BID EVALUATION CRITERIA (BEC) / BID REJECTION CRITERIA (BRC)

The bids shall conform to the specifications and terms & conditions given in the Tender. Bids shall be rejected in case the items offered do not conform to the required parameters stipulated in the technical specifications and to the relevant international/national standards wherever stipulated. Notwithstanding the general conformity of the bids to the stipulated specifications and terms & conditions, the following requirements must be particularly met by the bidders, without which the offer shall be considered as non-responsive and rejected:

BID REJECTION CRITERIA (BRC):

Vital criteria for acceptance of bids: -

The following vital conditions should be strictly complied with failing which the bid will be rejected:

A.1 Technical: Bid should conform to the scope of work stipulated in tender documents. Non-conforming bids shall not be considered and may be rejected.

A.2 Commercial:

A.2.1 Bid complete in all aspects should be submitted digitally signed by the authorised signatory of the bid failing which bid will be rejected.

A.2.2 Duly filled price format and acceptance to scope of work are to be submitted through OIL'S E-Procurement portal only before the scheduled date and time for the tender closing. The documents are to be digitally signed by the authorized signatory.

A.2.3 The Priced bid shall contain only the prices duly filled in the price format of OIL's e-procurement engine. Filled in price format should be uploaded in the e-bid by bidders at "Notes and Price bid attachment". The online price field in SRM item data may be left blank. Prices if any filled in the online price field in SRM portal shall not be given any cognizance.

A.2.4 Offers of following kinds will also be rejected:

- (a) Offers not submitted in e-form through OIL's e-procurement engine.*
- (b) Offers which do not confirm unconditional validity of the bid, for 60 days from the date of opening of bid.*
- (c) Offers where the prices are not firm and / or with any qualifications.*
- (d) Offers which do not conform to OIL's price bid format.*
- (e) Offers and all attached documents not digitally signed using digital signatures issued by an acceptable Certifying Authority (CA) as per Indian IT Act 2000 by the person as per power of attorney submitted.*

B. Evaluation methodology:

*B.1 Price Evaluation criteria: - Evaluation shall be carried out on item wise L1 basis (i.e., each item shall be evaluated separately) and individual Letter of Award (LOAs) shall be issued against each item mentioning individual **Reference Contract No.** as mentioned against each item.*

B.2 PURCHASE PREFERENCE TO MICRO AND SMALL ENTERPRISES:

Bidders to note that Govt. of India under Micro, Small and Medium Enterprises Development (MSMED) Act 2006, has proclaimed the Public Procurement Policy, 2012 with effect from 1st April 2012 in respect of procurement of goods and services, produced and provided by micro and small enterprises, by its Ministries, Departments and Public Sector Undertakings for promotion and development of Micro and Small Enterprises. Policy for procurement of goods from Micro and Small Enterprises (MSE) including Amendments is applicable. Bidders are requested to take note of the same and to submit their offers accordingly.

i) Categorisation and various criteria applicable to MSE bidders shall be guided by the Gazette notification no. CG-DL-E-26062020-220191 dated 26.06.2020 issued by Ministry of Micro, Small and Medium Enterprises.

ii) The bidder claiming as MSE status (MSE-General, MSE-SC/ST, MSE - Woman) against this tender has to submit following documents for availing the benefits applicable to MSEs:

a). Udyam Registration No. with Udyam Registration certificate

Note: In case bidding MSE is owned by Schedule Caste or Schedule Tribe entrepreneur, valid documentary evidence issued by the agency who has registered the bidder as MSE owned by SC/ ST entrepreneur/ Woman Entrepreneurs should also be enclosed.

iii) For availing benefits of Purchase Preference under Public Procurement Policy, the interested MSE Bidders must ensure that they are registered with the appropriate authority for the said service(s). The technical offer of such MSE Bidders must include a valid copy of relevant MSE Certificate issued by appropriate authority specifying the service as per tender. Purchase Preference of 15% (fifteen percent) shall be extended to the eligible MSE Bidder over non-MSE L1 Bidder and PO shall be awarded for full tender quantity on such MSE bidder, subject to matching their quoted rates/costs with non-MSE L1 Bidder.

*B.3. **Payment Terms:** 100% payment will be made only after submission of Inspection report in totality for the lot wise order quantities of OIL's Purchase order on its supplier as per SOW.*

C. *General*

C.1. Discount: Bidders are advised not to indicate any separate discount. Discount, if any, should be merged with the quoted prices. Discount of any type indicated separately will not be considered for evaluation purpose. However, in the event such offer without considering discount is found to be lowest, Corporation shall avail of such discount at the time of award of contract.

C.2. Other terms and conditions of the tender shall be as per General conditions of Contract (GCC). However, if any of the Clauses of the Bid Rejection Criteria / Bid Evaluation Criteria (BEC / BRC) mentioned here contradict the Clauses in the General conditions of Contract (GCC) of the tender and/or elsewhere, those mentioned in this BEC / BRC shall prevail.

D. GENERAL NOTES FOR CASING:

1.0 SPECIFICATIONS:

1.1 Casings/short nipples/change nipples/ couplings must be manufactured as per API Spec.5CT, latest edition and must bear API monogram. A copy of valid API Spec. 5CT certificate from the manufacturer shall be submitted along with the supplied items.

1.2 Casings /short nipples/change nipples/couplings shall be brand new, unused, and of prime quality.

1.3 Casing short nipples/change nipples shall be seamless, threaded and fitted with power tightened couplings as per API Spec. 5CT (Latest Edition).

1.4 Couplings: Couplings shall be as specified in API Spec.5CT (latest edition) and must be manufactured by API approved mills.

1.5 Coating: Coating shall be done as per API Spec. 5CT (latest edition) and adequately oiled to withstand sea voyage.

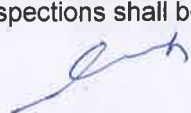

1.6 Pipe Ends: Ends must be prepared as per relevant API specifications including clear triangle mark in case of Buttress thread. Suitable pressed steel thread protectors at both ends as specified in API 5CT (latest edition) shall be used to protect the ends.

Note: Elastomer-cum-Metallic (Composite) thread protectors for pin and box end of the casing should be extra strong, closed end & of Drilltech make or it's suitable equivalent. The protector should be designed in such a way that it covers the full length of casing threads as well as casing coupling threads. It should have steel shell and elastomer to reduce impact design, to stop corrosion, to eliminate stripping and to keep thread compound active.

1.7 The various performance properties of the offered product viz. collapse resistance, internal yield pressure, pipe body yield strength & joint strength (these properties should not be less than those stipulated by API, BUL 5C2, latest edition in any case.)

2.0 MILL INSPECTION, TESTING & CERTIFICATION:

2.1 The following tests and inspections shall be carried out as per API Spec. 5CT (latest
