- c) Any foreign Bank which is not a Scheduled Bank in India provided the Bank Guarantee issued by such Bank is counter-guaranteed by any Branch situated in India of any Scheduled Bank incorporated in India.
- d) **Bank Guarantee issued by a Scheduled Bank in India at the request of some other Non-scheduled Bank of India shall not be acceptable.**

The Bank Guarantee / LC shall be valid for the time as asked for in the Bid Document. Bank Guarantees issued by Banks in India should be on non-judicial stamp paper of requisite value, as per Indian Stamp Act, purchased in the name of the Banker.

8.3 Alternatively, Bidders can submit Bid Security on-line through OIL's electronic Payment Gateway.

8.4 Any bid not secured in accordance with sub-clause 8.2 above shall be rejected by the Company as non-responsive.

8.5 The bidders shall extend the validity of the Bid Security suitably, if and when specifically advised by OIL, at the bidder's cost.

8.6 Unsuccessful Bidder's Bid Security will be discharged and/or returned within 30 days after finalization of IFB.

8.7 Successful Bidder's Bid Security will be discharged and/or returned upon Bidder's signing of the contract. Successful bidder will however ensure validity of the Bid Security till such time the formal Service Agreement in conformity with Clause 25.0 below is signed.

8.8 Bid Security shall not accrue any interest during its period of validity or extended validity.

8.9 The Bid Security may be forfeited:

- i) If the bidder withdraws the bid within its original/extended validity.
- ii) If the bidder modifies/revises their bid suo-moto.
- iii) If the bidder does not accept the order/contract.
- iv) If the bidder does not furnish Performance Security Deposit within the stipulated time as per tender/order/contract.
- v) If it is established that the bidder has submitted fraudulent documents or has indulged into corrupt and fraudulent practice, the bid security shall be forfeited after due process in addition to other action against the bidder.

8.10 In case any bidder withdraws their bid during the period of bid validity, Bid Security will be forfeited and the party shall be debarred for a period of 2(two) years.

9.0 PERIOD OF VALIDITY OF BIDS:

9.1 The Bid must be valid for 90 (Ninety) days from original date of Technical bid opening. **Bids of shorter validity will be rejected as being non-responsive.** If nothing is mentioned by the bidder in their bid about the bid validity, it will be presumed that the bid is valid for 90 days from original date of Technical bid opening.

9.2 In exceptional circumstances, OIL may solicit the Bidder's consent to an extension of the period of validity. The request and the response thereto shall be made in writing (or by Fax / E-mail). A Bidder may refuse the request without forfeiting its Bid Security. A Bidder granting the request will neither be required nor permitted to modify their bid.

10.0 FORMAT AND SIGNING OF BID:

10.1 The original and all copies of the bid shall be typed or written in indelible inks and shall be signed digitally by the Bidder to bind the Bidder to the contract.

11.0 SUBMISSION OF BIDS:

11.1 Bids are to be submitted online through OIL's E-procurement portal with digital signature. The bid and all attached documents should be digitally signed by the bidder using **Digital Certificate Class III [Organization] along with Encryption Certificate** as per Indian IT Act from the licensed Certifying Authorities (CA) operating under the Root Certifying Authority of India (RCAI), Controller of Certifying Authorities (CCA) of India before bid is uploaded.

Digital Signature Certificates having "**Organization Name**" field other than **Bidder's Name** are not acceptable. However, aforesaid Digital Signature Certificates having Bidder's Name in the "Organization Name" field are acceptable.

The bid including all uploaded documents shall be digitally signed by duly authorized representative of the bidder to bind the Bidder to the contract. The authenticity of above digital signature shall be verified through authorized CA after bid opening and in case the digital signature is not of Class III [Organization] along with Encryption Certificate, the bid will be rejected.

Bidder is responsible for ensuring the validity of digital signature and its proper usage by their employees.

11.2 Any person signing the Bid or any other document in respect of this Bid Document or other relevant documents on behalf of the Bidder without disclosing his authority to do so shall be deemed to have the authority to bind the Bidder. If it is discovered at any time that the person so signing has no authority to do so, the Company (OIL) may, without prejudice to any other right or remedy, cancel his Bid or Contract and hold the Bidder liable to the Company (OIL) for all costs and damages arising from the cancellation of the Bid or Contract including any loss which the Company (OIL) may sustain on account thereof.

11.3 Timely submission of the bids is the responsibility of the Bidder and Bids should be submitted before the bid closing date and time. Company shall not be responsible for any delay.

11.4 Physical Bid/ E-mail/ Fax/ Telex/Telegraphic/Telephonic offers will not be accepted.

11.5 Bidder shall submit the Bid, duly completed in terms of the Bid Document.

11.6 Before submission of Bids, Bidders are requested to make themselves fully conversant with all Conditions of the Bid Document and other relevant information related to the works to be executed under this contract.

12.0 INDIAN AGENT/REPRESENTATIVE/RETAINER/ASSOCIATE:

Foreign bidders shall clearly indicate in their bids whether they have an Agent/Representative/Retainer/Associate in India. In the event the overseas bidder is having an Agent/Representative/Retainer/Associate in India, the bidder should furnish the name and address of their Agent/Representative/Retainer/Associate in India and clearly indicate nature and extent of services to be provided by such an Agent/Representative/Retainer/Associate in India and also stating in their bids whether the Agent/Representative/Retainer/Associate is authorized to receive any commission. The rate of the commission included in the quoted rates of bidder should be indicated which would be payable to Agent/Representative/Retainer/Associate in non-convertible Indian currency according to Import Trade Regulation of India. Unless otherwise specified, it will be assumed that agency commission is not involved in the particular bid.

Further, overseas bidders shall submit their bids directly and not through their Agent/Representative/Retainer/Associate in India. Bid submitted by Indian

Agent/Representative/Retainer/Associate on behalf of their foreign principals will not be considered and will be rejected straightway. Moreover, one Indian Agent/Representative/Retainer/Associate cannot represent more than one foreign bidder against the IFB.

The Indian Agent/Representative/Retainer/Associate will not be permitted to submit any Bid Security and Performance Security on behalf of their foreign principals and also the Indian Agent/ Representative/Retainer/Associate will not be allowed to execute the contract and receive payment against bid submitted by their foreign principals. Such bids shall be rejected straightway.

13.0 DEADLINE FOR SUBMISSION OF BIDS:

13.1 Bids should be submitted on-line up to 02.00 PM (IST) (Server Time) on the Bid Closing date mentioned in the Forwarding Letter.

13.2 No bid can be submitted after the submission deadline is reached. The system time displayed on the e-procurement web page shall decide the submission deadline.

13.3 The documents in physical form must be received by Company at the address specified in the "Forwarding Letter" **on or before the bid closing date & time**. Timely delivery of the same at the address mentioned in the Forwarding Letter is the responsibility of the Bidders.

14.0 LATE BIDS:

14.1 Bidders are advised in their own interest to ensure that their bids are uploaded in system before the closing date and time of the bid. Any Bid received by the Company after the Bid Closing Date & Time stipulated by the Company shall be rejected.

15.0 MODIFICATION AND WITHDRAWAL OF BIDS:

15.1 Bidders will be permitted by System to withdraw or make any changes in their bid after the bid has been uploaded by the bidder prior to the Bid Closing date and time as mentioned in the bid. However, it is the responsibility of the bidder to re- submit before the bid closing date and time. But no changes would be allowed by the system once the due date and time for submission of bids has been reached and bids are opened.

15.2 No bid can be modified / withdrawn subsequent to the deadline for submission of bids.

15.3 No bid may be withdrawn in the interval between the deadline for submission of bids and the expiry of the period of bid validity. Withdrawal of any bid within validity period will lead to forfeiture of his / her / their Bid Security Deposit in full and debarred from participation in future tenders, at the sole discretion of the company.

16.0 EXTENSION OF BID SUBMISSION DATE:

16.1 Normally no request for extension of Bid Closing Date & Time will be entertained. However, OIL at its discretion, may extend the Bid Closing Date and / or Time due to any reasons.

17.0 BID OPENING AND EVALUATION:

17.1 The Un-priced Techno-Commercial (Technical) bid will be opened on scheduled Bid opening date & time in the presence of any attending Bidder(s) or their Authorized Representative, if any. However, an authorized letter (format given in Proforma Section) from the Bidder must be produced by Bidder's representative at the time of opening of Tender, without which such representative won't be allowed to attend the opening of

Tenders. Only one representative against each Bid will be allowed to attend the bid opening. Attending Bidder(s) & Authorized Representative(s) will have to sign a register evidencing their presence.

In Technical bid opening date, only “Technical RFx” Tab Page will be allowed to be opened by the system. Bidders therefore should ensure that Un-priced Techno-Commercial bid is uploaded under “Technical Attachments” of “RFx Information” Tab Page only.

17.2 In case it happens to be a bundh / holiday, the tender will be opened on the next working day (except Saturday). Accordingly, Bid Closing Date / time will get extended up to the next working day and time (except Saturday).

17.3 Bids which have been withdrawn pursuant to Clause 15.1 will not be allowed to be opened by the system. OIL shall examine bids to determine whether they are complete, whether requisite Bid Securities have been furnished, whether documents have been properly signed and whether the bids are generally in order.

17.4 OIL shall prepare, for its own records, minutes of bid opening including the information disclosed to those present in accordance with the sub-clause 17.3

17.5 To assist in the examination, evaluation and comparison of bids, normally no clarifications shall be sought from the Bidders. However, for assisting in the evaluation of the bids especially on the issues where the Bidder confirms compliance in the evaluation and contradiction exists on the same issues due to lack of required supporting documents in the Bid (i.e. document is deficient or missing), or due to some statement at other place of the Bid (i.e. reconfirmation of confirmation) or vice versa, clarifications may be sought by OIL at its discretion. The request for clarification and the response shall be in writing and no change in the price or substance of the bid shall be sought, offered or permitted.

17.6 Prior to the detailed evaluation, OIL will determine the substantial responsiveness of each bid to the requirement of the Bidding Documents. For purpose of these paragraphs, a substantially responsive bid is one, which conforms to all the terms and conditions of the Bidding Document without material deviations or reservation. A material deviation or reservation is one which affects in any way substantial way the scope, quality, or performance of work, or which limits in any substantial way, in-consistent way with the bidding documents, the Company's right or the bidder's obligations under the contract, and the rectification of which deviation or reservation would affect unfairly the competitive position of other bidders presenting substantial responsive bids. OIL's determination of bid's responsiveness is to be based on the contents of the Bid itself without recourse to extrinsic evidence.

