Works Contract

DESCRIPTION OF WORK/SERVICES: - Re-grading and repairing of the existing asphalted road from DBY-NHK Road junction to Kathalguri-Nagajan Road Junction with WBM and SDBC layers in Nagajan Field Area in Tinsukia District (Approximate length = 3.50Km) including supply of all materials, tools and equipments.

GENERAL CONDITIONS OF CONTRACT (GCC)

MEMORANDUM OF AGREEMENT made this _____ day of _____ Between OIL INDIA LIMITED a Company incorporated under the Companies Act 1956 and having its Registered Office at Duliajan in the District of Dibrugarh, Assam (hereinafter called Company) of the one part and Shri/Smti _____ and Shri/Smti _____ carrying on business as partners /proprietor under the firm name and style of M/s. _____ with the main Office at _____ in the District of _____ aforesaid (hereinafter called 'Contractor') on the other part.

WITNESSETH:

1. a) The contractor hereby agrees to carry out the work set down in the Schedule of work which forms part-II of this Contract in accordance with the 1968 General Conditions of Contract of Oil India Limited and General Specifications read in conjunction with any drawings and Particular Specifications & instructions which forms Part-III of the contract utilizing any materials/services as offered by the Company as per Part-IV of the contract at _____ .

b) In this Contract all words and expressions shall have the same meaning as are respectively assigned to them in the 1968 General Conditions of Contract of Oil India Limited which the Contractor has perused and is fully conversant with before entering into this Contract.

c) The clauses of this contract and of the specifications set out hereunder shall be paramount and in the event of anything herein contained being inconsistent with any term or terms of the 1968 General Conditions of Contract of Oil India Limited, the said term or terms of the 1968 General conditions of Contract to the extent of such inconsistency, and no further, shall not be binding on the parties hereto.

2. The contractor shall provide all labour, supervision and transport and such specified materials described in part-II of the Contract including tools and plants as necessary for the work and shall be responsible for all royalties and other levies and

his rates shall include for these. The work executed and materials supplied shall be to the satisfaction of the Company's Engineer and Contractor's rates shall include for all incidental and contingent work which although not specifically mentioned in this contract are necessary for its completion in a sound and workman like manner.

3. The Company's Engineer shall have power to:

a) Reduce the rates at which payments shall be made if the quality of work although acceptable is not up to the required standard set forth in the OIL Standard Specifications which have been perused and fully understood by the Contractor.

b) Order the Contractor to remove any inferior material from the site and to demolish or rectify any work of inferior workmanship, failing which the Company's Engineer may arrange for any such work to be demolished or rectified by any other means at the Contractor's expenses.

c) Order the Contractor to remove or replace any workman who he (The Engineer) considers incompetent or unsuitable; the Engineer's opinion as to the competence and suitability of any workman engaged by the Contractor shall be final and binding on the Contractor.

d) Issue to the Contractor from time to time during the progress of the work such further drawings and instructions as shall be necessary for the purpose of proper and adequate execution and maintenance of the works and the Contractor shall carry out and be bound by the same.

e) Order deviations in Part II and III of this Contract. All such deviation orders shall be in writing and shall show the financial effect, if any, of such deviation and whether any extra time is to be allowed. The rates to be applied for such Deviation Order shall be the same for those appearing in Company's Schedule of Rate in force on the date of issue of such Deviation Order, to which the contractor has no objection.

4. The Contractor shall have no claim against the company in respect of any work which may be withdrawn but only for work actually completed under this contract. The contractor shall have no objection to carry out work in excess of the quantities stipulated in Part-II. During the actual execution of the contract, if any, additional items (deviation items) are required, which are not covered in the tender, payment of such items shall be made at the current OIL schedule of rate. In case of positive variation in quantity of any items for the quantity mentioned in the schedule of work during the actual execution of work, the contractor will have to carry out the positive varied quantity at the contract rate, or internally estimated rate whichever is lower.

5. The Company reserves the right to cancel this Contract at any time upon full payment of work done and the value of the materials collected by the contractor for permanent incorporation in the work under this contract particularly for execution of this contract up to the date of cancellation of the Contract. The valuation of the work done and the materials collected shall be estimated by the company's Engineer in presence of the contractor. The Contractor shall have no claim to any further payment whatsoever. The valuation would be carried out exparte if Contractor fails to turn up despite reasonable notice which will be binding on the Contractor.

