibility of the contractor to clear all the material, equipment, items from custom authority of Gabon, transportation to the well site, storage of all the required consumables including tubular at their own cost.
- (iv) **Re-Export:** The equipment/items/materials to be imported in to Gabon on re-exportable basis for execution of this contract shall have to re-export after completion of the assignment and should complete all required formalities & documentation. The Contractor should submit all the clearances obtained from the respective Custom authorities and other agencies for re-export of the entire equipment, tools, items, consumables (Leftover) to the company before releasing the final bill. The Contractor/Service provider should arrange for re-export of all items/equipment/materials within the specified period mentioned in this contract document. If the re-export is not completed within the specified period; then the applicable customs duty, penalty etc. levied by customs authorities for such delay shall be to Contractor's account and same will be deducted by the Company from Contractor's bills and Performance Security. Also, the Contractor will be fully responsible to pay the customs duty with other duties & taxes including Penalty.

END OF SECTION-I

PART-3

SECTION-II

SCOPE OF WORK / TERMS OF REFERENCE / TECHNICAL SPECIFICATION

Brief description of service: “Hiring of Mud Engineering Services including supply of mud chemicals/materials, mud testing laboratory and equipments for drilling of 2 (two) exploratory wells” in Shakthi Block-II, Gabon with an option of extension of the contract to another drilling location at the sole option of the company (OIL) at the same terms and conditions and mutually agreed rates but not higher than the original rate(s).

This section establishes the scope and schedule of the work to be performed by the Contractor and describes the specifications, instructions, standards and other documents including the specifications for any materials, tools or equipment, which the Contractor shall satisfy or adhere to in the performance of the work.

1.0 DEFINITION OF WORK

Contractor to provide mud engineering services with complete packages of equipments, mud laboratory with tools, manpower, supply of mud chemicals, additives and any other consumables required to carry out successful completion of two vertical drilling wells of TD: 2570 m & 1950 m at Loc. C & Loc. LE respectively.

2.0 OTHER INFORMATION

The proposed two exploratory wells will be drilled by engaging a Charter Hire on-land electrical drilling rig of 1400 HP capacity. The wells will be vertical with formation pressure to be near hydrostatic. The wells are planned to achieve TD in 8.½” hole and open hole section will be enlarged to 9.½” by using 9.½”-9.½” under reamer. Both the wells are planned to be completed by lowering 7” production liner to TD. In the case when due to operational issues the 8.½” hole section cannot be drilled to well TD, a 7” liner will be set as a drilling liner (as deep as practically possible). After this the well will be drilled to TD in 6” hole size. In this case a 4.½” liner would only be run to well TD if oil shows indicate that the well may be tested. Depth of the wells may somewhat increase or decrease at the discretion of the Company within the rated capacity of the Rig.

3.0 BRIEF DESCRIPTION OF SHAKTHI BLOCK-II

The Shakthi Block-II (G4-245) was awarded to a consortium of M/s Oil India Limited (OIL) & M/s Indian Oil Corporation Limited (IOCL), both Government of India Company under the administrative control of Ministry of Petroleum and Natural Gas, where OIL is operator. Shakthi Block-II (G4-245) with total surface area of 3761.25 SQ.KM is situated in Interior- Basin, Gabon. This block has rivers, lakes, marshy land, national parks and undulating surface. A national highway N-1 is passing through this block is a life line for this area as most of villages, small town fall along this route. This block is covered by forest with thick vegetation and flora and fauna.

4.0 BRIEF DESCRIPTION OF THE LOCATIONS:

- The wells to be drilled viz. Loc C & Loc LE are approximately 190 km & 175 km away by road from Libreville, Gabon and are approximately 95 km & 80 km away by road from Lambarene towards Libreville respectively.
- The distance between the two locations is approximately 25 Km by road.
- The nearest major airport to the location is Libreville (about 250 kilometres away); with seaports at Libreville & Port-Gentil and River Port at Lambarene.
- Drilling is to be started tentatively by May'2020.
- The wells are located within the Interior Sub-basin and are in forest area.
- The TD of the wells are Loc. C=2570 m & Loc. LE=1950 m.
- Wells are expected to be normally pressured and the bottom hole temperature is estimated to be 88 Deg C at 2570 metre in Loc. C and 76 Deg C at 1950 metre in Loc. LE.
- Target formations are the N'Dombo and M'Vone.
- The Sub-surface pressure at the reservoir is expected to be nearly hydrostatic.
- Mud loss is not ruled out in the unconsolidated shallower formations

* Bentonite Suspension mud will be used for drilling 17.1/2" hole for Loc. LE.

**Hole enlargement to 9.1/2" to 9.5/8" by under reamer.

Note-1:

- Depths are tentative, may vary as per operational and G&G requirement.
- In case when due to operational issues the 8.1/2" hole section cannot be drilled to well TD, a 7" liner will be set as a drilling liner (as deep as practically possible). After this the well will be drilled to TD in 6" hole size. In this case a 4.1/2" liner would only be run to well TD if oil shows indicate that the well may be tested.
- Stage Cementation may be planned in 9.5/8" casing in view of requirement of higher volume of cement and/or expected loss – prone zone.

Mud Loss: At Loc#SD (Lassa-2) while drilling 8.1/2" section at a depth of 1713 m a sudden mud loss of 50 bbls observed. Total Mud loss of 153 bbls during circulation after landing 7" liner shoe @1668 m & 147 bbls encountered during 7" liner cementation. Provision shall be kept for liner tie back if situation demands for so.

6.0 **SCOPE OF WORK – MUD ENGINEERING SERVICE:**

The basic and important requirements of Mud Engineering Services to be provided for the drilling of two exploratory vertical wells in Block Shakthi-II are as follows:

- To provide primary well control by balancing any formation pressure.
- To provide hole cleaning and remove drilled cuttings.
- To lubricate the bit and the drill string to reduce torque.
- To provide good filter cake and neutralize potential loss zones.
- To provide stable wellbore conditions in all Lithology including halites and evaporate.
- Be environmentally sensitive.
- Provide a financially feasible option.

The Contractor is required to provide Mud Engineering Services in totality. The broad scope of work and supply materials includes but not limited to:

- Designing and formulation of phase-wise mud program and completion fluid. Supply of adequate water for preparation of mud will be met either by Company or by any third party engaged by Company.
- Complete Mud engineering services.
- Supply of complete line of drilling mud, completion fluids and wellbore clean up chemicals/additives at site.
- Supply of qualified & competent Personnel to carry out Mud Engineering services round the clock throughout the contract period.
- Supply of well site laboratory equipped with mud testing equipment, tools, accessories and reagents at site as per the requirement given in **Annexure-V**.