17.7 A Bid determined as not substantially responsive will be rejected by the Company and may not subsequently be made responsive by the Bidder by correction of the non-conformity.

17.8 The Company may waive minor informality or nonconformity or irregularity in a bid, which does not constitute a material deviation, provided such waiver, does not prejudice or affect the relative ranking of any Bidder.

18.0 OPENING OF PRICED BIDS:

18.1 Company will open the Priced Bids of the techno-commercially qualified Bidders on a specific date in presence of representatives of the qualified bidders. The techno-commercially qualified Bidders will be intimated about the Priced Bid Opening Date & Time in advance. In case of any unscheduled holiday or Bandh on the Priced Bid Opening Date, the Bids will be opened on the next working day.

18.2 The Company will examine the Price quoted by Bidders to determine whether they are complete, any computational errors have been made, the documents have been properly signed, and the bids are generally in order.

18.3 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price (that is obtained by multiplying the unit price and quantity) the unit price shall prevail and the total price shall be corrected accordingly. If there is a discrepancy between words, and figures, the amount in words will prevail. If any Bidder does not accept the correction of the errors, their Bid will be rejected.

19.0 CONVERSION TO SINGLE CURRENCY:

While evaluating the bids, the closing rate of exchange declared by State Bank of India on the day prior to price bid opening will be taken into account for conversion of foreign currency into Indian Rupees. Where the time lag between the opening of the price bids and final decision exceeds three months, the rate of exchange declared by State Bank of India on the date prior to the date of final decision will be adopted for conversion.

20.0 EVALUATION AND COMPARISON OF BIDS:

20.1 OIL will evaluate and compare the bids as per Bid Evaluation Criteria (BEC) of the bidding documents.

20.2 DISCOUNTS / REBATES: Unconditional discounts / rebates, if any, given in the bid or along with the bid will be considered for evaluation.

20.3 Post bid or conditional discounts / rebates offered by any bidder shall not be considered for evaluation of bids. However, if the lowest bidder happens to be the final acceptable bidder for award of contract, and if they have offered any discounts / rebates, the contract shall be awarded after taking into account such discounts / rebates.

20.4 Conditional bids are liable to be rejected at the discretion of the Company.

20.5 LOADING OF FOREIGN EXCHANGE:

There would be no loading of foreign exchange for deciding the inter-se-ranking of domestic bidders.

20.6 EXCHANGE RATE RISK:

Since Indian bidders are now permitted to quote in any currency and also receive payments in that currency, Company will not be compensating for any exchange rate fluctuations in respect of the services.

20.7 REPATRIATION OF RUPEE COST:

In respect of foreign parties, rupee payments made on the basis of the accepted rupee component of their bid would not be repatriable by them. A condition to this effect would be incorporated by the Company in the contract.

21.0 CONTACTING THE COMPANY:

21.1 No Bidder shall contact OIL on any matter relating to its bid, from the time of the bid opening to the time the Contract is awarded except as required by OIL vide sub-clause 17.5.

21.2 An effort by a Bidder to influence OIL in the bid evaluation, bid comparison or Contract award decisions may result in the rejection of their bid.

22.0 AWARD CRITERIA:

22.1 OIL will award the Contract to the successful Bidder whose bid has been determined to be substantially responsive and has been determined as the bid with the highest total score as per BEC/BRC, provided further that the Bidder is determined to be qualified to perform the Contract satisfactorily.

23.0 OIL' S RIGHT TO ACCEPT OR REJECT ANY BID:

23.1 OIL reserves the right to accept or reject any or all bids and to annul the bidding process and reject all bids, at any time prior to award of contract, without thereby incurring any liability to the affected bidder, or bidders or any obligation to inform the affected bidder of the grounds for OIL's action.

24.0 NOTIFICATION OF AWARD:

24.1 Prior to the expiry of the period of bid validity or extended validity, OIL will notify the successful Bidder in writing by registered letter or by cable or telex or fax or e-mail (to be confirmed in writing by registered / couriered letter) that its bid has been accepted.

24.2 The notification of award will constitute the formation of the Contract.

25.0 SIGNING OF CONTRACT:

25.1 The successful bidders(s) shall be notified by the Company of its intention to enter into an Agreement with him/her/them on the basis of his/her/their acceptance of the offer. Such notification shall be treated as a "Letter of Award (LOA)".

25.2 Within 2 Weeks from the date of issue of Letter of Award (LOA), the successful Bidder(s) will be required to enter into a formal Service Agreement based on the instant tender on the OIL Standard forms of agreement.

25.3 Failure of the successful bidders to comply with the conditions as specified in Para 25.2 above would render him liable for rejection and in turn forfeiture of Bid Security apart from any other actions the Company may take against him at its sole discretion. The party shall also be debarred for a period of 2(two) years from the date of default.

26.0 PROVISION FOR ACTION IN CASE OF ERRING / DEFAULTING AGENCIES:

Action against erring and defaulting agencies like bidder, contractor, supplier, vendor, service provider will be as per OIL's Banning Policy dated 6th January, 2017 available in OIL's website www.oil-india.com

27.0 SPECIFICATIONS:

Before submission of Bids, Bidders are requested to make themselves fully conversant with all Conditions of the Bid Document and other relevant information related to the works/services to be executed under the contract.

28.0 Along with the technical bid, bidders must submit duly filled undertaking as per format provided vide **Annexure-IV** as undertaking towards submission of authentic information/documents.

(END OF SECTION-II)

- (ii) EMD / Bid Bond
- (iii) Period of validity of Bid
- (iv) Price Schedule
- (v) Performance Bank Guarantee / Security deposit
- (vi) Delivery / Completion Schedule
- (vii) Scope of work
- (viii) Guarantee of material / work
- (ix) Liquidated Damages clause
- (x) Tax liabilities
- (xi) Arbitration / Resolution of Dispute Clause
- (xii) Force Majeure
- (xiii) Applicable Laws
- (xiv) Specifications
- (xv) Integrity Pact
- (xvi) Any other condition specifically mentioned in the tender documents elsewhere that non-compliance of the clause lead to rejection of the bid.

2.12 There should not be any indication of price in the Un-priced Techno-Commercial Bid. A bid will be straightway rejected if this is given in the Un-priced Techno-Commercial Bid.

2.13 The Integrity Pact is applicable against this tender. OIL shall be entering into an Integrity Pact with the bidders as per format enclosed vide “Section-VII- Integrity Pact” of the tender document. This Integrity Pact proforma has been duly signed digitally by OIL’s competent signatory. The proforma has to be returned by the bidder (along with the Un-priced Techno-Commercial Bid) duly signed (digitally) by the same signatory who signed the bid, i.e., who is duly authorized to sign the bid. Uploading the Integrity Pact with digital signature will be construed that all pages of the Integrity Pact has been signed by the bidder’s authorized signatory who sign the Bid.

2.14 Bid received with validity of offer less than 90 (ninety) days from the original date of Technical Bid opening will be rejected.

3.0 GENERAL:

3.1 In case bidder takes exception to any clause of bidding document not covered under BEC/BRC, then the Company has the discretion to load or reject the offer on account of such exception if the bidder does not withdraw / modify the deviation when / as advised

by company. The loading so done by the company will be final and binding on the bidders. No deviation will however be accepted in the clauses covered under BEC/BRC.

3.2 To ascertain the substantial responsiveness of the bid the Company reserves the right to ask the bidder for clarification in respect of clauses covered under BEC/BRC also and such clarifications fulfilling the BEC/BRC clauses in toto must be received on or before the deadline given by the company, failing which the offer will be evaluated based on the submission. However, mere submission of such clarification shall not make the offer responsive, unless company is satisfied with the substantial responsiveness of the offer.

3.3 If any of the clauses in the BRC contradict with other clauses of bidding document elsewhere, the clauses in the BRC shall prevail.

3.4 Bidder(s) must note that requisite information(s)/financial values etc. as required in the BEC/BRC & Tender are clearly understandable from the supporting documents submitted by the Bidder(s); otherwise Bids shall be rejected.

3.5 The originals of such documents [furnished by bidder(s)] shall have to be produced by bidder(s) to OIL as and when asked for.

3.6 CUSTOMS DUTY (if applicable): In terms of Sl. No. 404 of the Customs Notification No.50/2017-Cus dated 30.06.2017, imports of the items specified in List 33(CONDITION NO. 48)of the Notification are subject to levy of concessional rate of customs duty @5% (BCD Nil & IGST@5%)subject to conditions specified therein (Condition No.48). However, this is subject to change as per Government guidelines and the provisions ruling at the time of tender closing will be applicable.

Similarly, the domestic supply of such goods would attract 5% GST (i.e. IGST or CGST & SGST/UTGST) on submission of EC in terms of GST Notification No.03/2017.

3.7 COMPLIANCE OF THE COMPETITION ACT, 2002: The bidder shall strictly comply with the provisions of the Competition Act, 2002, more particularly, Section-3 of the Act. Any violation the provisions of the Act shall attract penal action under the Act.

3.8 For conversion of foreign currency into Indian currency for evaluation of Bids, B.C. selling (Market) rate declared by State Bank of India, one day prior to the date of priced bid opening shall be considered. However, if the time lag between the opening of the bids and final decision exceeds 3(three) months, then B.C. Selling(Market) rate of exchange declared by SBI on the date prior to the date of final decision shall be adopted for conversion and evaluation.

4.0 The bidders who submit their bid within the stipulated Bid closing date and time will be invited for presenting their approach and methodology within **one week** in OIL's office at Noida

5.0 QUALITY & COST BASED SELECTION (QCBS):

(A) EVALUATION OF BIDS FOR QUALITY:

A.1 Bids qualifying as per terms of Technical Requirements (Clause No 1.1) and Financial Requirements (Clause No 1.2) shall be eligible for this evaluation.

A.2 Bids shall be evaluated both in terms of **QUALITY** as well as **Quoted Price** i.e. **Combined Quality & Cost Based Selection (QCBS)** methodology. The relative weightage assigned for **Quality is 70** and the weightage for the **Quoted Price is 30** i.e. (Quality: Quoted Price = 70:30).