6. The Contractor hereby undertakes to indemnify the Company against all claims which may arise under the under noted Acts:-

- I. The Mines Act.
- II. The Minimum Wages Act, 1948.
- III. The Workman's Compensation Act, 1923.
- IV. The Payment of wages Act, 1963.
- V. The Payment of Bonus Act, 1965.
- VI. The Contract Labour (Regulation & Abolition) Act, 1970 and the rules framed there under.
- VII. Employees' Pension Scheme, 1995.
- VIII. Inter-State Migrant (Regulation of Employment and Condition of Service) Act. 1979.
- IX. The Employees Provident Fund and Miscellaneous Provisions Act, 1952.
- X. VAT Act.
- XI. Service Tax Act.

or any other Acts or Statute not here in above specifically mentioned having bearing over engagement of workers directly or indirectly for execution of work. The Contractor shall not make the Company liable to reimburse the Contractor for the statutory increase in the wage rates of the Contract Labour appointed by the Contractor. Such Statutory increase in the wage rates of Contract Labour shall be borne by the contractor.

7. The Contractor shall clear away all rubbish and surplus material from the site on completion of work and shall leave the site clean and tidy.

8. The Contractor must complete the work within 16 weeks of the written order to commence work. During the currency of the job, the work progress must be commensurate with the time elapsed. In the event of any delay on the contractor's part, he/she will be liable to pay to the company liquidated damages at the rate of 1/2% (Half p.c) per week of the contract price of the item(s) delayed in completion and the maximum value of the liquidated damage will be 7.5% of the contract price of the item(s) delayed provided the item(s) delayed are not critical for commissioning and final utilization of the work. If, however, the item(s) delayed in completion are critical for commissioning and final utilisation of the work then the contractor will be liable to pay liquidated damages by way of penalty at the rate of 1/2% (Half percent) per week of delay of the total contract cost subject to a maximum of 7.5% of total contract cost.

The Chief Engineer's certificate as to the criticality or otherwise of an item shall be final.

The payment of liquidated damages/penalty may be reduced or waived at the sole discretion of the Company whose decision in this regard will be final.

DULIAJAN (ASSAM)
WORKS CONTRACT**

Particular Specifications and Instructions:

DESCRIPTION OF WORK/SERVICES: Re-grading and repairing of the existing asphalted road from DBY-NHK Road junction to Kathalguri-Nagajan Road Junction with WBM and SDBC layers in Nagajan Field Area in Tinsukia District (Approximate length = 3.50Km) including supply of all materials, tools and equipments.

1.0 General specification:

a) All dirt, dust, rubbish, tree leaves etc. must be removed from the road surface before any portion of the road surface can be scarified.

b) After the above operation, the road surface shall be scarified by a heavy Road Roller to a sufficient depth to loosen the top surface layer of gravel. The road surface shall then be graded to the correct camber by using proper templates. Hard & clean river gravel passing a 65mm aperture square mesh screen and retained on a 25mm square mesh screen shall then be added, whenever necessary as per the directions of the Engineer to make up any deficiency & lightly rolled to the required camber. Granular materials in the case of granular base to be used.

c) The road shall then be heavily rolled with an 8 to 10 Ton roller to the correct camber by issuing a little fine gravel here & there whenever necessary as instructed by Engineer while a thin layer of dry earth is laid upon & watered in to the new surface. The surface is then to be wet rolled with plenty of water being spread over the surface, always taking care to see that the roller are to be kept clean so that the rolled gravel / granular materials is not peeled off by the roller.

d) Finally sand-shingle/stone dust shall be evenly spread upon the surface of the road to an average thickness of 25mm to 40mm & rolling continued until a hard surface is obtained. After a few days the road surface shall be lightly sprayed with water and the whole road surface shall be re-rolled before the road surface becomes absolutely hard & completely fit for vehicular traffic.

