1. a) The contractor hereby agrees to carry out the work set down in the Schedule of work which forms Part-II of this Contract in accordance with the 1968 General Conditions of Contract of Oil India Limited and General Specifications read in conjunction with any drawings and Particular Specifications & instructions which forms Part-III of the contract utilizing any materials/services as offered by the Company as per Part-IV of the contract at location _____.

b) In this Contract all words and expressions shall have the same meaning as are respectively assigned to them in the 1968 General Conditions of Contract of Oil India Limited which the Contractor has perused and is fully conversant with before entering into this Contract.

c) The clauses of this contract and of the specifications set out hereunder shall be paramount and in the event of anything herein contained being inconsistent with any term or terms of the 1968 General Conditions of Contract of Oil India Limited, the said term or terms of the 1968 General conditions of Contract to the extent of such inconsistency, and no further, shall not be binding on the parties hereto.

2. i) The contractor shall provide all labour, supervision and transport and such specified materials described in Part-II of the Contract including tools and plants as

necessary for the work and shall be responsible for all royalties and other levies and his rates shall include for these. The work executed and materials supplied shall be to the satisfaction of the Company's Engineer and Contractor's rates shall include for all incidental and contingent work which although not specifically mentioned in this contract are necessary for its completion in a sound and workman like manner.

ii) Contractor shall have to produce necessary cash memos towards forest produce used against the contract to Head (Civil) used against this contract from the authorities prior to processing of final payment. In absence of cash memos, the final bill shall not be processed.

3. The Company's Engineer shall have power to:

a) Reduce the rates at which payments shall be made if the quality of work although acceptable is not up to the required standard set forth in the OIL Standard Specifications which have been perused and fully understood by the Contractor.

b) Order the Contractor to remove any inferior material from the site and to demolish or rectify any work of inferior workmanship, failing which the Company's Engineer may arrange for any such work to be demolished or rectified by any other means at the Contractor's expenses.

c) Order the Contractor to remove or replace any workman who he (The Engineer) considers incompetent or unsuitable; the Engineer's opinion as to the competence and suitability of any workman engaged by the Contractor shall be final and binding on the Contractor.

d) Issue to the Contractor from time to time during the progress of the work such further drawings and instructions as shall be necessary for the purpose of proper and adequate execution and maintenance of the works and the Contractor shall carry out and be bound by the same.

e) Order deviations in Part II and III of this Contract. All such deviation orders shall be in writing and shall show the financial effect, if any, of such deviation and whether any extra time is to be allowed. The rates to be applied for such Deviation Order shall be the same for those appearing in Company's Schedule of Rate in force on the date of issue of such Deviation Order, to which the contractor has no objection.

4. The Contractor shall have no claim against the company in respect of any work which may be withdrawn but only for work actually completed under this contract. The contractor shall have no objection to carry out work in excess of the quantities stipulated in Part-II. During the actual execution of the contract, if any, additional items (deviation items) are required, which are not covered in the tender, payment of such items shall be made at the current OIL schedule of rate. In case of positive variation in quantity of any items for the quantity mentioned in the schedule of work during the actual execution of work, the contractor will have to carry out the positive varied quantity at the contract rate, or internally estimated rate, whichever is lower.

5. The Company reserves the right to cancel this Contract at any time upon full payment of work done and the value of the materials collected by the contractor for permanent incorporation in the work under this contract particularly for execution of this contract up to the date of cancellation of the Contract. The valuation of the

work done and the materials collected shall be estimated by the company's Engineer in presence of the contractor. The Contractor shall have no claim to any further payment whatsoever. The valuation would be carried out exparte if Contractor fails to turn up despite reasonable notice which will be binding on the Contractor.

6. The Contractor hereby undertakes to indemnify the Company against all claims which may arise under the under noted Acts:-

**OIL INDIA LIMITED
(A Govt. of India Enterprise)
DULIAJAN (ASSAM)**

WORKS CONTRACT

In case of any inconsistency with the other parts of the tender, the **Part III** will have precedence and will be considered paramount.

A. PARTICULAR SPECIFICATIONS AND INSTRUCTIONS:

Description of Work: Construction of RCC Box type Culvert (Double Cell) with Approach Roads on both sides including dismantling of existing damaged Bridge over rivulet Garumarajan on Digboi-Naharkatia Road in the district of Dibrugarh, Assam including supply of all materials & machineries except Cement.

(a) Quoted rate shall be for the entire complete work (except cement) inclusive of cost of all items incidental for such job in a standard manner as per relevant ISI and other standards.

(b) Contractors are advised to assess the actual requirement of cement for the works and confirm the estimated cement consumption.