(g) Evaluation of parameters 5 (a to d) will be through a presentation by Bidder's proposed team who will be working on this assignment, to a committee of OIL officials. A signed copy of the presentation needs to be submitted to OIL on the day of presentation for evaluation purposes. The marks awarded by the committee shall be final and no representation shall be made by bidders at any point of time.

(B) QUALIFIED BIDS: Qualifying marks for priced-bid opening shall be 70 out of total of 100 marks as shown in Computation Table above. In case of no bids scoring qualifying marks of 70 and above, the qualifying marks will be reduced to 60 for ascertaining the qualified bids.

(C) EVALUATED BID PRICE: Qualified Bids meeting the minimum Qualifying Marks as mentioned in Para(B) shall be considered to be responsive (after fulfilment of technical specification, terms and conditions stipulated in the bidding document and Bid Evaluation Criteria) and shall be considered for further evaluation as per the Evaluation Criteria given below:

C.1 If there is any discrepancy between the unit price and the Total price, the unit price will prevail and the total price shall be corrected accordingly. Similarly, if there is any discrepancy between words and figure, the amounts in words shall prevail and will be adopted for evaluation.

C.2 Bidder need to mandatorily quote for all the items in the Schedule of Rate (SOR) as per Bidding Format else the bid will not be considered for evaluation. The bid will not be evaluated if bidder fails to quote against all the items mentioned in the SOR as per Bidding Format.

C.3 Commercial Bids shall be evaluated taking into account the Price quoted against SOR including quoted GST.

C.4.1 Price Bid uploaded / submitted without giving any of the details of the taxes (Including rates and amounts) will be considered as inclusive of all taxes including GST.

C.4.2 When a bidder mentions taxes as extra without specifying the rates & amount, the offer will be loaded with maximum value towards taxes received against the tender for comparison purposes. If the bidder emerges as lowest bidder after such loading, in the event of order on that bidder, taxes mentioned by OIL on the Purchase Order/Contracts will be binding on the bidder.

C.5 Discount: Bidders are advised not to indicate any separate discount. Discount if any, should be merged with the quoted price. Discount of any type indicated separately will not be taken into account of evaluation purposes. However, in the event such offer without considering discount is found to be successful, OIL shall avail such discount at the time of award of contract.

C.6 Lump sum cost must include all liabilities and taxes including statutory liabilities but excluding GST which shall be quoted separately in the Price Bid format.

C.7 The items mentioned in above clause are to be read in conjunction with Schedule of Rates.

C.8 The responsive bids will be subjected to loading for any deviation(s).

C.9 The price bid will be graded as L1, L2 and L3 etc. where L1 vendor is the one who has quoted the lowest amount.

(D) INTER-SE RANKING OF THE QUALIFIED BIDS: To ascertain the inter-se-ranking of the bids the Quality & Cost Based Selection (QCBS) methodology as mentioned below shall be adopted:

D.1 The evaluation of tenders shall be done on the ratio of 70:30 i.e. 70% weightage to technical & financial (quality parameters) and 30% weightage to cost. During the technical evaluation stage, each bidder shall be assigned marks out of a total 100 marks, as per the parameters given below:

(a) Calculation of percentile technical score (**St**) - The bidder with highest technical score as per the Computation Table [Para-5.0 (A.3)] above shall be considered as **T1**. Technical scores of the other bidders shall be computed as

Highest Technical Score = T1

Bidder's Technical Score = Tb

St = 70*Tb / T1

(b) Calculation of combined financial score (**Sf**) - The bidder with lowest bid price shall be considered as L1. Financial scores of the other bidders shall be computed as

Lowest Financial Score = L1

Bidder's Financial Score = Lb

$$\mathbf{Sf = 30*L1/Lb}$$

(c) Total score (**S**) = Technical score (**St**) + Financial score (**Sf**)

D.2 The bidder with the highest total score (**S**) shall be considered for award of Contract.

D.3 In the event of two or more bids having the same highest Evaluated Bid Score (**S**), the bid scoring the highest marks against Quality Criteria (**St**) will be recommended for award of contract.

D.4 In case two or more bidder have same highest Evaluated Bid Score (**S**) and same combined technical score (**St**), the bidder with highest turnover in preceding year reckoned from the original bid closing date shall be recommended for award of contract.

D.5 In the QCBS system, as the evaluation of the price is based on total score (S) i.e Combined score of both Quality & Quoted Prices, purchase preference policies (like Policy for MSE and PP-LC etc.) shall not be applicable.

However, the liability for payment of the GST to the appropriate authority in case of Indian bidders and/or overseas bidders having registered office establishment in India will

lie on the Contractor. In case of foreign Contractor who does not have registered office establishment in India, the GST shall be paid to the tax authorities by the Company, on behalf of such contractor.

8.0 GOODS AND SERVICES TAX**8.1 GENERAL REMARKS ON TAXES & DUTIES:**

In view of **GST** Implementation from 1st July 2017, all taxes and duties including Excise Duty, CST/VAT, Service tax, Entry Tax and other indirect taxes and duties have been submerged in **GST**. Accordingly reference of Excise Duty, Service Tax, VAT, Sales Tax, Entry Tax or any other form of indirect tax except of **GST** mentioned in the bidding document shall be ignored.

8.2 Bidders are required to submit copy of the GST Registration Certificate while submitting the bids wherever **GST** (CGST & SGST/UTGST or IGST) is applicable.

8.3 “**GST**” shall mean Goods and Services Tax charged on the supply of material(s) and services. The term “**GST**” shall be construed to include the Integrated Goods and Services Tax (hereinafter referred to as “IGST”) or Central Goods and Services Tax (hereinafter referred to as “CGST”) or State Goods and Services Tax (hereinafter referred to as “SGST”) or Union Territory Goods and Services Tax (hereinafter referred to as “UTGST”) depending upon the import / interstate or intrastate supplies, as the case may be. It shall also mean GST compensation Cess, if applicable.

8.4 Quoted price/rate(s) should be inclusive of all taxes and duties, except **GST(i.e. IGST or CGST and SGST/UTGST applicable in case of interstate supply or intra state supply respectively and cess on GST if applicable) on the final service**. However, GST rate (including cess) to be provided in the respective places in the Price Bid. Please note that the responsibility of payment of GST (CGST & SGST or IGST or UTGST) lies with the Supplier of Goods / Services (Service Provider) only. Supplier of Goods / Services (Service Provider) providing taxable service shall issue an Invoice/ Bill, as the case may be as per rules/ regulation of **GST**. Further, returns and details required to be filled under GST laws & rules should be timely filed by Supplier of Goods / Services (Service Provider) with requisite details.

8.5 Bidder should also mention the **Harmonised System of Nomenclature** (HSN) and **Service Accounting Codes** (SAC) at the designated place in SOR.

8.6 Where the OIL is entitled to avail the input tax credit of GST:

8.6.1 OIL will reimburse the **GST** to the Supplier of Goods / Services (Service Provider) at actual against submission of Invoices as per format specified in rules/ regulation of GST to enable OIL to claim input tax credit of **GST** paid. In case of any variation in the executed quantities, the amount on which the **GST** is applicable shall be modified in same proportion. Returns and details required to be filled under GST laws & rules should be timely filed by supplier with requisite details.

8.6.2 The input tax credit of **GST** quoted shall be considered for evaluation of bids, as per evaluation criteria of tender document.

8.7 Where the OIL is not entitled to avail/take the full input tax credit of GST:

8.7.1 OIL will reimburse **GST** to the Supplier of Goods / Services (Service Provider) at actual against submission of Invoices as per format specified in rules/ regulation of **GST** subject to the ceiling amount of **GST** as quoted by the bidder. In case of any variation in the executed quantities (If directed and/or certified by the In-Charge) the ceiling amount on which **GST** is applicable will be modified on pro-rata basis.

8.7.2 The bids will be evaluated based on total price including **GST**.

- 8.8 Payments to Service Provider for claiming **GST** amount will be made provided the above formalities are fulfilled. Further, OIL may seek copies of challan and certificate from Chartered Accountant for deposit of **GST** collected from OIL.
- 8.9 Contractor/vendor shall be required to issue tax invoice in accordance with GST Act and/or Rules so that input credit can be availed by OIL. In the event that the contractor / vendor fails to provide the invoice in the form and manner prescribed under the GST Act read with GST Invoicing Rules there under, OIL shall not be liable to make any payment on account of **GST** against such invoice.
- 8.10 **GST** shall be paid against receipt of tax invoice and proof of payment of **GST** to government. In case of non-receipt of tax invoice or non-payment of **GST** by the contractor/vendor, OIL shall withhold the payment of **GST**.
- 8.11 **GST** payable under reverse charge mechanism for specified services or goods under GST act or rules, if any, shall not be paid to the contractor/vendor but will be directly deposited to the government by OIL.
- 8.12 Where OIL has the obligation to discharge **GST** liability under reverse charge mechanism and OIL has paid or is /liable to pay **GST** to the Government on which interest or penalties becomes payable as per GST laws for any reason which is not attributable to OIL or ITC with respect to such payments is not available to OIL for any reason which is not attributable to OIL, then OIL shall be entitled to deduct/ setoff / recover such amounts against any amounts paid or payable by OIL to Contractor / Supplier.
- 8.13 Notwithstanding anything contained anywhere in the Agreement, in the event that the input tax credit of the **GST** charged by the Contractor / Vendor is denied by the tax authorities to OIL for reasons attributable to Contractor / Vendor, OIL shall be entitled to recover such amount from the Contractor / Vendor by way of adjustment from the next invoice. In addition to the amount of **GST**, OIL shall also be entitled to recover interest at the rate prescribed under GST Act and penalty, in case any penalty is imposed by the tax authorities on OIL.
- 8.14 TDS under GST, if applicable, shall be deducted from contractor's/vendor's bill at applicable rate and a certificate as per rules for tax so deducted shall be provided to the contractor/vendor.
- 8.15 The Contractor will be under obligation for charging correct rate of tax as prescribed under the respective tax laws. Further the Contractor shall avail and pass on benefits of all exemptions/concessions available under tax laws. Any error of interpretation of applicability of taxes/ duties by the contractor shall be to contractor's account.
- 8.16 It is the responsibility of the bidder to quote the correct GST rate. The classification of goods/services as per GST (Goods & Service Tax) Act should be correctly done by the contractor to ensure that input tax credit on GST (Goods & Service Tax) is not lost to the OIL on account of any error on the part of the contractor.
- 8.17 In case, the quoted information related to various taxes, duties & levies subsequently proves wrong, incorrect or misleading, OIL will have no liability to reimburse the difference in the duty/ tax, if the finally assessed amount is on the higher side and OIL will have to right to recover the difference and in case the rate of duty/ taxes finally assessed is on the lower side.
- 8.18 Notwithstanding anything mentioned elsewhere in the Bidding Document the aggregate liability of OIL towards Payment of Taxes & Duties shall be limited to the volume of GST declared by the bidder in its bid & nothing shall be payable extra except for the statutory variation in taxes & duties.