2.0 SPECIFICATION 'B' -Construction of WBM wearing course, PREPARATION OF BASE:

The sub-grade/sub-base to receive the WBM course shall be prepared to the specified grade & camber & made free of dust and other extraneous material. Any ruts or soft yielding places shall be corrected in an approved manner and rolled until firm. Where WBM is to be laid over & existing bituminous surface, 50mm x 50mm

furrows shall be cut at an angle of 45 degrees to the centre line of the road of 1 metre intervals before laying the coarse aggregate.

a) CAMBER: - The recommended camber or cross slope of bituminous surface is 1 in 48 to 1 in 60.

b) MATERIALS:-

(i) Coarse Aggregate:- Coarse aggregates shall be either crushed boulder or broken stone and should be hard and durable and free from excess of flat, elongated, soft and integrated particles and dirt.

(ii) Screening Materials:- Screening materials to be used to fill up voids in the coarse aggregate.

(iii) Binding Materials:- Binding materials to be used for WBM construction shall comprise of a suitable material such as stone dust or loamy earth approved by the Engineer-in-charge having plasticity index value of less than 6. Application of binding material may not be necessary when the screenings used are of crushable type such as moorum or gravel.

c) CONSTRUCTION OPERATION OF WBM:

(i) Spreading and rolling of coarse aggregate:- After preparation of sub-grade/ sub-base in a proper camber the coarse aggregate shall be spread uniformly over the prepared surface in compacted layer not more than 100mm at a time. In case of thickness more than 100mm, the same shall be compacted in two layers. Immediately following the spreading of the coarse aggregate, rolling shall be started with three-wheeled power roller of 6 to 10 tonne capacity as per direction of the Engineer. On super-elevated portion where the rolling shall proceed from inner edge to the outer. Rolling shall being from the edges gradually progressing towards the centre. First the edge/edges shall be compacted with roller running forward and backward. The roller shall move inwards parallel to the centre line of the road, in successive passes uniformly lapping proceeding tracks by at least one half widths.

Rolling shall be discontinued when the aggregates are partially compacted with sufficient void in them to permit application of screenings. During rolling slight sprinkling of water may be done, if necessary. Rolling shall not be done when the sub-grade is soft or yielding or when it cause a wave like motion in the sub-grade or sub-base course.

The rolled surface shall be checked transversely and longitudinally with templates and any irregularities by loosening the surface, adding or removing necessary amounts of aggregate and re-rolling until the entire surface conforms to desired camber and grade. In no case shall the use of screening be permitted to make up depressions.

(ii) Application of screenings:-After the coarse aggregate has been rolled screening materials shall be used to completely fill the interstices. These shall not be damp or wet at the time of application. Dry rolling shall be done while the screenings are being spread so that vibration of the roller causes them to settle in to the voids of the coarse aggregate. The screening shall be spread uniformly in successive thin layers either by the spreading motion of hand sheevel or by mechanical spreaders. The screening shall be applied at a slow and uniform rate (in three or more application) so as to

ensure filling of all voids. This shall be accompanied by dry rolling and brooming with mechanical brooms, hand brooms or both. In no case shall the screenings be applied as fast and thick as to form cakes or ridges on the surface in such a manner as would prevent filling of voids or prevent the direct bearing of the roller on the coarse aggregate. These operations shall continue until no more screenings can be forced into the voids of the coarse aggregate. The screening, rolling and brooming of the screenings shall be carried out in only such lengths of the road which could be completed within one day's operation.

(iii) Sprinkling & grouting:- After the screenings have been applied, the surface shall be copiously sprinkled with water, swept and rolled. Hand brooms shall be used to sweep the wet screening into voids and to distribute them evenly. The sprinkling, sweeping and rolling operations shall be continued, with additional screenings applied as necessary, until the coarse aggregate has been thoroughly keyed, well bonded and firmly set in its full depth and a grout has been formed of screenings.

(iv) Application of Binding Materials:- After the application of screenings the binding materials shall be applied successively in two or more thin layers at a slow and uniform rate. After each application, the surface shall be copiously sprinkled with water, the resulting slurry swept in with hand brooms, or mechanical brooms to fill the voids properly and rolled during which water shall be applied to the wheels of the roller if necessary to wash down the binding material sticking to them. These operations shall continue until the resulting slurry after filling of voids, forms a ware ahead of the wheels of the moving roller.