6.1 **DESIGNING OF MUD PROGRAMME:**

- 6.1.1 Based on the GTO/Drilling Program, Contractor shall design a phase wise mud program including detail mud formulation, mud weight and other important mud parameters, requirement of mud chemicals and anticipated volume usage for each phase of the well, including the benefit of the proposed mud system.
- 6.1.2 An estimate of mud additives / materials required for each interval and the associated cost, as well as a total cost for each well.
- 6.1.3 The Contractor shall keep adequate provision of mud additives for addressing down hole complications including but not limited to cement contamination, mud loss, stuck pipe, caving, high pressure kick etc. and have back-up chemicals readily available at site.
- 6.1.4 Summary of environmental concerns (if any) with the proposed mud system(s), as well as associated disposal and/or restocking considerations.

6.2 PERSONNEL TO BE DEPLOYED:

- 6.2.1 **Lead Mud Engineer:** Contractor will provide one on-site Lead Mud Engineer on 12-hour shift basis. The Mud Engineer will be required to work on a suitable basis of ON/OFF duty roaster and rotation accordingly. OIL reserves the right to modify its requirement of on-site Mud Engineers anytime.
- 6.2.2 **Second Mud Engineer:** Contractor will provide one on-site Second Mud Engineer on 12-hour shift basis. The Mud Engineer will be required to work on a suitable basis of ON/OFF duty roaster and rotation accordingly. OIL reserves the right to modify its requirement of on-site Mud Engineer anytime.
- 6.2.3 **Experience of Lead Mud Engineers:** Should have minimum educational qualification of Bachelor in Science /Engineering or equivalent. The Lead Mud Engineer should have minimum five (05) years experience in handling the proposed KCL-PHPA-Polymer mud system independently in OIL/GAS wells of at least 2600 m depth.
- 6.2.4 **Experience of Second Mud Engineers:** Should have minimum educational qualification of Bachelor in Science /Engineering or equivalent. Second Mud Engineer should have minimum three (03) years experience in handling the proposed KCL-PHPA-Polymer mud system independently in OIL/GAS wells of at least 2600 m depth.
- 6.2.5 Both the Mud Engineers should have adequate knowledge in working with contractor's materials, equipment and procedures for the services provided by the contractor. The mud engineer should be competent enough/should have sufficient experience in solving down hole complications including but not limited to cement contamination, mud loss, stuck pipe, caving, high pressure kick etc. The mud engineers shall work in close coordination with OIL's Chemist / Company man and discuss/communicate all work plan related to operation.
- 6.2.6 The Mud Engineers should be sound health and fit to work in different Environment. The maximum age of Mud Engineers should not be more than 55years as on scheduled bid closing date of this Tender.
- 6.2.7 The Contractor shall submit personnel bio-data/resume in respect of Mud Engineers for OIL's approval. The resume should specifically include but not limited to the following.
- Length of experience in exploration wells
 - Length of experience in wells with proposed mud system
 - Area/Field where and for whom worked
 - Type of mud system(s) worked with specific reference to Inhibitive Water Based mud system
 - Experience in solving down hole problems.
 - Educational Qualification

- Date of Birth (Age) and Health Condition etc.

6.2.8 The Mud Engineers shall be responsible including but not limited to the following:

- Prepare mud as per drilling and mud program.
- Attend down hole problems and take corrective actions in consultation with Company's Chemist/Representative.
- Run, maintain, and manage the mud system in consultation with Company representative.
- Prepare daily mud program and submit to Company Representative at the Drilling Site. Prepare daily mud report, hydraulics report and chemical consumption statement and submit to Company representative.
- Maintain a stock of inventory on the Drilling site and ensure that adequate stock is available at all the time to maintain and run the mud system and to cater for eventuality, if any.
- Ensure that adequate spares for all the mud engineering related equipment, tools and lab are available at site to carry out any repair/maintenance without downtime.

6.2.9 The on-site Mud Engineers is required to test mud samples for all parameters at least twice a day or as per operational requirement and submit daily operational report including hydraulics, mud parameters etc. to OIL Chemist /Company representative. The daily report should also include volume of mud prepared and consumed, stock and consumption of chemicals and other additives, status of solid control equipment etc. The daily reports should be in standard IADC format.

6.2.10 Suitable substitution/replacement of any mud engineer of the Contractor due to any valid reasons will be with prior approval of OIL.

6.2.11 The Contractor will have to right remove any of their personnel from site if deemed not suitable or considered not desirable by Company to carry-out the work and replace him/her with a person acceptable to Company within two weeks' time at their own expenses.

6.2.12 Contractor personnel working on site must be fully conversant with, and adhere to the environmental and HSE policies, be responsible for the safe handling of drilling fluid materials at the rig site to ensure that rig crews adhere to the HSE policy and minimize mud material damage.

6.2.13 Solid control equipment's shall be effectively utilized by the Contractors Mud Engineers.

6.2.14 The on-site mud engineer shall collect all relevant operational data from driller or any other data gathering system like MLU and record it for taking operational decisions as well as for final well completion report (Mud Recap). The contractor shall submit the well completion report after completion of each well as per standard international practice.

- 6.2.15 All requirements of Contractor's personnel will be borne by the Contractor including their remuneration, transportation up to well sites, on-route expenses etc. The Contractor shall ensure that their personnel are eligible to work in Gabon and have necessary visa, and other relevant documents including health control requirements such as yellow fever vaccination certificate prior to travel.
- 6.2.16 On site accommodation and food will be provided through Rig Service provider for two Mud Engineers during their stay at well site.
- 6.2.17 Contractor's Mud Engineers shall be capable to read, write & speak in English. The knowledge of France language is desirable.