- 8.19 Further, it is the responsibility of the bidders to make all possible efforts to make their accounting/IT system GST compliant in order to ensure availability of Input Tax Credit (ITC) to Oil India Ltd.
- 8.20 GST liability, if any on account of supply of free samples against any tender shall be to bidder's account.
- 8.21 In case of statutory variation in **GST**, other than due to change in turnover, payable on the contract value during contract period, the Supplier of Goods/ Services (Service Provider) shall submit a copy of the 'Government Notification' to evidence the rate as applicable on the Bid due date and on the date of revision.

Beyond the contract period, in case OIL is not entitled for input tax credit of **GST**, then any increase in the rate of **GST** beyond the contractual delivery period shall be to Service provider's account whereas any decrease in the rate **GST** shall be passed on to the OIL.

Beyond the contract period, in case OIL is entitled for input tax credit of **GST**, then statutory variation in applicable **GST** on supply and on incidental services, shall be to OIL's account.

Claim for payment of **GST**/ Statutory variation, should be raised within two [02] months from the date of issue of 'Government Notification' for payment of differential (in %) **GST**, otherwise claim in respect of above shall not be entertained for payment of arrears.

The base date for the purpose of applying statutory variation shall be the Bid Opening Date.

- 8.22 The contractor will be liable to ensure to have registered with the respective tax authorities, wherever applicable and to submit self-attested copy of such registration certificate(s) and the Contractor will be responsible for procurement of material in its own registration (GSTIN) and also to issue its own Road Permit/ E-way Bill, if applicable etc.
- 8.23 In case the bidder is covered under Composition Scheme under GST laws, then bidder should quote the price inclusive of the GST (CGST & SGST/UTGST or IGST). Further, such bidder should mention "Cover under composition system" in column for GST (CGST & SGST/UTGST or IGST) of price schedule.
- 8.24 OIL will prefer to deal with registered supplier of goods/ services under GST. Therefore, bidders are requested to get themselves registered under GST, if not registered yet. However, in case any unregistered bidder is submitting their bid, their prices will be loaded with applicable GST while evaluation of bid. Where OIL is entitled for input credit of GST, the same will be considered for evaluation of bid as per evaluation methodology of tender document.
- 8.25 Procurement of Specific Goods: Earlier, there is no tax incidence in case of import of specified goods (i.e. the goods covered under List-34 of Customs Notification no. 12/2012-Cus dated. 17.03.2012 as amended). Customs duty is not payable as per the policy. However, under GST regime, IGST Plus GST compensation cess (if applicable) would be leviable on such imports. Bidders should quote GST as inclusive considering IGST component for the imported Materials portion while quoting their prices on destination basis. However, GST rate to be specified in the price bid format.

8.26 Documentation requirement for GST

The vendor will be under the obligation for invoicing correct tax rate of tax/duties as prescribed under the GST law to OIL, and pass on the benefits, if any, after availing input tax credit.

The Arbitration and Conciliation Act 1996 shall not be applicable to the Arbitration under this clause. The award of the Arbitrator shall be binding upon the parties to the dispute, provided however, any party aggrieved by such award may make a further reference for setting aside or revision of the award to the Law Secretary, Deptt. of Legal Affairs, Ministry of Law and Justice, Government of India. Upon such reference, the dispute shall be decided by the Law Secretary or the Special Secretary/Additional Secretary, whose decision shall bind the parties finally and conclusively. The parties in the dispute will share equally the cost of the arbitration as intimated by the Arbitrator.

The venue of all arbitrations under both 27.1 & 27.2 will be Noida / Delhi. The award made in pursuance thereof shall be binding on the parties.

28.0 CHANGES:

28.1 During the performance of the work, Company may make minor change to take care of any supplementary work within the general scope of this Contract including, but not limited to, changes in methodology, and minor additions to or deletions from the work to be performed. Contractor shall perform the work as changed. Changes of this nature will be affected by written order by the Company.

28.2 If any change result in an increase in compensation due to Contractor or in a credit due to Company, Contractor shall submit to Company an estimate of the amount of such compensation or credit in a form prescribed by Company. Such estimates shall be based on the rates shown in the Schedule of Rates (Section V). Upon review of Contractor's estimate, Contractor shall establish and set forth in the Change Order the amount of the compensation or credit for the change or a basis for determining a reasonable compensation or credit for the change. If Contractor disagrees with compensation or credit set forth in the Change Order, Contractor shall nevertheless perform the work as changed, and the parties will resolve the dispute in accordance with Clause 27.0 hereinabove. Contractor's performance of the work as changed will not prejudice Contractor's request for additional compensation for work performed under the Change Order.

29.0 ROYALTY AND PATENTS:

Each party shall hold harmless and indemnify the other from and against all claim and proceedings for or on account of any patent rights, design, trade mark or other protected rights arising from any use of materials, equipment, processes, inventions and methods which have not been imposed on the attending party by the terms of the contract or the specifications or drawings forming part thereof.

SCOPE OF WORK AND SPECIAL TERMS & CONDITIONS**1.0 Introduction:**

Oil India Limited (OIL) is a premier Indian National Oil Company engaged in the business of exploration, production and transportation of crude oil and natural gas, and production of LPG. The company's history spans the discovery of crude oil in the far east of India at Digboi, Assam in 1889 to its present status as a fully integrated upstream petroleum company.

OIL has a long history of exploration and production of hydrocarbons in the fold-belts of Upper Assam and Arunachal Pradesh. Now its exploration efforts are not limited to India but have crossed its borders to have global footprint as well. At present OIL has in-country Field Head-Quarter at Duliajan Assam, Pipeline Head Quarter at Guwahati, Assam, Project offices at Jodhpur (Rajasthan) and Kakinada (Andhra Pradesh), Shipping office at Kolkata (West Bengal), E&D Directorate, Delhi and Corporate office at Noida.

OIL's core purpose and vision statement is as follows:

Core Purpose

"The fastest growing energy company with a global presence providing value to the stakeholders"

OIL's Vision

- Oil India is the fastest growing Energy Company with highest profitability.
- Oil India delights the customers with quality products and services at competitive prices.
- Oil India is a Learning Organization, nurturing initiatives, innovations and aspirations with best practices.
- Oil India is a team, committed to honesty, integrity, transparency and mutual trust creating employee pride.
- Oil India is fully committed to safety, health and environment.
- Oil India is a responsible corporate citizen deeply committed to socio-economic development in its areas of operations.

Oil India Limited (OIL) has undertaken a number of digital initiatives which are implemented or currently underway. At present the seismic data acquisition, processing & interpretation and well logging services is fully digitized. The gas production, transportation and marketing is digitized with SCADA system. OIL also has virtual reality center at 2 (two) locations.

OIL wants to leverage the recent advances in digitalization technologies and advanced analytics to improve efficiency, increase safety, reduce wastages, increase customer value, achieve effective decision making and to address the challenges posed by ever changing business requirements.

OIL seeks to develop a holistic digital enterprise Roadmap bringing new technology like Internet of Things (IoT), Augmented Reality (AR), Cognitive Computing, Machine learning / Artificial Intelligence/ Advanced Analytics etc. to improve its ability to scale current efforts and sustain a broader digital transformation program. This roadmap should encompass all its operational areas. In this regard, OIL intends to appoint a Consultant to assist in developing the "Digital Roadmap" for the company and also provide implementation assistance.

2.0 Scope of Work:

The work is divided into two major phases, which include specific modules strongly related to one another. The consultant shall carry out the scope in the following two phases:

Phase-I: Designing the Digital Strategy and Implementation Roadmap, including plan for setting up a Center of Excellence / Program management office

Phase-II: Implementation support and handholding to set-up the Program Management Office and oversee implementation of 5 initiatives identified in Phase-I.

The consultant should prepare the Digital Roadmap (Phase-I) primarily on its own, with necessary inputs from OIL. OIL has already formed a team, which would provide necessary liaising assistance with the relevant business units/ operational units. The consultant will take recourse to joint meetings, interviews with OIL personnel, independent work performed by himself and the collaborative working and review sessions with OIL's team.

Consultant has to submit an integrated project execution plan with their bid. At the start of work, Consultant has to finalise this proposed plan in discussion with and acceptance by OIL.

The total maximum project duration is 100 weeks

Phase-I	-	20 weeks
Inter-phase gap	-	8 weeks
Phase-II	-	72 weeks

At the end of Phase-I, OIL and the consultant will mutually decide which of the initiatives identified during Phase-I will be selected for implementation in Phase-II, considering the following criteria (among others):

- Low-hanging fruit – i.e. easily and/ or cheaply implementable, in least time
- Initiatives that will potentially bring maximum benefits, either cost-wise, efficiency-wise or safety-wise
- Medium-term initiatives

Very importantly, the consultant must ensure that each initiative selected is part of an overall digital strategy and will be mapped into the information architecture proposed by the consultant, including in the provision of centralized dashboards, costing/ inventory parameters, analytics, etc.

2.1(A) Phase-I: Designing the Digital Strategy and Implementation Roadmap

The consultant must submit an Action Plan to OIL for Phase-I at the beginning of Phase-I with proper timelines.