(c) Cement shall be issued free of cost as per the actual requirement of the work. Any extra consumption over the projected quantity as mentioned above shall be borne by the contractor. However the company shall supply the additional quantity of cement and will be deducted from contractor's bill at double the cost of latest market rate.

(d) If the excess requirement is due to additional work then the proportionate quantity of cement shall be issued to the contractor by the company free of cost. Similarly, cement required for any rectification work arising out of inferior and erroneous/ faulty workmanship shall be supplied by the company to the contractor on chargeable basis as mentioned above.

B. SCOPE OF WORK:

1. Construction and commissioning of two nos. permanent RCC Box Cell Culvert with approach road on both sides including supply of all materials except Cement across the river at Garumarajan on Digboi-Duliajan road in the district of Dibrugarh, Assam at the indicated site, providing all labour, tools and plants, materials (except Cement) and supervision as necessary for the entire work.
2. The site of work is at Garumarajan on Digboi-Duliajan road. The bidder is advised to visit the site of work for assessment before submission of bid.
3. The carriage way of road is 7.50 m.

C.OTHER GENERAL SPECIFICATIONS OF WORKS/MATERIALS:

1. Site clearance: All debris and dismantled materials shall be removed from the site before execution of the work.

2. Earth work in excavation: All excavations shall be done to the minimum dimensions as required for safety and working facility. Prior approval of the Engineer shall be obtained by the Contractor, in each individual case, for the method he proposes to adopt for the excavations including dimension, side slopes, sufficient cofferdam, pumping side props/shoring against collapse of excavated earth, dewatering, disposal etc. This approval, however, shall not in any way make the Engineer responsible for any consequent loss or damage. The excavation must be carried out in the most expeditious and efficient manner. All excavation in open cuts shall be made true to line, sufficient slopes and grades shown on the drawing or directed by the Engineer. The Contractor shall have full responsibility of the stability of the excavation and safety of the workmen. If the excavation is done to a depth greater than that shown on the drawing or directed by the Engineer but due to the Contractor's fault, the excess depth shall be filled up to the required level at the Contractor own cost (with cement concrete not leaner than 1:3:6 ordinary concrete or richer) or as directed by the Engineer in each individual case.

2.1 Disposal: The excavated spoils will be disposed off in any or all the following manners:

- a) By using it for backfilling straightway.
- b) By stacking it temporarily for use in backfilling at a later date during execution of the Contract.
- c) (i) By either spreading,
Or
(ii) Spreading and compacting at designated disposal areas.

3. Cement concrete/ Reinforced cement concrete work: All C.C. work in 1:3:6 proportions shall be done in mixture machine with 20 mm graded down broken stone. Broken stone shall be properly screened before use. All reinforced cement concrete work to be done in mixture machine of prop. 1:1.5:3 with 20 mm graded down broken stone as per related drawings and instructions of site Engineer to be followed in case of any discrepancies. Proper vibration to be done as per IS recommendation. Reinforcement bar to be TMT bar of approved quality and approved manufacturer.

4. Planking and strutting: The contractor is responsible for the design, fixing and removal of planking, strutting shoring etc. of sufficient strength required for earth pressure for which no extra claim on this amount will be granted.

In normal circumstances form work may generally be removed after the expiry of the following periods.

- a) Walls, columns and vertical face of all structural members as may be decided by the Site Engineer or 24 to 48 hours.
- b) Slabs side (props left under) 3 days.

c) Beam soffits (props. left under) 14 days.

d) Removal of props under slabs:

(i) Spanning up to 4.5 m # 14 days

(ii) Spanning over 4.5 m # 21 days

e) Removal of props under beams:

(i) Spanning up to 6 m # 21 days

(ii) Spanning above 6 m # 28 days

5. Scaffolding: The scaffolding required for RCC work shall be strong enough and of approved materials by the Engineer-in-charge. Before use of scaffolding, it has to be inspected and approved by the Engineer-in-charge or authorized representative.

6. Curing of concrete: Curing shall be done in accordance with IS:456 by keeping the concrete surface covered with wet hessian cloths, canvas or similar absorbent materials and kept constantly wet for a period of not less than 7 days from the date of pouring of concrete. Plastered surface to be kept wet by sprinkling with water for at least 7 days.

7. Measurement & payment: Payment shall be made to the contractor on written request by the contractor for all works done on the basis of actual work done as per the schedule of rates. For all extra work done on the advice of the Company's Engineer and which is not included in the schedule of rates, deviation order for the same shall be made on the rates as decided by the Company's Engineer.

8. Safety measure: Safety measure as per OIL regulations shall be strictly adhered to by the Contractor. Safety belts and other measure taken by the Contractors shall be borne by the Contractor. If any loss or damage caused to life during the erection and execution, the contractor shall be fully responsible for the loss.