6.3 SUPPLY OF MUD MATERIALS/CHEMICALS AND ADDITIVES:

- 6.3.1 The Contractor shall supply complete line of mud chemicals and additives required for preparation and maintenance of mud and completion fluid. The contractor shall maintain adequate stock of all chemicals including insurance chemicals / back-up chemicals and ensure timely supply as per operational requirement of the well. However, the payment will be made on actual consumption basis duly certified by OIL chemist / Company Representative. Bidder shall maintain his own warehouse / supply base and deliver chemicals at site by his own arrangement / expenses.
- 6.3.2 It's Contractor's responsibility to transfer all mud chemicals / additives from 1st location to next location after completion of well. Company will provide crane service through Rig Service provider if required and other logistic facilities are to be arranged by the Contractor.
- 6.3.3 The Contractor shall provide product data for each chemical including but not limited to brand name, country of origin, manufacturer's name, specifications /test reports of the chemicals, unit of packing, country of origin, specification and Material Safety Data Sheet (MSDS). All such information on the complete list of chemicals for drilling, completion and wellbore clean-up fluids must be submitted along with the techno-commercial bid.
- 6.3.4 All the chemicals should be in their original packing & conform to relevant API / standard approved by the local government specifications. Contractor shall provide the test report from a recognized laboratory for quality of chemicals, on request. However, OIL reserves the right to inspect the chemicals in contractor's ware house / OIL's well site and draw samples for testing. If any chemical is found to be not conforming to the specifications, contractor shall replace the defective material immediately with quality product that conforms to the specification.
- 6.3.5 OIL reserves the right to terminate the contract if the chemicals and additives are found to be substandard and the contractor is unable to replace those.
- 6.3.6 The contractor shall maintain adequate stock of vital chemicals (insurance stock) all the time during operation as back up for well/ operation safety. Insurance stock of chemicals to be maintained has been shown in **Table-13**.

- 6.3.7 In view of the remoteness of drilling locations and space and logistic constraints, the Contractor must maintain their supply base/main warehouse at a place nearest possible to the drilling locations and feed the requisite chemicals in optimum quantity to Rig site through their own arrangement/expenses by engaging trucks to ensure un-interrupted drilling up to the well completion stage. Contractor may use Company's already developed areas (E.g. Well plinth of Lassa-1 & so.).
- 6.3.8 OIL reserves the right to terminate the contract and take prompt action as may be deemed fit, if the chemicals/additives are not stocked adequately as advised and/or are found to be of sub-standard quality and the Contractor is unable to replace those without disrupting the drilling program within reasonable time.
- 6.3.9 The interval wise mud system given below in Table-8 to Table-12 under Para 8.0 of this section is tentative. However, the Contractor is free to design the mud system/parameters as per the well requirement to achieve true gauged hole and trouble free drilling. The section wise use of chemicals is provided for each well. In case the Contractor plans to use any other additives or chemicals, the same may be mentioned in their Techno-commercial Bid along with the technical justifications thereof and the rates to be quoted accordingly in their Price Bid.
- 6.3.10 OIL shall not buy any leftover chemicals brought by the contractor after completion of the project/expiry of the contract under any circumstances. Contractor has to take back the leftover chemicals at their own cost and responsibility.**
- 6.3.11 During the Mud Engineering service, if any foul smell emanates in the mud system or in effluent pit due to addition of any of their additives, contractors will be solely responsible for immediate replacement of the chemicals / additives. Service provider to ensure that the replaced chemicals supplied are of equivalent / better make or quality. Party should ensure to replace the chemicals without any operational interruption.

6.4 WELL SITE LABORATORY AND MUD TESTING KIT:

- 6.4.1 The contractor shall provide a suitable well site laboratory complete with all regular mud checking equipment including but not limited to mud balance, MF Viscometer, API Filter press HP-HT filter press, 6- speed viscometer equivalent to Fann Model 35 SA, retort kit, blender, magnetic stirrer, hot plate, lubricity tester, thermometer, pH meter etc. List of minimum requirement of laboratory equipments are given in **Annexure-V** which is to be submitted along with technical bid.
- 6.4.2 The contractor shall provide all consumables, glass wares, reagents etc. required for daily mud testing.
- 6.4.3 The equipment/tools are required to be in fully operating condition and save. Repair and preventive maintenance can be carried out with prior permission of the Company and without hampering operational requirements.
- 6.4.4 Contractor shall transfer mud laboratory /consumables/ glass wear/reagent etc from 1st location to next location after completion of well at Contractor's responsibility & cost.

- 6.4.5 The Contractor shall submit the detail list of lab equipment and consumables reagents etc. for testing of mud as per API Specifications.
- 6.4.6 In case any of the item/equipment is proposed to be imported for the purpose of execution of this contract, the details thereof must be furnished in the prescribed format as asked for in this bid document.
- 6.4.7 The Contractor shall submit the detail list (Specimen Table-6 below) of lab equipment and consumables reagents etc. for testing of mud as per API Specifications.

6.5 LABORATORY EQUIPMENT/ TESTING PROCEDURE:

- 6.5.1 **Minimum Requirements:** The Contractor shall deploy a complete Mud Laboratory at site equipped with various equipment, tools, accessories and consumables thereof in perfectly working order necessary to carry out the jobs specified in the Scope of Work and described elsewhere in this Tender as per API standards. The Contractor shall also provide the test procedures for estimation of Potassium ion, PHPA, Lubricity Co-efficient etc in addition to routine rheological parameters for hole cleaning as per standard industry practice. All Standard mud testing equipment are required in order to provide a complete API mud testing report. List of minimum equipments and tentative quantity of equipments to be available in laboratory are listed in **ANNEXURE-IV**.
- 6.5.2 **Additional Equipment:** Additional equipment and chemicals, if any proposed by the Contractor, may also be included as an attachment.
- 6.5.3 **Maintenance:** The Contractor shall deploy its Mud Lab and all other testing equipment as per requirement in excellent condition and perfectly in working order. Maintenance of the same including supply of spares/consumables etc. throughout the contract duration for trouble free uninterrupted operation will be given prime importance. Contractor shall supply all relevant certification as may be requested by Company.
- 6.5.4 The Contractor shall maintain adequate stock of spares and consumables at site to ensure uninterrupted laboratory services. On-site stock position of spares and critical parts are to be reported to Company Chemist/Representative from time to time.

6.6 RESPONSIBILITY MATRIX

For performance of services under this contract, the following may be referred to broadly understand the responsibilities of Contractor & Company.

Table-7: Responsibility Matrix			
Sl. No.	Details	Responsibility of Contractor	Responsibility of Company/ Rig Service Provider
1	Mud Laboratory	Yes	No
2	Mud Chemicals/additives and all testing equipment including lubricity tester.	Yes	No
3	Mud Engineers as required	Yes	No
4	Handling Mud chemicals at site	Yes	No
5	Transportation of Chemicals & additives to well site.	Yes	No
6	Mud preparation	Yes	No
7	Boarding, lodging and first aid facilities at site to the Mud Engineers	No	Rig Service Provider
8	Minimum storage shed for Chemicals at site.	No	Yes
9	Shale Shaker, Desander, Desilter, Degasser and Centrifuge.	No	In Rig package
10	Hopper Mixer and Treating tanks for mixing and treating the mud.	No	In Rig package

6.7 REPORTING:

6.7.1 **General:** The Contractor shall comply with the following minimum reporting requirements under the contract. Contractor shall also provide additional reports to the Company Representative as may reasonably be asked for during the execution.