Phase-I has been divided into the following 4 Modules: (in no particular order, although some are dependent on others)

1. Module 1 - Begin defining Digital vision for OIL

2. Module 2 - Assess OIL's current architecture, processes and capabilities along with Gap Analysis
3. Module 3 - Define the ideal to-be Digital state for OIL. Identify & prioritize initiatives
4. Module 4 - Finalize Digital Vision, Develop Digital Roadmap and implementation plan, including plan for setting up a Center of Excellence / Program management office. A detailed cost-benefit analysis for all initiatives is a key deliverable for Phase-I

Module 1: Begin defining Digital Vision for OIL

The objective of this step is to define the Digital Vision for OIL based on the company's strategic objectives and leadership expectations. The consultant should demonstrate to the OIL leadership global digital best practices, technology disruptors, relevant case studies as well as demonstrations.

1.1 Understanding OIL's strategic intent – The consultant shall understand OIL's objective and strategic intent for development of Digital Roadmap for the company and consolidate expectations and requirements, key tasks at this stage. The consultant should:

- a. Interact with OIL business, stakeholders and top management through structured meetings at various levels to understand OIL's business objectives and strategy to gauge the immediate and longer-term needs of the company. These business needs should be translated into digital needs and initiatives, so that there is a clear business case for each digital initiative in a holistic way to align with the OIL Vision statement.
- b. Conduct leadership and stakeholder meetings to understand the OIL's strategy. The consultant must articulate their understanding of the business goals and objectives.
- c. Identify the challenges faced by business sections and sub-sections within OIL and its operational environment to align with the vision of the company and the globally changing business dynamics.
- d. Understand and assess the current maturity level of OIL with respect to three aspects – digital technologies, organization capabilities and process maturity. The current maturity of OIL must be defined with respect to the leading practices in the same industry as OIL. The assessment should cover all the relevant OIL businesses and functions.
- e. Conduct visioning workshops with OIL Stakeholders to demonstrate the 'Art of the Possible' using demonstrations and industry expert opinions. The Consultant should share best practices across the globe along with relevant digital technologies, analytics and trends that are relevant for OIL to optimize cost and improve performance in future.

Key Deliverables

- a. A Digital Mindset or immersion workshop with top management and stakeholders of OIL to set up foundation and overall direction for Digital Strategy.
- b. Begin creation of Digital Vision statement for OIL in alignment with OIL's Vision

Module 2: As - is assessment of OIL's current architecture, process and capabilities along with Gap Analysis

In order to assess the OIL's capabilities the following activities should be performed:

2.1 Assess OIL's current operating model, process, architecture and digital capabilities:

- Study the existing process flow of key operations of OIL and to identify / pinpoint areas where adequate digital intervention / digital technology induction is feasible / possible in order to leverage Efficiency and Safety of operations and Cost Reduction
- Study the existing IT and OT inventory of OIL and explore the possibilities of leveraging the existing systems.
- Understand the as-is enterprise technology architecture of OIL along with the information flows and user groups.
- Provide a complete picture of OIL's existing digital capabilities and leverage the same in the proposed integrated Digital and Business model. This would provide a view to OIL on their current maturity and the scope of improvement which can be met using digital initiatives.

2.2 Identify Digital themes for Business and Functions

- Identify the business and functional units relevant to the Digital Themes identified in the previous module.
- Conduct relevant workshops and meetings with the functional and business heads to establish and gain acceptability of the relevance of the digital theme.
- Map the relevance of 'Identified digital theme' vis-à-vis major functions / business area (Core & non-core), as per the indicative format shown below:

Indicative map of relevance of 'Identified digital theme' V/s 'Key Function' and / or business area

Major functions / business area (and not restricted to these)	Digital Theme 1	Digital Theme 2	Digital Theme 3	Digital Theme 4	Digital Theme 5	
Capital Projects		✓				
Seismic, Reservoir characteristics				✓		
Drilling & Completions, Logging, Workover, Digital Oil Recovery	✓			✓		

Prescriptive & Predictive Maintenance		✓			✓	
Production Operations				✓		
Remote Operations	✓			✓		
Abandonment		✓			✓	
Supply & Logistics			✓			
Safety and Security of commodity and personnel		✓	✓			
Any others – to be identified by consultant					✓	

2.3 Identify and assess the current digital capabilities with respect to (but not limited to):

- Advanced Analytics:** Assessment of the existing data management capabilities such as data availability, data sanctity, maturity of insights generated, frequency of reporting, dash boarding and visualization capabilities etc. This would help OIL to monitor asset performance, reservoir characteristics, employee performance, customer preferences and other derived insights from multiple sources of data.
- IT-OT convergence:** Understand the existing solutions leveraging the convergence of operational, business, consumer and enterprise information along with the digital technologies. As an asset and data intensive company, it becomes imperative for OIL to look at IT and OT as an integrated process rather than in silos.
- Cloud:** Review and assessment of the private/ public cloud infrastructure usage for OIL.
- Social and Web presence:** Use of social media platforms to better connect with the customers and stakeholders to improve their satisfaction by servicing them better.
- Augmented Reality:** Identify and outline how AR can help OIL to streamline its operations, reduce costs and importantly to increase safety levels.
- Artificial Intelligence:** Explore and identify, where cognitive technologies and Artificial Intelligence can benefit OIL to break the prevailing trade-offs between speed, cost, quality and safety.
- Cyber Security:** Considering the growing concerns of cyber-attacks on critical infrastructure, understand the current security status of OIL, develop a plan to improve the security posture complying with the industry standards.
- GIS based Satellite imaging :** Use of Satellite Imagery / Map for marking OIL's Land Holding, Installations, Well Locations, Oil and Gas flowline routes, access routes to locations etc

2.4 Gap analysis and identification of interdependencies:

- Identify gaps in the current data availability from OT and IT environment at OIL, data capture process, data quality and data integrity.

- b. Review the interdependencies of IT and OT systems to identify redundancies, overlaps and gaps in availability of reliable data.
- c. Review the existing automation and associated processes to identify possible gaps in the data, its capture process and quality of such data.
- d. Identify the gaps in the skills and competencies of OIL internal resources and laydown the process of upgrading the same to achieve the strategy.
- e. The consultant should recommend a structured methodology to address the identified data gaps.
- f. Define Key Performance Indicators for the success of IT/OT convergence and common set of KPI's measuring the implementation progress. Impact of OT-IT convergence due to the common governance models that impact policies, workflows and structures.
- g. Review the current organization structure along with above identified KPIs/ responsibilities to assess the overall gaps and responsibility areas.

Key Deliverables

Consultant will submit a detailed report on the following:

- a) Digital Architecture maturity assessment and gap analysis across identified metrics based on study of leading practices, but contextualized for OIL's environment, strategic vision and aspirations.
- b) Detailed and factual assessment of the existing OIL IT-OT inventory, digital architecture, analytics capability, organizational and process capabilities clearly articulating the gaps with respect to the best practices across the globe.
- c) Data availability and integration.
- d) Data utilization i.e. highlights of any gaps on how the data is being processed and leveraged to make business decisions.
- e) Analysis on digital themes describing the expected impact of each.
- f) Skill gaps.

Module 3: Define to-be target state

The objective of this step is to define the ideal to-be state for OIL based on the industry best practices, assessments done in Module - 1 & 2 and the leadership's vision. This step should clearly articulate where OIL as an organization can reach in the short and medium term.

3.1 Define to-be operating model

- a. Based on the understanding of the as-is state and keeping in view security in the integrated environment, consultant will establish operational model / suggest options to optimally utilize the existing IT and OT infrastructure resources to support the various Digital initiatives. The recommendations should take into account the existing policy and framework of IT and OT systems.
- b. With a view to help reduce costs and enable OIL to spend less time on detailed, routine tasks and more on strengthening overall productivity and performance, consultant should also recommend and determine how centralized the organization will be and which processes will be managed by a central group and which will be handled locally by individual sites. Consultant should also

recommend the activities that can be insourced or executed externally in the integrated digital environment.

- c. Consultant should identify key areas where advanced analytics and digital technologies can be leveraged by OIL. This should be based on how OIL's business and ecosystem works, IT and OT perspectives covering
 - i. Descriptive analytics – to gain insight from historical or current data streams including status and usage monitoring dashboard, reporting, anomaly detection and diagnosis, model building or training etc.
 - ii. Predictive analytics – to identify expected behaviors or outcomes based on predictive modelling using statistical and machine learning techniques, e.g. capacity demand/usage prediction, material/energy consumption prediction, and component/system wear and fault predictions.
 - iii. Prescriptive analytics – to find the optimal solution by determining what is likely to happen based on first principles, empirical models and using predictive analytics that incorporates causality related to design and execution decisions.
- d. Consultant should recommend the integrated information architecture comprising of all suggested initiatives with Response time and reliability, Bandwidth and capacity, Security, Scalability, Volume of data and processing needs, Velocity of data flow and response time requirements, Variety of data and data sources for interfaces etc.
- e. Define the end-state functional and technical specifications of integrated information architecture proposed. The architecture must be comprehensive and account for all the architecture principles of scalability, performance, recoverability, security, maintainability, operability, availability etc.

3.2 Develop a list of Recommended Digital Initiatives: The consultant shall develop possible digital initiatives based on OIL's priorities, gaps observed in the earlier Module. This shall include the following:

- a) Potential digital interventions and examples in Oil & Gas industry or other industries.
- b) Initiatives have to be listed in each of the following categories:
 - 1. Core operations – Geoscience, Reservoir Engineering, Drilling, Production and Pipeline
 - 2. Non-Core operations – Engineering, Material Management, Finance, HR (including CSR) and Planning
- c) For each of the subcategories under b1 and b2 above, a minimum of 2 initiatives have to be identified.
- d) Development of business case (Cost benefit analysis, ROI or mitigation of significant risks, budgetary cost estimation) for identified/recommended projects and initiatives.
- e) Identify KPIs to measure performance and benefits from initiatives and assess benefits from identified initiatives, including timelines when each KPI will be measured/ measurable.
- f) Identification of potential risks associated with interventions and mitigation plan.

- g) Prepare project charters consolidating the digital initiatives and identifying the project champions and other details such as governance framework. The project charters should also mention the technical and functional requirements for each of the identified initiatives.