(iv) Setting & drying:- After the final compaction of WBM course, the shall be allowed to dry overnight. Next day hungry spots shall be filled with screenings or binding materials as directed, lightly sprinkled with water if necessary and roller.

3.0 CONSTRUCTION OF 25 MM THICK SEMI DENSE BITUMINOUS CONCRETE: This work shall consist of construction in a single or multiple layers of semi dense bituminous concrete on a previously prepared surface. A single layer shall be 25mm to 100 mm in thickness. This job shall have to be carried out as per the procedure as spelt out in the Ministry of Road Transport & Highways Specifications for Road and Bridge Works Clause No.508.

4.0: Cost of all the materials supplied by contractor are including cost of testing of materials at site and laboratory as directed by Engineer In charge.

5. Special Note and instructions:

a. **SITE CLEARANCE:** Felling of trees, uprooting tree stumps as and when required, jungle cutting, dressing & levelling up to the required depth before starting of the job and removal of all debris from the site after completion.

b. **MEASUREMENT & PAYMENT:** Payment for all works done shall be made on the basis of actual work done at site and as per the schedule of rates. For all extra work done on the advice of the Company's Engineer and which is not included in the

schedule of rates, deviation order for the same shall be made on the rates as decided by the Company's Engineer.

c. SAFETY MEASURE: Safety measure as per OIL regulations shall be strictly adhered to by the Contractor. Safety belts and other measure taken by the Contractors shall be borne by the Contractor. If any loss or damage caused to life during the erection and execution, the contractor shall be fully responsible for the loss.

d. Silt Filling/ Land Development: Silt filling shall be done in layers not exceeding 150mm thick, consolidating each layer by ramming and rolling by road roller in required gradient (1:100) as directed by the Engineer-In-Charge. The measurement for siltfilling work shall be taken as per contour i.e. initial level of the ground shall be taken before carrying out the siltfilling work and final level shall be taken after completion of siltfilling work with full consolidation. The difference of the level shall be taken as depth of filling for calculating total volume of earth work.

e. Granular Sub-base: Specification should be followed as per OIL Schedule of Rates.

f. Gravelleing: Specification should be followed as per OIL Schedule of Rates.

g. W.B.M.:- Specification should be followed as per OIL Schedule of Rates.

6.0 SPECIAL CONDITION:-

(i) All safety precautions should be taken by the Contractor during execution of the work.

(ii) The Contractor shall use pump if needed for dewatering of while excavation for which no extra payment will be made.

(iii) The Contractor shall have to work on rainy seasons also.

(iv) Watch and ward, loss or damage to Company's property theft and other incidental charges shall be Contractor's responsibility.

(v) Efficient workmen to be engaged by the Contractor.

(vi) The Contractor's representative should report to Engineer-in-charge on all working day's at 7.00AM and 9.00AM for instruction.

(vii) Materials if rejected should be removed from site within 48(forty eight) hours of rejection, failing which the company reserves the right to get the rejected materials removed at the risk and cost of the contractor.

(viii) The Company reserves the right to get the part or whole work completed at the risk and cost of the contractor if he fails to complete the work within the stipulated time without any valid reasons. The Company's decision shall be final and binding on the Contractor.

(ix) The Contractor shall obtain labour clearance within seven day's of signing the contract.

(x) Water that may accumulate on the site during progress of the works or in trenches and excavation from other than accepted risks shall be removed from the site to entire satisfaction of the Engineer-in –charge and at the Contractor's expense.

(xi) The Contractor and his workmen have to strictly observe the safety precautionary rules as per Mines act. (Latest edition) while executing the work.

(xii) No road closure will be allowed during execution of work and necessary traffic signal/road boards to be displayed at proper at proper place by the Contractor at his own cost. The Contractor shall be wholly responsible for any accident arising out of non-fulfilment of this condition.

(xiii) The Contractor will be required to work expeditiously at the site and must see the site before tendering.

7.0 The Company's Internal Estimated Rates, as indicated in Part-II, are exclusive of P.F.

8.0 Bidder(s) should clearly understand these criteria before submission of the bid and in case of any doubt he / she / they may seek clarification from Engineer – in charge, Civil Engineering department, in advance, before submitting the bid.