6.7.2 **Materials Inventory:** At all times, the Mud Engineers must maintain an up to date inventory of all the chemicals/additives held at well site and the same shall be reported on daily basis as part of the daily mud report. Additionally, a daily/weekly report on materials inventory at site shall be submitted to the Company's Drilling Superintendent/Company's Mud Chemist/Company Representative at well site and to Drilling-in-charge based at Libreville (GABON).

6.7.3 The Contractor should generate and shall be submitted the copies of daily progress report inclusive of drilling fluid hydraulics to the Company representative at site and to OIL's base office Libreville of GABON. The report should also incorporate drilling operations, complete mud parameters analyses, chemicals consumed, volume of mud prepared, and loss of mud and operation of solid control equipment as per standard practice. Cumulative consumption and cost of chemicals must be provided by the Contractor on daily & weekly basis.

6.7.4 **End of Well Report:** The Contractor shall provide within two weeks of completion of the well a Final Well Recap, containing but not limited to the following:

- A detailed recap of each hole section;

- An evaluation of the mud properties, their performance;
- An analysis and recommendation of the optimum parameters required based on experience gained while drilling the well;
- A detailed list on chemical consumption for each section;
- A comparison of planned vs actual mud properties for each hole section.
- A comparison of planned versus actual mud cost for each hole section;
- A detailed study on the hole problems encountered and mitigation methods and strategies followed;
- Suggestion for improvement in future wells if required.

6.7.5 Complication Report: In case of any drilling eventuality encountered such as stuck pipe, lost circulation, unusual caving, cutting bed formations, the Contractor shall notify the Company Representative immediately. A detailed draft report shall be submitted by the Contractor, within 24 hours of the incident (operations permitting), with full details and the reasons for the same and remedial measures/recommendations that shall be followed in the present well as well as in future wells to ensure safe and complication free drilling.

6.8 INSTALLATION / DISMANTLING / INTERLOCATION MOVEMENT:

6.8.1 Contractor shall mobilize required mud materials / additives / mud Laboratory / mud testing equipment / consumables to first location upon receipt of Mobilization Notice. The Laboratory / equipments will be installed and made operational prior to spud the well. The entire set-up will be dismantled at the end of the operation there for installation in subsequent location. Similarly contractor shall transfer all leftover mud materials / chemicals from first location to the second location. The final dismantling of complete set-up at last location at the end of operation there upon receipt of De-Mobilization notice.

6.8.2 During ILM period, contractor shall transfer all leftover mud chemicals / laboratory / equipments etc to next well and shall make ready their service prior to spud the well.

7.0 SAFETY, HEALTH AND ENVIRONMENT:

7.1 Contractor shall comply with applicable environmental laws, statutory regulations mines act applicable to oil mines etc. in Gabon.

7.2 Contractor shall comply with the applicable environmental laws, statutory regulations and practices, mines act and is required to perform work so as to minimize the generation of hazardous waste to the extent technically feasible.

7.3 The mud engineers and other personnel to be deployed at site by the Contractor must wear approved PPE as per international practice and perform duty in accordance with Contractor's own HSE policy. In addition to above the mud engineer and other contractor personnel at well site must comply with OIL's internal SHE policy if need be.

SECTION-III
SPECIAL TERMS AND CONDITIONS OF CONTRACT (SCC)

The following Special Terms & Conditions of Contract (SCC) shall supplement and / or amend the General Conditions of Contract (GCC). Whenever there is a conflict, the provisions herein shall prevail over those in the GCC.

- 1.0 The name and quantity of mud chemicals/additives mentioned against each item as shown in **Annexure-IV** are tentative and is given to evaluate the cost for price comparison only. However, bidder can quote for additional items with quantity and cost as per this format required as per their design for mud engineering. Contractor will be paid on actual consumption of each chemical.
- 2.0 Chemicals name shown in **Annexure-IV** are generic in nature. The bidder may quote equivalent / substitute chemicals with proper technical specifications.
- 3.0 OIL shall not buy any leftover chemicals brought by the contractor after completion of the project/expiry of the contract under any circumstances. Contractor has to take back the leftover chemicals at their own cost and responsibility.
- 4.0 Contractor may deploy additional personnel to assist the Mud Engineers if feel required so. However, Company will not pay any additional charges for the additional personnel deployed other than 2 (Two) Mud Engineers.
- 5.0 **ZERO RATES:** Notwithstanding any provision in the Contract, no charges shall be payable for the period, the job or activity assigned to the Contractor is halted due to breakdown of Contractor's tools/equipment, non-availability of key personnel or for any other reason.

END OF SECTION-III

PART-3
SECTION-IV
SCHEDULE OF RATES & QUANTITY

Brief Description: “Hiring of Mud Engineering Services including supply of mud chemicals/materials, mud testing laboratory and equipments for drilling of 2 (two) exploratory wells” in Shakthi Block-II, Gabon with an option of extension of the contract to another drilling location at the sole option of the company (OIL) at the same terms and conditions and mutually agreed rates but not higher than the original rate(s).

The bidders must quote the rates in the priced bid strictly as per the format outlined in **PROFORMA-B** considering the following. The quantity/parameter/volume of job shown against each item in the **PROFORMA-B** is tentative and valid for Bid Evaluation purpose only. Payment to the successful Bidder/Contractor shall be made on the basis of actual job done and all “DAY RATE” charges shall be payable after prorating to the nearest quarter of an hour. Commercial evaluation of Bids to establish inter-se-ranking of all technically qualified bidders will be done based on the rates/charges quoted in **PROFORMA-B** only.

A. MOBILIZATION CHARGES

- (i) Mobilization charges shall be payable one time on lump sum basis which cover all local and foreign costs (if any) of the Contractor to mobilize the equipment, mud consumables as per mud policy and man power to the location and also include all duties, any other local and foreign taxes, service tax, visa fee, port fees and inland transportation etc.
- (ii) Mobilization will be completed when all the operating tools / equipment / chemicals are received and tools / equipment / chemicals are tested / calibrated to its rated specifications to the satisfaction of Company along with operating crew at the designated drilling location.
- (iii) Mobilization charges will be payable when all equipment and crew are positioned to undertake / commence the work assigned under the Contract at the location.
- (iv) **Mobilization charges shall not exceed 10% of the total estimated Contract value.**

B. RENTAL CHARGES FOR ALL EQUIPMENT PER DAY

- (i) Equipment to be provided at drilling site by the contractor against this contract are furnished vide **Annexure-V**. For which the rental (all inclusive) charges as above will be payable per 24 hours a day (pro rata basis for part thereof up to the completed full hours only) basis.
- (ii) The equipment rental charges include supply of spares and consumables, replacement/maintenance cost and any other operational requirement if any, during the contractual period. The contractor must maintain adequate stock of any such regularly required items at the drilling site under their possession to ensure uninterrupted service.