Key Deliverables

Consultant will submit a detailed report on the following:

- a) Recommended initiatives describing the expected impact of each initiative along with required technology, infrastructure and organizational changes associated with them including
 - i) expected enhanced performance and efficiency gains
 - ii) Enhancement in operating safety, if any
 - iii) Expected RoI / Cost Reduction, if any
- b) The linkage and value addition to every Business Unit and Function of OIL with each initiative.
- c) Recommendation on the detailed framework of Roles and Responsibilities of Process Owners and IT Teams to implement the recommended initiatives considering the complete Digital roadmap.
- d) Which applications need to be retired, upgraded or replaced with new technologies, how all relevant applications will need to be integrated and how data and applications will interface with each other along with cost, time and effort estimates.

Recommended Initiatives considering the complete road map (indicative):

	Business Unit / Function Impacted	Strategic Impact	Ease of Implementation	Return on Investment	Role and responsibilities of Process Owners and IT Teams	Budgetary Cost Estimate
Initiative 1						
Initiative 2						
Initiative 3						
....						

Module 4: Develop Digital Implementation Roadmap

The objective of this module is to prioritize the digital initiatives identified in the previous module and create a roadmap with the short and medium-term implementation strategy. This module should be able to provide a comprehensive roadmap along with the technological and organizational improvements targeted for the stated Business Units and Functions of OIL.

4.1 Prioritize the initiatives on the basis of a prioritization framework based on the ease of implementation and the potential benefits expected from each initiative. The consultant should also factor in the business priorities and the potential risks associated with each initiative. Also, the consultant should refine value proposition and critical success factors/enablers for identified initiatives.

4.2 Identify quick wins and medium term opportunities for implementation. The consultant must state the rationale behind this categorization.

4.3 Resource Requirement and Responsibilities: The consultant shall identify asset, personnel and systems requirements to support initiatives and define responsibilities for stakeholders driving key initiatives.

4.4 Digital Program Governance/Management Structure: Establish a Digital Transformation Program Management Office to facilitate stakeholder alignment, continually assess and deliver digital opportunities.

4.5 Common governance model - Consultant to help installing common governance and process models, provide a step by step plan for centrally managing data in a secured way. The common governance model should clearly define roles and responsibilities, accountability and ownership of various stakeholders involved and to be involved while implementing the strategy.

4.6 Consultant to facilitate Change Management process during the building up of Strategy for an integrated IT/OT environment by achieving acceptance of stakeholders of OIL. This exchange of learning gathered through interactions will be discussed with OIL Top management for their feedback for alignment of the action points with the corporate vision.

4.7 Draft comprehensive recommendations on Organizational changes required to implement the digital roadmap. This should cover organization structure options based on best practices, existing organisation structure, OIL's digital maturity and a final recommendation on the organograms to support the current initiative and objective of Digital Strategy. Staffing with roles & responsibilities shall also be defined by the consultant for the recommended structure.

4.8 Detailed Project Plan: Develop a detailed execution plan for prioritized initiatives identifying key work streams, milestones with timeline, success benchmarks, deliverables, resource requirements mapping including financial involvement, as well as descriptions of expected outcomes, for example, detailing the activities required to implement prioritized initiatives.

4.9 The consultant shall put up **the comprehensive report** prepared at the end of Phase-I to competent authority of OIL for approval.

4.10 To appraise OIL of the need for any statutory clearances / approval like DGMS clearance etc. required for the initiatives / Technology / Devices etc.

Key Deliverables

Consultant should provide a detailed strategy roadmap and implementation plan along with Assessment report which includes the following (but not limited to)

- a) Digital Vision
- b) Digital Strategy
- c) Current state assessment and gap analysis across business domains and geographies
- d) OIL maturity assessment report for Digital Initiatives
- e) Identified and prioritized Digital initiatives
- f) Digital Strategy implementation plan that is scalable, modular, reliable, secure and flexible with a view to meet existing and future requirements of OIL.
- g) A detailed description of recommended initiatives as part of overall strategy document. This should include:
 - i) Objective and scope in detail

- ii) Cost-Benefit Analysis – business case, business impact, likely investment and ROI, vendor details, implementation partner options, target implementation location, ease of rollout and skill availability, cost estimate and implementation time
- iii) Risk identification/ assessment and mitigation plan
- iv) Expected outcome and deliverables: among all outcomes/ benefits listed, the consultant must explicitly specify which benefits would accrue and quantify the same by the end of the tenure of Phase-II.
- v) Approach to implement each project / initiative
- vi) Implementation timelines
- vii) Resource requirement with experience & qualification criteria
- viii) Hardware, other equipment, software required to be purchased
- h) Develop a detailed execution plan for prioritized initiatives identifying milestones with timelines
- i) A blueprint for the digital CoE, and the roadmap for rolling out the same, including infrastructure required, personnel required etc.

NOTE

The consultant will need to submit a progress report along with a presentation to the committee at the end of every 4 weeks during Phase-I and should show Planned vs Actuals, any lags, make-up plan, etc.

Timelines for Phase-I

Phase-I should be completed in a maximum of 20 weeks from the start of Phase-I.

NOTE: There will be an approximate gap of 8 weeks between end of Phase-I and start of Phase-II. Date of start of Phase-II will be intimated separately by OIL.

2.1(B) Phase-II: Implementation Support

The consultant shall support set-up of Project Management Office (PMO) to ensure implementation of selected Digital Initiatives. The consultant will handhold for implementation of selected initiatives. This will also include assisting OIL's team during budgeting process. OIL will provide necessary working space and network connectivity for this office.

Key activities during this phase would be:

1. Consultant will prepare RFP document for the approved projects, consisting of a project plan within defined timelines, detailed technical specifications of all the system requirements that includes but not limited to recommended systems, eligibility criteria for selecting the vendors responsible for executing the plans, commercial specifications/ documentation, service level agreements plan etc.
2. The consultant would assist in the tendering process for selection of the vendors for implementing the projects. This includes the
 - Eligibility criteria, vendor recommendation, Technical Specifications of the desired Infrastructure including the standards & Guidelines adopted.
 - Assistance during pre-bid conference/ pre-tender (if required) to provide technical clarifications to the vendors

- Assistance in preparing replies for any post bid queries.
 - Technical evaluation of bids and preparation of compliance report.
 - Operating model for implementation
 - Evaluation should have extensive coverage, but not limited to criteria of technical, cost, post implementation services, reliability, operating model, Government of India guidelines, security and other parameters. This should cater to the overall view of the Digital Strategy.
3. The consultant shall be responsible for setting up Project Management Team, project management tools / software and review architecture for all Project Management activities identified for implementation and for ensuring the smooth and timely functioning of the Project.
 4. Project Management Team will consist of members from OIL and the consultant. The constitution of the project management team will be deliberated as per the requirements of the initiatives identified for execution and the extent of hand-holding required by OIL for maintaining an overall project view and the progress with high quality deliverables.
 5. The consultant shall periodically review the progress made in the project and identify any potential issues / risks in project delivery. Identify appropriate measures to mitigate such risks.
 6. Consultant will participate in the regular meetings with the vendors and the OIL team to review the progress of work.
 7. The consultant will be responsible for the monthly review of the project in presence of key stake holders like OIL Management, project management team and Project leader.
 8. During the project monitoring phase, the consultant will track the technical aspects of the implementation to ensure the desired outputs are achieved as envisaged during the activity from Phase-I of the scope of the tender.

Key Deliverables

1. Installation and Commissioning report of each initiative.
2. For each initiative, at the end of Phase-II the consultant shall submit the outcome analysis report consisting of the detailed assessment of the tangible and intangible benefits achieved by OIL. These should be in comparison to the parameters defined in the deliverables and assessments of Phase-I. The outcome analysis report should also highlight the value generated from these initiatives / projects.

Timelines for Phase-II

Phase-II should be completed in 72 weeks from the start of Phase-II.

2.2 Manpower Deployment

To substantiate the experience asked for, the bidder must submit the relevant CV of the persons who will be associated with OIL for the duration of this entire project. OIL would do due diligence and approve the placement of the person.

The Team proposed to be deployed shall remain unchanged during the contract period unless under unavoidable circumstances. In such a situation, the change will only be permitted with prior written consent of OIL. The new member(s) proposed to be deployed shall also meet the minimum experience as defined in the tender.

- a) Project Manager (One - 1): Responsible for entire project. The project manager shall continue till the end of the project (Phases I & II).

Experience: Project manager/ lead/ head (to be assigned for OIL's project) should have at least 15 years of work experience of which 5 years of experience as project manager/ lead/ head in PSUs, government agencies/ ministries, public limited companies prior to original bid closing date. Out of the above stated experience, at least 1 year of experience should be in *Digital/IT/IOT/OT* transformation strategy preparation while in the payroll of the bidder.

b) **Phase-I**

Project Team: The bidder shall engage a team of experienced professionals adequate for completion of Phase-I within the stipulated time.

Experience:

- 1) The team to be assigned to OIL (Excluding Project Manager) for Phase-I must have dedicated domain experts in Petroleum Geology and/or Petroleum Geophysics, Crude oil and/ or Gas Production, Hydrocarbon Drilling Operations and Finance, IoT and Data analytics. The domain experts for Petroleum Geology and/or Petroleum Geophysics, Crude oil and/ or Gas Production, Hydrocarbon Drilling Operations and Finance must have a minimum of 5 years of domain experience prior to original bid closing date. The domain experts for IoT and Data analytics must have a minimum of 2 years of domain experience prior to original bid closing date.
- 2) Additional dedicated domain experts for ARVR/AI/Block chain are to be provided if quoted in QCBS.

c) **Phase-II**

Project Team: The bidder shall engage a team of experienced professionals adequate for completion of Phase-II within the stipulated time. There should be a dedicated expert on Cyber Security in the team.

Experience:

- 1) The team to be assigned to OIL for Phase-II must have a dedicated domain expert in Cyber Security with a minimum of three year of experience prior to original bid closing date.
- 2) The team for Phase-II (Excluding Project Manager and cyber security expert) must have a minimum of 7 years of cumulative experience prior to original bid closing date in *Digital/IT/IOT/OT* implementation with each member having a minimum of 1 such implementation experience.