FOR & ON BEHALF OF CONTRACTOR

INTEGRITY PACT

Between
Oil India Limited (OIL) hereinafter referred to as "The Principal"
And
(Name of the bidder).....hereinafter referred to as
"The Bidder/Contractor"

Preamble:

The Principal intends to award, under laid down organizational procedures, contract/s for **Re-grading and repairing of the existing asphalted road from DBY-NHK Road junction to Kathalguri-Nagajan Road Junction with WBM and SDBC layers in Nagajan Field Area in Tinsukia District (Approximate length = 3.50Km) including supply of all materials, tools and equipments** The Principal values full compliance with all relevant laws and regulations, and the principles of economic use of resources, and of fairness and transparency in its relations with its Bidder/s and Contractor/s.

In order to achieve these goals, the Principal cooperates with the renowned international Non-Governmental Organisation "Transparency International" (TI). Following TI's national and international experience, the Principal will appoint an external independent Monitor who will monitor the tender process and the execution of the contract for compliance with the principles mentioned above.

Section 1 - Commitments of the Principal

(1) The Principal commits itself to take all measures necessary to prevent Corruption and to observe the following principles:-

- I. No employee of the Principal, personally or through family members, will in connection with the tender for, or the execution of a contract, demand, take a promise for or accept, for him/herself or third person, any material or immaterial benefit which he/she is not legally entitled to.
- II. The Principal will, during the tender process treat all Bidders with equity and reason. The Principal will in particular, before and during the tender process, provide to all Bidders the same information and will not provide to any Bidder confidential/ additional information through which the Bidder could obtain an advantage in relation to the tender process or the contract execution.
- III. The Principal will exclude from the process all known prejudiced persons.

- (2) If the Principal obtains information on the conduct of any of its employees which is a criminal offence under the relevant Anti-Corruption Laws of India, or if there be a substantive suspicion in this regard, the Principal will inform its Vigilance Office and in addition can initiate disciplinary actions.

Section 2 - Commitments of the Bidder/Contractor

- (1) The Bidder/Contractor commits itself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the tender process and during the contract execution.
- I. The Bidder/Contractor will not, directly or through any other person or firm, offer, promise or give to any of the Principal's employees involved in the tender process or the execution of the contract or to any third person any material or immaterial benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the tender process or during the execution of the contract.
- ii. The Bidder/Contractor will not enter with other Bidders into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to introduce cartelisation in the bidding process.
- iii. The Bidder/Contractor will not commit any offence under the relevant anticorruption Laws of India; further the Bidder/Contractor will not use improperly, for purposes of competition or personal gain, or pass on to others, any information or document provided by the Principal as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.
- iv. The Bidder/Contractor will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the contract.
- (2) The Bidder/Contractor will not instigate third persons to commit offences outlined above or be an accessory to such offences.

Section 3 - Disqualification from tender process and exclusion from future Contracts

If the Bidder, before contract award has committed a transgression through a violation of Section 2 or in any other form such as to put his reliability or risibility as Bidder into question, the Principal is entitled to disqualify the Bidder from the tender process or to terminate the contract, if already signed, for such reason.

1. If the Bidder/Contractor has committed a transgression through a violation of Section 2 such as to put his reliability or credibility into question, the Principal is entitled also to exclude the Bidder/Contractor from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, in particular the number of transgressions, the position of the transgressions within the company hierarchy of the Bidder and the amount of the damage. The exclusion will be imposed for a minimum of 6 months and maximum of 3 years.
2. The Bidder accepts and undertakes to respect and uphold the Principal's Absolute right to resort to and impose such exclusion and further accepts and undertakes not to challenge or question such exclusion on any ground, including the lack of any hearing before the decision to resort to such exclusion is taken. This undertaking is given freely and after obtaining independent legal advice.
3. If the Bidder/Contractor can prove that he has restored/recouped the Damage caused by him and has installed a suitable corruption prevention system, the Principal may revoke the exclusion prematurely.
4. A transgression is considered to have occurred if in light of available evidence no reasonable doubt is possible.