C. OPERATIONAL DAY RATE OF PERSONNEL

Personnel charges include service fee per Mud Engineer per 24 hours a day (pro rata basis for part thereof up to the completed full hours only) basis. The contractor shall deploy **two (02) Mud Engineers** on 12 hrs shift duty basis. Besides above, if the contractor engages any other personnel to assist their Engineer or for any other purposes, OIL will neither be responsible nor will pay for the same to the Contractor unless agreed by OIL in any unavoidable circumstances.

D. STANDBY RATE FOR MUD ENGINEER PER DAY

Stand by rate will be payable per 24 hours a day (pro-rata basis for part thereof up to the completed full hours only) and will be applicable against temporary halt of operations due to rig repair / standby / shutdown etc. leading to suspension of Mud Engineering services continuously for more than 48 hours. However, for the initial consecutive 48 hours of suspension of Mud Engineering services under such condition, the normal day rate as per **Para: C** above will be payable on pro-rata. The standby day rate will apply beyond the initial 48 hours till resumption of the services.

Standby day rate shall not exceed 85% of the operating day rate.

Note:

- (a) Rental charges for equipment and personnel charges for Mud Engineering Services shall be applicable from the date of complete mobilization and commissioning at the designated location.
- (b) Transportation of Contractor's personnel to and fro from the well site to contractor's base will be the responsibilities of the Contractor.

E. INTERLOCATION MOVEMENT CHARGES:

- (i) Contractor will be solely responsible for executing Inter-Location Movement (ILM) that covers shifting of all leftover chemicals/ laboratory/mud test equipment / consumables etc. including all taxes / transit insurance etc. as applicable.
- (ii) Lump sum Inter Location Movement charges shall be payable during the period of inter location movement [from one well to next well] inclusive of Re-Installation & Re-Commissioning in next well.

F. DEMOBILIZATION CHARGES:

- (i) The demobilization charges shall be **payable one time** on lump sum basis which include all charges towards demobilization of all contractor's equipment and crew from the drilling location to contractor's base upon completion/termination of contract.
- (ii) Company shall give demobilization notice to contractor to commence demobilization. No charge, whatsoever will be payable from the date of demobilization notice.
- (iii) All charges connected with demobilization including all fees, duties and taxes in relation thereto, insurance and freight within Gabon or on export/re-export outside Gabon will be to contractor's account.

(iii) Demobilization charges will be payable on submission of invoice along with necessary documents as required by applicable laws and asked by Company.

(iv) **Demobilization charges shall not be less than 5% of total estimated Contract value.**

GENERAL NOTE:

- i) Bidder should submit the list of items with CIF Libreville / Port Gentil, Gabon value to be imported into **Gabon** in connection with execution of this contract as per **Proforma - A, enclosed.**
- ii) From the **Proforma - A**, bidder should identify the items of re-exportable in nature (i.e. items which will not be consumed during the execution of the contract and required to be re-exported outside **Gabon** after completion of the contract). Total CIF value of such items should be shown in the "PRICE BID FORMAT" as CIF (RE-EX).
- iii) Similarly from the **Proforma - A**, bidder should identify the items of consumable in nature (i.e. items which will be consumed during the execution of the contract). Total CIF value of such items should be shown in the "PRICE BID FORMAT" as CIF (CONSUMABLES).

G. DAY RATE OF PERSONNEL / RENTAL CHARGES FOR MUD LABORATORY / EQUIPMENTS / TOOLS DURING FORCE MAJEURE:

- i) All rates quoted by bidder shall be restricted to 50% of respective charges under above circumstances. This will be considering as Force Majeure Rate.
- ii) The force Majeure Rate shall be payable during the first 15 (Fifteen) days period of Force Majeure in case of all operations. No payment shall accrue to the contractor beyond the first 15 (Fifteen) days period unless mutually agreed upon.

TOTAL EVALUATED CONTRACT COST FOR 2(TWO) WELLS WILL BE EVALUATED AS GIVEN BELOW: TEC

$$\text{TEC} = \text{MOB} + \text{ILM} + \text{DMOB} + \text{TAN} + \text{OSR}^* + \text{SSR}^*$$

Where,

- (a) **MOB**: Total Mobilization cost
- (b) **ILM**: Total Inter Location movement charges
- (c) **DMOB**: Total De-mobilization charges
- (d) **TAN**: Total Tangible Cost
- (e) **OSR**: Total Operational Spread Rate
- (f) **SSR**: Total Standby Spread Rate
- (g) **TEC**: Total Estimated Costs (TEC) for 2-wells

*Above OSR is Total OSR for 108 days. Similarly, above SSR is Total SSR for 30 days. The quantity mentioned above is for evaluation purpose only and to be paid based on actual day of use.

Important Notes:

1. *Rig Operation time of 108-days and Rig Stand-by Time of 30-days for 2(two) wells operations are considered.
2. **Zero Rate**: Zero Rate is payable during the period the service is halted due to break down of contractor's tool, equipment, non availability of crew, spares or consumables or for any other reason attributable to the Contractor.
3. It is the single point responsibility of the contractor to clear the material from custom authority of Gabon, transportation to the well site, storage of all required consumables including tubular by making tubular rake/ yard, Go-down etc. at their cost. As the items are eligible for import with NIL Custom Duty, Company will assist in providing necessary documents as required in this regard. However service charge etc, if any will be to Contractor's account. Bidder to quote accordingly considering the above.
4. The line items indicated above are given for commercial evaluation only which are purely tentative and may fluctuate. However, Payment to Contractor shall be made on actual basis for the above services including all the consumables, Items etc.
5. Bidders may refer Part-3, Section-IV of this tender for proper bidding of the rates.

6. Bidder is to declare the information as requested vide Proforma-A against each of the items to be imported.
7. No other charge payable to the Contractor 'Job-Wise' or 'Job-Nature' wise.
8. Rates and charges shall be fully inclusive of all applicable taxes, costs, insurance cost, expenses, overheads and profit arising out of services, personnel and equipment but excluding CSS and TVA. However, OIL under exploration phase is exempted from paying of TVA. OIL will provide TVA exemption certificate against each invoice.
9. CSS, if applicable shall be extra by company against each invoice.
10. Present rate of customs duty is NIL in OIL's area of operation Block Shakthi-II
11. The rates must be net of all discounts.
12. Rates shall clearly indicate the item is single tool or group tool.
13. Bidder may quote additional chemicals other than as mentioned in schedule of rates (if feel necessary for the operation) with all cost up to well site. OIL reserves the right to consider these items in the event of contract. However, these items will not be considered for cost comparison/evaluation.
14. The above Price schedule shall be read in conjunction with General Conditions of Contract, Scope of Work/Technical Specification, and Instructions to Bidders of this Bid document.
15. Contractor's personnel for the above services will be provided accommodation with food by the Company at Base Camp managed by Rig Service Provider.