3.0 PAYMENT TERMS:

Sl No	Payment schedule	Quantum of payment
1	After acceptance of As-is Report (Module II of Phase-I)	5% of Phase-I charges
2	After successful completion of Phase-I	50% of Phase-I charges
3	After floating of tender for all five initiatives.	25% of Phase-II charges
4	After placement of order for all five initiatives.	25% of Phase-I

Sl No	Payment schedule	Quantum of payment
5	After successful commissioning of 3 rd party HW/SW of each initiative	25% of Phase – II charges (5% for each initiative of Phase-II)

(END OF SECTION-VI)

INTEGRITY PACT

Between

Oil India Limited (OIL) hereinafter referred to as "The Principal"

And

(Name of the bidder).....hereinafter referred to as "The Bidder/Contractor"

Preamble:

The Principal intends to award, under laid down organizational procedures, contract/s for Engagement of consultancy service for development and implementation of digital roadmap of Oil India Limited. The Principal values full compliance with all relevant laws and regulations, and the principles of economic use of resources, and of fairness and transparency in its relations with its Bidder/s and Contractor/s.

In order to achieve these goals, the Principal cooperates with the renowned international Non-Governmental Organization "Transparency International" (TI). Following TI's national and international experience, the Principal will appoint an external independent Monitor who will monitor the tender process and the execution of the contract for compliance with the principles mentioned above.

Section: 1 -Commitments of the Principal

(1) The Principal commits itself to take all measures necessary to prevent corruption and to observe the following principles:

1. No employee of the Principal, personally or through family members, will in connection with the tender for, or the execution of a contract, demand, take a promise for or accept, for him/herself or third person, any material or immaterial benefit which he/she is not legally entitled to.
2. The Principal will, during the tender process treat all Bidders with equity and reason. The Principal will in particular, before and during the tender process, provide to all Bidders the same information and will not provide to any Bidder confidential/additional information through which the Bidder could obtain an advantage in relation to the tender process or the contract execution.
3. The Principal will exclude from the process all known prejudiced persons.

(2) If the Principal obtains information on the conduct of any of its employees which is a criminal offence under the relevant Anti-Corruption Laws of India, or if there be a substantive suspicion in this regard, the Principal will inform its Vigilance Office and in addition can initiate disciplinary actions.

Section: 2 -Commitments of the Bidder/Contractor

(1) The Bidder/Contractor commits itself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the tender process and during the contract execution.

1. The Bidder/Contractor will not, directly or through any other person or firm, offer, promise or give to any of the Principal's employees involved in the tender process or the execution of the contract or to any third person any material or immaterial benefit which he/she is not legally entitled to, in order to obtain in

exchange any advantage of any kind whatsoever during the tender process or during the execution of the contract.

2. The Bidder/Contractor will not enter with other Bidders into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, Subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to introduce cartelization in the bidding process.

3. The Bidder/Contractor will not commit any offence under the relevant Anticorruption Laws of India; further the Bidder/Contractor will not use improperly, for purposes of competition or personal gain, or pass on to others, any information or document provided by the Principal as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.

4. The Bidder/Contractor will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the contract.

(2) The Bidder/Contractor will not instigate third persons to commit offences outlined above or be an accessory to such offences.

(3) The Bidder/Contractor signing Integrity Pact shall not approach the Courts while representing the matters to IEMs and he/she will await their decision in the matter.

Section 3 -Disqualification from tender process and exclusion from future Contracts

If the Bidder, before contract award has committed a transgression through a violation of Section 2 or in any other form such as to put his reliability or risibility as Bidder into question, the Principal is entitled to disqualify the Bidder from the tender process or to terminate the contract, if already signed, for such reason.

1. If the Bidder/Contractor has committed a transgression through a violation of Section 2 such as to put his reliability or credibility into question, the Principal is entitled also to exclude the Bidder/Contractor from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, in particular the number of transgressions, the position of the transgressions within the company hierarchy of the Bidder and the amount of the damage. The exclusion will be imposed for a minimum of 6 months and maximum of 3 years.

2. The Bidder accepts and undertakes to respect and uphold the Principal's Absolute right to resort to and impose such exclusion and further accepts and undertakes not to challenge or question such exclusion on any ground, including the lack of any hearing before the decision to resort to such exclusion is taken. This undertaking is given freely and after obtaining independent legal advice.

3. If the Bidder/Contractor can prove that he has restored/recouped the Damage caused by him and has installed a suitable corruption prevention system, the Principal may revoke the exclusion prematurely.

4. A transgression is considered to have occurred if in light of available evidence no reasonable doubt is possible.

5. Integrity Pact, in respect of a particular contract, shall be operative from the date Integrity Pact is signed by both the parties till the final completion of the contract or

as mentioned in Section 9- Pact Duration whichever is later. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings

Section 4 -Compensation for Damages

- (1)** If the Principal has disqualified the Bidder from the tender process prior to the award according to Section 3, the Principal is entitled to demand and recover from the Bidder liquidated damages equivalent to Earnest Money Deposit / Bid Security.
- (2)** If the Principal has terminated the contract according to Section 3, or if the Principal is entitled to terminate the contract according to Section 3, the principal shall be entitled to demand and recover from the Contractor liquidated damages equivalent to Security Deposit / Performance Bank Guarantee.
- (3)** The bidder agrees and undertakes to pay the said amounts without protest or demur subject only to condition that if the Bidder/Contractor can prove and establish that the exclusion of the Bidder from the tender process or the termination of the contract after the contract award has caused no damage or less damage than the amount or the liquidated damages, the Bidder/Contractor shall compensate the Principal only to the extent of the damage in the amount proved.

Section 5 -Previous transgression

- (1)** The Bidder declares that no previous transgression occurred in the last 3 years with any other Company in any country conforming to the TI approach or with any other Public Sector Enterprise in India that could justify his exclusion from the tender process.
- (2)** If the Bidder makes incorrect statement on this subject, he can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

Section: 6 -Equal treatment of all Bidders/Contractor/Subcontractors

- (1)** The Principal will enter into Pacts on identical terms with all bidders and contractors.
- (2)** The Bidder / Contractor undertake(s) to procure from all subcontractors a commitment in conformity with this Integrity Pact. The Bidder/Contractor shall be responsible for any violation(s) of the provisions laid down in this agreement/Pact by any of its sub-contractors/sub-vendors.
- (3)** The Principal will disqualify from the tender process all bidders who do not sign this Pact or violate its provisions.

Section: 7 -Criminal charges against violating Bidders/Contractors/ Subcontractors

If the Principal obtains knowledge of conduct of a Bidder, Contractor or Subcontractor, or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor, which constitutes corruption, or if the Principal has substantive suspicion in this regard, the Principal will inform the Vigilance Office.

Section: 8 -External Independent Monitor/Monitors

- (1)** The Principal appoints competent and credible external independent Monitor for this Pact. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.

(2) The Monitor is not subject to instructions by the representatives of the parties and performs his functions neutrally and independently. He reports to the Chairperson of the Board of the Principal.

(3) The Contractor accepts that the Monitor has the right to access without restriction to all Project documentation of the Principal including that provided by the Contractor. The Contractor will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor is under contractual obligation to treat the information and documents of the Bidder/Contractor/Subcontractor with confidentiality.

(4) The Principal will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the Principal and the Contractor. The parties offer to the Monitor the option to participate in such meetings.

(5) As soon as the Monitor notices, or believes to notice, a violation of this agreement, he will so inform the Management of the Principal and request the Management to discontinue or heal the violation, or to take other relevant action. The monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action. However, the Independent External Monitor shall give an opportunity to the bidder / contractor to present its case before making its recommendations to the Principal.

(6) The Monitor will submit a written report to the Chairperson of the Board of the Principal within 8 to 10 weeks from the date of reference or intimation to him by the 'Principal' and, should the occasion arise, submit proposals for correcting problematic situations.

(7) If the Monitor has reported to the Chairperson of the Board a Substantiated suspicion of an offence under relevant Anti-Corruption Laws of India, and the Chairperson has not, within reasonable time, taken visible action to proceed against such offence or reported it to the Vigilance Office, the Monitor may also transmit this information directly to the Central Vigilance Commissioner, Government of India.

(8) The word 'Monitor' would include both singular and plural.

Section:9 -Pact Duration

This Pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the respective contract, and for all other Bidders 6 months after the contract has been awarded.

If any claim is made/ lodged during this time, the same shall be binding and continue to be valid despite the lapse of this pact as specified above, unless it is discharged/determined by Chairperson of the Principal.

Section:10 -Other provisions

(1) This agreement is subject to Indian Law. Place of performance and jurisdiction is the Registered Office of the Principal, i.e. New Delhi. The Arbitration clause provided in the main tender document / contract shall not be applicable for any issue / dispute arising under Integrity Pact.

(2) Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.

(3) If the Contractor is a partnership or a consortium, this agreement must be, signed by all partners or consortium members.

(4) Should one or several provisions of this agreement turn out to be invalid, the remainder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.

QUOTED GST RATE IN Percentage		Select From Drop Down List			0	0	0.00
Total quoted Cost (Including GST)							0.00

Notes:

1) Bidder to categorically mention the currency of the quote.

2) The quoted price for Phase-I should not be more than 40% of the total quoted price of the project.

3) Unless stated otherwise in the Bidding Documents, the Contract shall be for the whole works / services as described in Bidding Documents, based on the rates and prices submitted by the Bidder and accepted by the Company. The price/rate(s) quoted by the Bidders will be inclusive of all taxes except GST(i.e. IGST or CGST and SGST/UTGST applicable in case of interstate supply or intra state supply respectively and Cess on GST , if applicable) on the final services. However, GST rate (including cess) to be provided in the respective places in the Price Bid.

4) Bidder should also mention the Harmonised System of Nomenclature (HSN) and Service Accounting Codes (SAC), whichever is applicable, at the designated place in SOR.

5) Price Bids shall be evaluated on overall lowest cost to OIL (L-1 offer) basis i.e. considering total quoted price for all services including GST(CGST & SGST/UTGST or IGST).

6) Bidders are requested to get themselves registered under GST, if not registered yet. However, in case any unregistered bidder is submitting their bid, their prices will be loaded with applicable GST while evaluation of bid. Where OIL is entitled for input credit of GST, the same will be considered for evaluation of bid as per evaluation methodology of tender document.