Section 4 - Compensation for Damages

1. If the Principal has disqualified the Bidder from the tender process prior to the award according to Section 3, the Principal is entitled to demand and recover from the Bidder liquidated damages equivalent to 3 % of the value of the offer or the amount equivalent to Earnest Money Deposit/Bid Security, whichever is higher.
2. If the Principal has terminated the contract according to Section 3, or if the Principal is entitled to terminate the contract according to section 3, the Principal shall be entitled to demand and recover from the Contractor liquidated damages equivalent to 5% of the

contract value or the amount equivalent to Security Deposit/Performance Bank Guarantee, whichever is higher.

3. The bidder agrees and undertakes to pay the said amounts without protest or demur subject only to condition that if the Bidder/Contractor can prove and establish that the exclusion of the Bidder from the tender process or the termination of the contract after the contract award has caused no damage or less damage than the amount or the liquidated damages, the Bidder/Contractor shall compensate the Principal only to the extent of the damage in the amount proved.

Section 5 - Previous transgression

1. The Bidder declares that no previous transgression occurred in the last 3 years with any other Company in any country conforming to the TI approach or with any other Public Sector Enterprise in India that could justify his exclusion from the tender process.
2. If the Bidder makes incorrect statement on this subject, he can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

Section 6 - Equal treatment of all Bidders/Contractor/Subcontractors

1. The Bidder/Contractor undertakes to demand from all subcontractors a commitment in conformity with this Integrity Pact, and to submit it to the Principal before contract signing.
2. The Principal will enter into agreements with identical conditions as this one with all Bidders, Contractors and Subcontractors.
3. The Principal will disqualify from the tender process all bidders who do not sign this Pact or violate its provisions.

Section 7 - Criminal charges against violating Bidders/Contractors/ Subcontractors

If the Principal obtains knowledge of conduct of a Bidder, Contractor or Subcontractor, or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor, which constitutes corruption, or if the Principal has substantive suspicion in this regard, the Principal will inform the Vigilance Office.

**Section 8 - External Independent Monitor/Monitors
(three in number depending on the size of the contract)
(to be decided by the Chairperson of the Principal)**

1. The Principal appoints competent and credible external independent Monitor for this Pact. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.
2. The Monitor is not subject to instructions by the representatives of the parties and performs his functions neutrally and independently. He reports to the Chairperson of the Board of the Principal.
3. The Contractor accepts that the Monitor has the right to access without restriction to all Project documentation of the Principal including that provided by the Contractor. The Contractor will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor is under contractual obligation to treat the information and documents of the Bidder/Contractor/Subcontractor with confidentiality.
4. The Principal will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the Principal and the Contractor. The parties offer to the Monitor the option to participate in such meetings.
5. As soon as the Monitor notices, or believes to notice, a violation of this agreement, he will so inform the Management of the Principal and request the Management to discontinue or heal the violation, or to take other relevant action. The monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action.
6. The Monitor will submit a written report to the Chairperson of the Board of the Principal within 8 to 10 weeks from the date of reference or intimation to him by the 'Principal' and, should the occasion arise, submit proposals for correcting problematic situations.
7. If the Monitor has reported to the Chairperson of the Board a substantiated suspicion of an offence under relevant Anti-Corruption Laws of India, and the Chairperson has not, within reasonable time, taken visible action to proceed against such offence or reported it to the Vigilance Office, the Monitor may

also transmit this information directly to the Central Vigilance Commissioner, Government of India.

8. The word 'Monitor' would include both singular and plural.

Section 9 - Pact Duration

This Pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the respective contract, and for all other Bidders 6 months after the contract has been awarded.

If any claim is made/ lodged during this time, the same shall be binding and continue to be valid despite the lapse of this pact as specified above, unless it is discharged/determined by Chairperson of the Principal.

Section 10 - Other provisions

1. This agreement is subject to Indian Law. Place of performance and jurisdiction is the Registered Office of the Principal, i.e. New Delhi.
2. Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.
3. If the Contractor is a partnership or a consortium, this agreement must be, signed by all partners or consortium members.
4. Should one or several provisions of this agreement turn out to be invalid, the remainder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.