END OF SECTION-IV

SECTION-V

GENERAL HEALTH, SAFETY & ENVIRONMENT (HSE) POINTS: The following safety guide lines/measures will be strictly followed by the contractor.

- 1) It will be solely the Contractor's responsibility to fulfil all the legal formalities with respect to the Health, Safety and Environmental aspects of the entire job (namely; the person employed by him, the equipment, the environment, etc.) under the jurisdiction where it is operating. Ensure that all sub-contractors hired by him comply with the same requirement as the contractor himself and shall be liable for ensuring compliance all HSE laws by the sub or sub-sub-contractors.
- 2) Every person deployed by the contractor in a mine must wear safety gadgets to be provided by the contractor. The Contractor shall provide proper Personnel Protective Equipment(PPE) as per the hazard identified and risk assessed for the job and conforming to statutory requirement and company PPE schedule. Safety appliances like protective footwear, Safety Helmet and Full Body harness has to be as per the international standard. It will be the Contractor's sole responsibility to ensure that the persons engaged by him in the mines use the proper PPE while at work. All the safety gears mentioned above are to be provided to the working personnel before commencement of the work.
- 3) The Contractor shall prepare written Safe Operating Procedure (SOP) for the work to be carried out, including an assessment of risk, wherever possible and safe methods to deal with it/them. The SOP should clearly state the risk arising to men, machineries & material from the mining operation/operations to be done by the contractor and how it is to be managed.
- 4) The contractor shall provide a copy of the SOP to the person who shall be supervising the contractor's work.
- 5) Keep an up to date SOP and provide a copy of changes to a person who shall be supervising the contractor's work.
- 6) Contractor has to ensure that all work is carried out in accordance with the Statute and SOP and for the purpose he may deploy adequate qualified and competent personnel for the purpose of carrying out the job in a safe manner.
- 7) It will be entirely the responsibility of the Contractor/his Supervisor/representative to ensure strict adherence to all HSE measures and statutory rules during operation and safety of workers engaged by him. The crew members will not refuse to follow any instruction given by company's representative for safe operation.
- 8) Any compensation arising out of the job carried out by the Contractor whether related to pollution, Safety or Health will be paid by the contractor only.
- 9) Any compensation arising due to accident of the Contractor's personnel while carrying out the job, will be payable by the contractor.

- 10) The contractor shall have to report all incidents including near miss to company representative of OIL.
- 11) The contractor has to keep a register of the persons employed by him/her. The contractor's supervisor shall take and maintain attendance of his men every day for the work, punctually.
- 12) If the company arranges any safety class/training for the working personnel at site (company employee, contractor worker, etc.) the contractor will not have any objection to any such training.
- 13) To arrange daily tool box meeting and regular site safety meetings and maintain records and submit the same to OIL.
- 14) Records of daily attendance, accident report etc. are to be maintained by the contractor.
- 15) A contractor employee must, while at work, take reasonable care for the health and safety of people who are at the employee's place of work and who may be affected by the employee's act or omissions at work.
- 16) A contractor employee must, while at work, cooperate with his or her employer or other persons as far as is necessary to enable compliance with any requirement under the act or the regulations that is imposed in the interest of health, safety and welfare of the employee or any other person.
- 17) In case Contractor is found non-compliant of HSE laws as required, company will have the right for directing the contractor to take action to comply with the requirements, and for further non-compliance, the contractor may be penalized prevailing relevant Acts/ Rules/Regulations.
- 18) When there is a significant risk to health, environment or safety of a person or place arising because of a non-compliance of HSE Measures, Company will have the right to direct the contractor to cease work until the non-compliance is corrected.
- 19) Special precautions must be taken by the contractor for all its personnel to protect them from any disease/ epidemic as known or prevalent in the country/area. All vaccinations, immunization procedures against these diseases must be maintained as per local law.
- 20) As the place of work is in the forest area, any conflict or danger/damage from and to the animal/forest dwellers must be prevented with special care and to follow QHSE procedures.
- 21) The contractor should prevent the frequent change of his contractual employees as far as practicable.
- 22) The contractor should frame a mutually agreed bridging document between OIL & the contractor with roles and responsibilities clearly defined.

- 23) For any HSE matters not specified in the contract document, the contractor will abide the relevant and prevailing Acts/rules/regulations/pertaining to Health, Safety and Environment and as described in the Environmental Impact Assessment (EIA) report which is available at the Office of the Gabon-Project, OIL INDIA LTD.

BEC Clause No.	DESCRIPTION	Bidders Remarks Complied/ Not Complied against each Clause / Sub-Clause	BIDDER to indicate the relevant Page No. of their Bid (for supporting Document, etc), corresponding to each clause.
	The bid should be complete covering all the Scope of Work laid down in tender document and should conform to the Technical specifications indicated in the bid documents, duly supported with technical catalogues/ literatures. Bids will be rejected in case services offered do not conform to the required parameters stipulated in the technical Specifications. Notwithstanding the general conformity of the bids to the stipulated specifications, the following mandatory requirements will have to be particularly met by the Bidders without which the same will be considered as non-responsive and rejected.		
1.0	The Bidder must meet the following criteria failing which the bid/offer shall be rejected		
1.1	Bidder must have experience of providing at least one(1) complete Mud Engineering Services including deployment of requisite manpower, equipment and supply of mud chemicals to any E&P Company for drilling oil/gas wells in previous 07 (seven years) to be reckoned from the original bid closing date.		
1.2	Bidder must have experience of providing Mud Engineering Services for minimum five (5) numbers of oil/gas wells of which at least 1(one) number of well must be of depth 2600m		