7) Price Bid without giving any of the details of the taxes (Including rates and amounts) will be considered as inclusive of all taxes including GST. When a bidder mentions taxes as extra without specifying the rates & amount, the offer will be loaded with maximum value towards taxes received against the tender for comparison purposes. If the bidder emerges as lowest bidder after such loading, in the event of contract/order on that bidder, taxes mentioned by OIL on the Purchase Order/ Contracts will be binding on the bidder.

8) 0(zero) % Input Tax Credit on GST (Goods & Service Tax) is available to OIL & the same shall be considered for the Purpose of evaluation.

9) Bidders have to **mandatorily** quote the following rates, which will however not be considered for cost evaluation:

9.1) Phase-I (20 weeks): Designing the Digital Strategy and implementation Roadmap

2	Cyber Security Expert as per BRC	
3	Additional Team Members	

GENERAL HEALTH, SAFETY & ENVIRONMENT (HSE) MEASURES

1. It will be solely the Contractor's responsibility to fulfill all the legal formalities with respect to the Health, Safety and Environmental aspects of the entire job (namely; the person employed by him, the equipment, the environment, etc.) under the jurisdiction of the district of that state where it is operating. Ensure that all sub-contractors hired by him comply with the same requirement as the contractor himself and shall be liable for ensuring compliance all HSE laws by the sub or sub-sub contractors.
2. Every person deployed by the contractor in a mine must wear safety gadgets to be provided by the contractor. The Contractor shall provide proper Personnel Protective Equipment as per the hazard identified and risk assessed for the job and conforming to statutory requirement and company PPE schedule. Safety appliances like protective footwear, Safety Helmet and Full Body harness has to be DGMS approved. Necessary supportive document shall have to be submitted as proof. If the Contractor fails to provide the safety items as mentioned above to the working personnel, the Contractor may apply to the Company (OIL) for providing the same. OIL will provide the safety items, if available. But in turn, OIL will recover the actual cost of the items by deducting from Contractor's Bill. However, it will be the Contractor's sole responsibility to ensure that the persons engaged by him in the mines use the proper PPE while at work. All the safety gears mentioned above are to be provided to the working personnel before commencement of the work.
3. The Contractor shall prepare written Safe Operating Procedure (SOP) for the work to be carried out, including an assessment of risk, wherever possible and safe methods to deal with it/them. The SOP should clearly state the risk arising to men, machineries & material from the mining operation / operations to be done by the contractor and how it is to be managed.
4. The contractor shall provide a copy of the SOP to the person designated by the mine owner who shall be supervising the contractor's work.
5. Keep an up to date SOP and provide a copy of changes to a person designated by the Mine Owner /Agent /Manager.
6. Contractor has to ensure that all work is carried out in accordance with the Statute and SOP and for the purpose he may deploy adequate qualified and competent personnel for the purpose of carrying out the job in a safe manner. For work of a specified scope/nature, he should develop and provide to the mine owner a site specific code of practice in line.
7. All persons deployed by the contractor for working in a mine must undergo Mines Vocational Training, initial medical examination, PME. They should be issued cards stating the name of the contractor and the work and its validity period, indicating status of MVT, IME & PME.
8. The contractor shall submit to DGMS returns indicating - Name of his firm, Registration number, Name and address of person heading the firm, Nature of work, type of deployment of work persons, Number of work persons deployed, how many work persons hold VT Certificate, how many work persons undergone IME and type of medical coverage given to the work persons.
9. The return shall be submitted quarterly (by 10th of April, July, October & January) for contracts of more than one year. However, for contracts of less than one year, returns shall be submitted monthly.
10. It will be entirely the responsibility of the Contractor/his Supervisor/representative to ensure strict adherence to all HSE measures and statutory rules during operation in

OIL's installations and safety of workers engaged by him. The crew members will not refuse to follow any instruction given by company's Installation Manager / Safety Officer / Engineer / Official / Supervisor/Junior Engineer for safe operation.

11. Any compensation arising out of the job carried out by the Contractor whether related to pollution, Safety or Health will be paid by the contractor only.

12. Any compensation arising due to accident of the Contractor's personnel while carrying out the job, will be payable by the contractor.

13. The contractor shall have to report all incidents including near miss to Installation Manager / departmental representative of the concerned department of OIL.

14. The contractor has to keep a register of the persons employed by him/her. The contractor's supervisor shall take and maintain attendance of his men every day for the work, punctually.

15. If the company arranges any safety class / training for the working personnel at site (company employee, contractor worker, etc) the contractor will not have any objection to any such training.

16. The health check up of contractor's personnel is to be done by the contractor in authorized Health Centers as per OIL's requirement & proof of such test(s) is to be submitted to OIL. The frequency of periodic medical examinations should be every five years for the employees below 45 years of age and every three years for employees of 45 years of age and above.

17. To arrange daily tool box meeting and regular site safety meetings and maintain records.

18. Records of daily attendance, accident report etc. are to be maintained in Form B, E, J (as per Mines Rules 1955) by the contractor.

19. A contractor employee must, while at work, take reasonable care for the health and safety of people who are at the employee's place of work and who may be affected by the employee's act or omissions at work.

20. A contractor employee must, while at work, cooperate with his or her employer or other persons so far as is necessary to enable compliance with any requirement under the act or the regulations that is imposed in the interest of health, safety and welfare of the employee or any other person.

21. Contractor's arrangements for health and safety management shall be consistent with those for the mine owner.

22. In case Contractor is found non-compliant of HSE laws as required company will have the right for directing the contractor to take action to comply with the requirements, and for further non-compliance, the contractor will be penalized prevailing relevant Acts/Rules/Regulations.

23. When there is a significant risk to health, environment or safety of a person or place arising because of a non-compliance of HSE Measures Company will have the right to direct the contractor to cease work until the non-compliance is corrected.

24. The contractor should prevent the frequent change of his contractual employees as far as practicable.

25. The contractor should frame a mutually agreed bridging document between OIL & the contractor with roles and responsibilities clearly defined.

26. For any HSE matters not specified in the contract document, the contractor will abide the relevant and prevailing Acts/rules/regulations/ pertaining to Health, Safety and Environment.

CASE STUDY

In OIL's operational area well fluid from different wells within a radius of four/ five kilometers are led to a central production installation (say Inst-A), through individual pipe lines called flow lines. The installation is equipped with various facilities to enable separation of well fluid stream into oil, gas and water. Given below are the basic data of such an operational area.

Distance of Installation (Inst-A, B) from Duliajan:	30 KM
Present Crude Oil Production:	200 KLPD
Present Water Production:	450 KLPD
No of Producing Wells:	9 Nos. [8 Nos. Oil Well (3 nos. on Self Flow, 5 nos. on Gas Lift), 1 Gas Well]
No of Water Disposal Wells:	4 Nos
No of Shut In Wells:	8 Nos.
Total Associated Gas Production:	110000 SCMD (HP:40000; LP:70000)
NAG Production:	150000 SCMD
Liquid Production from NAG Well:	40 KLPD

Generally, in an installation based on the nature and pressure of producing wells, the wells are connected either to high-pressure dry, high-pressure wet or low-pressure dry or low-pressure wet manifolds. The oil and gas mixture is then subsequently heated in indirect heater or steam jackets prior to routing them through a series of separators. Oil and gas separation is carried out in multiple stages. The gas produced in separators above 250 psi (HP) is collected separately and is allowed to join the gas distribution network. The gas produced in low-pressure (LP) separators is collected in LP Master Separators and is transported to nearby Gas Compressor Station for further boosting to 250 psi and connected to distribution network. Fluid from wells producing water along with oil is processed separately in three phase separators and Emulsion Treaters, where free water and water in Emulsion are knocked out by thermochemical method. Oil thus produced in the dry and wet systems is allowed to stabilize in the stabilizer vessel before it is put into storage tanks of the Crude Oil Processing Station for onward dispatch to central tank farm through crude oil delivery lines. The separated water, after treatment, is disposed to the water disposal wells.

For our case study it may be noted that Well Head Tubing & Casing Pressures are recorded on daily basis at each well. On fortnightly basis the wells are tested for flow rate at the Inst-A to ascertain the productivity of the wells and samples are collected from well heads. Well samples are also collected weekly from wellhead for chemical analysis in order to evaluate certain parameters like oil content, water content, salinity of water, API gravity, etc. Shut-in wells are also monitored for pressure, leakage, damage, safety, etc. on a monthly basis. Water disposal wells are monitored for injectivity as and when required.

The Non-Associated Gas (NAG) well is produced through Indirect Water Bath Heater (IWBH) and separator in a nearby gas production installation (say Inst-B). In Inst-B, the well is connected to the IWBH for heating the well fluid before expansion and then passed through separator for separation of liquid & gas. The liquid (mixture of water & condensate) is sent to Inst-A. The gas is sent to nearby gas distribution network.

SCHEMATIC VIEW OF CASE STUDY

This oil field is located in an area with poor cellular coverage where no utility power is available at individual unmanned well sites. Some of the other problems which call for regular monitoring & maintenance of the wells, flowlines, artery lines as well as delivery line are:

- Paraffination in the wells: detected by symptoms like decreased production; addressed by scraping, hot oil circulation, chemical treatment, etc.
- Flowline gelling because of wax deposition especially during winter: detected by symptoms like decreased production, increased flow-arm pressure; addressed by mobile steam generators, installation of indirect heaters at strategic locations, chemical treatment, etc.

Delivery line gelling because of wax deposition: detected by increase Crude Oil Dispatch Pump pressure; addressed by periodic pigging, hot oil pumping, mobile steam generators, installation of indirect heaters at strategic locations, chemical treatment, etc

- Frequent miscreant activity like cutting of flowlines/ gas artery lines/ delivery line etc.: detected by symptoms like decreased production, decreased pressure at installation, decreased Crude Oil Dispatch Pump pressure, spillage, etc.; addressed by repair
- Gas hydrate problems in NAG well flow line, Gas Artery lines: detected by symptoms like decreased production, ice formation on the line etc; addressed by heating, venting (release of pressure) etc.

Bidder's response on the above case:

What kind of digital solution would you suggest to overcome the problems of late/manual detection of symptoms and monitoring of essential parameters to manage the field in a better way so that the overall productivity and safety are enhanced? The solution should address the problems listed in the case study in a systematic manner, taking into consideration the remoteness of the area and should also be complete with suggested IoT equipment, other hardware and software along with network architecture and power solution to enable quick decision-making.
