COMMON NOTE:

As per OISD recommendation pigging of crude oil and product pipeline need to be carried out quarterly, moreover from PS1 to PS4 pigging is being carried out fortnightly for operational requirement. Earlier pig and its accessories was procured through PLM as non stock materials but in recent years due to the operational requirement large amount of pigs, cups and disc were used by the operation more frequently, as a maintenance section it is not practicable to purchase large amount of pig related materials every year and disburse them to the different pump

stations for end use although pipeline has its own material section. Hence it was decided to maintain stock for the pig and its accessories as stock item and subsequently concerned station will be utilize the materials from stock only.

Purchase history of the pig and its accessories from 2008 to 2014 are given below, which was procured by PLM through material section but was used by the operation mainly:

1. 14" BIDI pig- 15 nos.
2. 16" BIDI pig- 15 nos.