	drilled with KCL-PHPA-Polymer mud system in the past seven(7) years reckoned from the original bid closing date. The Bidder is required to submit documentary evidence of such wells.		
1.3	Details of experience and past performance of the bidder on service/jobs done of similar nature in the past are to be submitted along with the technical/unpriced bid, in support of experience laid down at para 1.1 & 1.2 above. Also, details of current work in hand and other contractual commitments of the bidder (indicating areas and clients) are to be submitted along with the technical/unpriced bid.		
1.4	Bidder must confirm to provide two (02) on-site Mud Engineers on 12-Hour shift basis at all times. The Mud Engineers (both Lead & Second) should have minimum educational qualification of Bachelor in Engineering / Science or equivalent. The Lead Mud Engineer should have minimum five (05) years' experience and Second Mud Engineer should have minimum three (03) years' experience in handling the proposed KCL-PHPA-Polymer mud system independently in exploratory wells of which at least 1(one) well must be a depth of 2600m. Bidder should submit bio-data of competent personnel at the time of submission of bid.		
1.5	The Bidder should be in a position to complete mobilization of their resources at site to take up the assignment in the event of a contract within 90(Ninety) days from the date of issue of Mobilization Notice by Company. Bidder is required to submit a declaration in this regard.		
1.6	The Bidder must confirm in an undertaking to provide complete Mud Engineering package as specified in Scope of Work/Technical Specification under Section-II of the tender document failing which, the bid will be rejected.		
1.7	A job executed by a Bidder for its own organization/subsidiary will not be considered as experience for the purpose of meeting BEC.		
2.0	MUD CHEMICALS REQUIRED FOR THE SERVICE: The bidder must confirm and submit the following documents:		
2.0 (I)	For supply of Chemicals and mud additives as per Annexure-IV required to perform the job as laid down in " Scope of Work " of the tender.		
2.0	MSDS sheets for chemicals and additives required to perform the job as detailed in		

(II)	“Scope of Work” of the tender, without which the bid will not be considered for evaluation.		
3.0 (i)	The bidder shall have Annual financial turnover of minimum US\$ 715 085 (US Dollar Seven Hundred Fifteen Thousand and Eighty Five) during any of the preceding 03 (three) financial/accounting years reckoned from the original bid closing date.		
3.0 (ii)	Net worth of bidder must be positive for preceding financial/accounting year.		
3.0 (iii)	Considering the time required for preparation of Financial Statements, if the last date of preceding financial / accounting year falls within the preceding six months reckoned from the original bid closing date and the Financial Statements of the preceding financial / accounting year are not available with the bidder, then the financial turnover of the previous three financial / accounting years excluding the preceding financial / accounting year will be considered. In such cases, the Net worth of the previous financial / accounting year excluding the preceding financial / accounting year will be considered. However, the bidder has to submit an affidavit/undertaking as per Annexure-III certifying that the balance sheet/Financial Statements for the financial year 20____ (as the case may be) has actually not been audited so far. NOTES: For proof of Annual Turnover & Net worth any one of the following documents must be submitted along with the bid: (i) A certificate issued by a practicing Chartered/Cost Accountant (with Membership Number and Firm Registration Number), certifying the Annual turnover & Net worth as per format prescribed in ANNEXURE-II. OR (ii) Audited Balance Sheet along with Profit & Loss account. In case of foreign bidders, self-attested/digitally signed printed published accounts are also acceptable.		
3.0 (iv)	In case the audited Balance sheet and Profit Loss Account along with the bid are in currencies other than US\$, the bidder shall have to convert the figures in equivalent US\$ considering the prevailing conversion rate on the date on which the Audited Balance sheet and Profit and Loss Account is signed. A CA/CPA Certificate is to be submitted by the bidder		

	regarding converted figures in equivalent US\$. Else, the Audited Balance Sheet and Profit & Loss Account shall be evaluated by considering the Exchange rate declared by ONADA Exchange Rates in Gabon (on the date on which the Audited Balance Sheet and Profit & Loss Account is signed) for conversion to US\$.		
3.0 (v)	In case the bidder is a subsidiary company (should be a 100% subsidiary of the parent/ultimate parent/holding company) who does not meet financial criteria by itself and submits bid based on the financial strength of its parent/ultimate parent/holding company, then following documents need to be submitted along with the technical bid: a) Audited Balance Sheet and Profit Loss Account of the parent/ultimate parent/ holding company. b) Corporate Guarantee of parent/ultimate parent/Holding company (as per format enclosed as Proforma-J by the authorized officials. c) The bidder is a 100% subsidiary company of the parent/ultimate/holding parent company. d) Documents proving that Net worth of the parent/ultimate parent company are positive for the accounting year preceding the bid closing date”.

If any certificate is submitted in a language other than English language, the same should be translated to English by a certified translator and submitted along with the bid. Illegible and incomplete certificates or documents or without English translation will not be considered for evaluation.		
7.0 Note (b)	Oil India Limited (OIL) reserves the right to contact the Client(s) referred by the Bidder for authentication of the documents submitted by the Bidder. OIL may contact the clients/operators under intimation/copy to the respective Bidder. OIL will not be responsible for Client(s) not conforming or not replying to OIL's request for information. If OIL does not get an affirmative response within the stipulated time, then such Bidder's technical bid will be considered as non-responsive and shall be rejected in such case. It will be the responsibility of the Bidder to take up the matter with his Client(s) and arrange for the confirmation as desired by OIL.		
8.0	GENERAL CRITERIA:		
8.0 (a)	To ascertain the substantial responsiveness of the bid the Company reserves the right to ask the bidder for clarification in respect of clauses covered under BEC/BRC also and such clarifications fulfilling the BEC/BRC clauses in toto must be received on or before the deadline given by the company, failing which the offer will be evaluated based on the submission. However, mere submission of such clarification shall not make the offer responsive, unless Company is satisfied with the substantial responsiveness of the offer.		
8.0 (b)	If any of the clauses in the BEC/BRC contradicts with other clauses of bidding document elsewhere, the clauses in the BEC/BRC shall prevail.		
8.0 (c)	In case bidder takes exception to any clause of bidding document not covered under BEC/BRC, then the Company has the discretion to load or reject the offer on account of such exception if the bidder does not withdraw / modify the deviation when / as advised by company. The loading so done by the Company will be final and binding on the bidders. No		

	deviation will however be accepted in the clauses covered under BEC/BRC.		
8.0 (d)	Submission of Forged Documents: Bidders should note that Company (OIL) may verify authenticity of all the documents /certificates / information submitted by the bidder(s) against the tender. In case at any stage of tendering process or Contract execution etc., if it is established that bidder has submitted forged documents / certificates / information towards fulfilment of any of the tender / contract conditions, Company shall immediately reject the bid of such bidder(s) or cancel / terminate the contract besides taking action as per OIL's Banning Policy dated 6 th January 2017, available in the OIL's website. Accordingly, service provider/vendor to submit the Undertaking of authenticity of information/documents submitted as per Annexure-VI .		
8.0 (e)	All certificates and documentary evidences required to be submitted in support of above clauses should be clearly legible and in English language. If any certificate is submitted in a language other than English language, the same should be translated to English by certified translator, in which case, for purposes of interpretation of the bid, the translation shall prevail. Illegible and incomplete certificates or documents will not be considered for evaluation.		
8.0 (f)	Vendor/Contractor/Service Provider must agree to abide by the law of Gabon for all purposes.		
8.0 (g)	The originals, of the documents submitted by the bidder, shall have to be produced by the bidder(s) to OIL as and when asked for.		
8.0 (h)	For evaluation of Bids, the closing rate of exchange declared by OANDA Exchange Rate of Gabon on the day prior to bid opening will be taken into account for conversion.		
8.0 (i)	Any exception/deviation to the tender must be spelt out by the bidder in their "Technical Bid" only. Any additional information/terms & conditions furnished in sealed Price Bid will not be considered by OIL for evaluation/award of contract. However, OIL INDIA LIMITED expects the bidders to fully accept the terms and conditions of the bid document.		
9.0	EVALUATION CRITERIA: Techno-commercially Qualified Bids conforming to the technical specifications, terms and conditions stipulated in the bidding document and considered to be substantially responsive after subjecting to Bid Evaluation Criteria (BEC) shall be considered for further evaluation as per the Evaluation Criteria given below:		
9.0 (a)	The bidders must quote their Prices in the manner as called for vide Price Bid Format in Proforma-B		

9.0 (b)	If there is any discrepancy between the unit price and the total price, the unit price will prevail and the total price shall be corrected. Similarly, if there is any discrepancy between words and figure, the amounts in words shall prevail and will be adopted for evaluation.		
9.0 (c)	If bidders happen to be two or more in the same position, priority list will be prepared by drawing Lottery/Lots among the bidders within the same position.		
9.0 (d)	The rates towards Mobilization Charges, Standby day Rate and De-mobilization Charges will be restricted to the limit indicated against each as under:		
9.0 (d) (i)	Mobilization charges of Mud Engineering Service Package including manpower, mud chemicals, laboratory, Equipment, etc shall not exceed 10% of the total evaluated contract price for 2(Two) wells operations. However, mobilization charges if quoted in excess of 10% of the estimated total contract cost, the excess amount shall be paid at the end of the contract. However, the holding amount will not accrue any bank interest.		
9.0 (d) (ii)	Demobilization Charge of the Mud Engineering Service Package including manpower, mud chemicals(left-over), laboratory, Equipment, etc shall not be lower than 5% of total evaluated contract value. In case de-mob charges quoted is lower than 5%, the differential amount (between 5% and quoted price) will be kept on hold from the 1st invoice onwards as per equation shown below and the same will be paid at the end of the contract along with Demobilization charges. <i>Amount that will be kept on hold in case of demobilization charge is less than 5% of the total contract value = (5% of total quoted contract value) – (Total Quoted Value of Demobilization)</i> However, the holding amount will not accrue any bank interest.		
9.0 (d) (iii)	Standby day rate shall not exceed 85% of the operating day rate		
9.0 (e)	The Mud Engineering Service Package including manpower, mud chemicals, laboratory, Equipment, etc under this tender shall be used in OIL's exploration area in Gabon for which the items imported for the exploration activities are exempted from customs duty. Hence, NIL rates have to consider for Custom Duty. Bidders are requested to go through the rules & regulations, procedures of Customs of Gabon prior to bidding to		

	make them fully aware and understand the Customs Rule.		
9.0 (e) Note	Note: The equipment/items/materials if imported in to Gabon on re-exportable basis for execution of this contract shall have to re-export after completion of the assignment and should complete all required formalities & documentation by the contractor/service provider. The Contractor/service provider should arrange for re-export of all items/equipment/materials within a specified period..		
9.0 (f)	The quantities shown against each item in the "Price Bid Format (i.e. in PROFORMA-B " shall be considered for the purpose of Bid Evaluation. It is, however, to be clearly understood that the assumptions made in respect of the number of days/ parameters for various operations are only for the purpose of evaluation of the bid and the Contractor will be paid on the basis of the actual number of days/parameter, as the case may be.		
9.0 (g)	To ascertain the inter-se-ranking, the comparison of the responsive bids will be made subject to loading for any deviation. Commercial Bids shall be evaluated taking into account the rates quoted in the PRICE BID FORMAT as per PROFORMA-B. TOTAL ESTIMATED CONTRACT COST FOR HIRING OF MUD ENGINEERING SERVICE FOR 2(TWO) DRILLING WELLS INCLUSIVE OF ALL CHARGES & TAXES BUT EXCLUDING CSS & TVA IS SHOWN BELOW: TEC: TEC = MOB + ILM + DMB + TAN + OSR* + SSR* Where, (a) MOB: Total Mobilization cost (b) ILM: Total Inter Location movement charges (c) DMB: Total De-mobilization cost (d) TAN: Total Tangible Cost (e) OSR: Total Operational Spread Rate (f) SSR: Total Standby Spread Rate (g) TEC: Total Estimated Costs (TEC) for 2-wells		

	NOTES: (i) The items for the services are as defined in Schedule of Rates (Part-3, Section - IV). (ii) *Rig Operation time of 108 days and Rig Stand by Time of 30 days for two well operations are considered to evaluate the total cost for comparison purpose only. However, payment will be made as per actual day of operations.		
9.0 (h)	PREFERENCE FOR LOCAL COMPANIES: Local Gabonese companies are those companies legally constituted and duly established in Gabon, have their headquarters in Gabonese territory and 51% of the capital is owned by Gabonese nationals. Preference will be given to a Local Gabonese company/entity, if the company is found to be techno-commercially acceptable to the tender terms & conditions. The preference criteria applicable is shown below:		
9.0 (h) (a)	In case of participating by local Gabonese company with quoted price is within price band of L1+10%, such entity shall be considered for award of contract by bringing down their price to L1 price in a situation where L1 price is from someone other than a local Gabonese company. Here, L1 is lowest evaluated bid as per the bid evaluation criteria.		
9.0 (h) (b)	In case of more than one such local company qualifying for 10% preference, the contract shall be awarded to lowest eligible local company amongst the local companies qualifying for 10% preference, subject to matching with originally L1 bidder.		
9.0 (h) (c)	DOCUMENTATION REQUIRED TO BE SUBMITTED BY Local Gabonese company:		
9.0 (h) (c) (i)	Copy of valid Municipality trade license (Fiche Circuit), Attestation CNSS(CNSS certificate), Attestation D'imposition(Taxation certificate),Attestation de Non Faillite(Certificate of non bankruptcy), Banque attestant de la capacite financiere(bank certifying the financial capacity) of the company, if bidder is a Local Gabonese company.