9. Test report:

a) Contractor's materials and workmanship including cube test and other laboratory and field testing of cement concrete and steel shall meet the requirements of the latest edition of the standard specifications and code of practice for Road Bridges Section I, II, III, IV (as published by Indian Road Congress) and other relevant ISI, IRC and API specifications viz. IS:383, IS:226, IS:456, IS:1893, IS:2266, IS:269 etc. Wherever these IRC, ISI and API codes and stipulations are silent, the specifications shall be governed by sound engineering practice, and the decision of the company in this regard shall be final and binding on the contractor. All standards shall be latest revision.

b) Test certificates of quarry materials from approved authority have to be submitted by the contractor before execution of the work at his own cost.

c) Test certificate for PH value of water use in Concreting and Plastering to be furnished from approved authority at his own cost before execution of work.

d) Test certificate for bearings for bridge as per IS/IRC standard to be furnished from approved authority by the contractor at his own cost.

- e) Contractor have to arrange machinery and equipments at site for Slump and other field test for which no extra payment will be made.
- 10.** After formal contract is signed, the Contractor shall submit a programme of work indicating there in the various stages of construction and progress to be achieved month wise in order to ensure the completion of work within the specified time for approval of the company. The Contractor shall conduct test of concrete and steel at site of work regularly and also arrange laboratory test as directed by the Engineer-in-Charge at his own cost.
- 11.** Time will be the essence of this contract and the contractor shall be liable to pay the company compensation in the form of liquidated damage/penalty as per clause of the Contract.
- 12.** The contract shall be deemed to be absolutely inclusive of the cost of all necessary materials except cement and also covers the cost of all temporary works like scaffolding, platform, filling coffer dams, pumping and de-watering measures for diverting or closing channels of water bailing out of water from the work. Further the contract price is inclusive of payment of all royalties, taxes, insurances, compensations etc. and transportation to site of work and stacking/storing of all materials at site defined by the company. No other payment will be admissible on any account.
- 13.**
- a) No extra payment will be made for removing tree trunks, logs, boulders or any other snags encountered irrespective of its sizes during the construction of foundations. No claims will be entertained in respect of difficulties due to collapse of side during construction of foundations.
- b) The contractor shall be responsible for all details and correctness of the site, cross sections, plans, strate conditions of the foundations, locations of quarries for various construction materials, availability of transport and materials, geological and climatic characteristics, labour condition both skilled and unskilled and in general with all necessary information and data responsibility nor will entertained any extra claim of the contractor on these counts.
- 14.** Permit for collection of stones, gravel, sand etc. from the Govt. quarries shall have to be arranged by the contractor at his own cost including payment of all royalty charges and any other charges as levied by the competent authority for the same.
- 15.** The contract includes the cost of various sundries and contingencies necessitated by the work which fall within the following or similar categories.
- 16.** The contractor shall make his own arrangement for same procurement of all materials, tools and plants, labour and transport and everything required for execution of this project. Company will supply cement to the contractor as per actual requirement free of charges for incorporation in this work from company's stock pile at Duliajan General Stores. However, the contractor will have to arrange

transportation of the cement from company's stockpile to the site of work at his own cost. Approximate distance from company's stores to the work site is approx. 35 km. The contractor shall have to submit a fortnightly return for the stock and up-to-date consumption of cement etc, so issued to him. The Company's Engineer shall also have the right to verify the physical stock and day to day consumption records. In case of any misuse, the materials will be recovered from the Contractor at double the prevailing market cost of the materials without any reference to him.

17. Watch and ward for Company's material to be arrange by contractor at his own Cost.

18. The contractor shall maintain technically qualified person/persons duly approved by the Company at work site for proper supervision of the work and receive work instruction during entire period of execution of the work as deemed necessary by the company, for which no extra payment will be made to the contractor.

19. The Contractor will observe all safety precaution as per Oil mines safety rules while carrying out work at site and on well at their camp at his own cost.

20.

a) All materials shall in general, be of the best suitable description for the class of work required according to sound recognized engineering practices and/or relevant codes.

b) Unless otherwise specified, the mix of the ordinary plain concrete shall be as per drawing and shall be mixed properly in the rates specified. Workmanship shall be sound and the work should be carried out in an acceptable manner and as laid down in the relevant codes of specifications.

c) Good neat finish of all exposed reinforced or plain cement concrete shall be ensured by the size of shutters made from steel sheets or steel frames/forms or well planned and accurately fitted planks, so that no special finish is required for the concrete substructure. Any slight or local imperfections in the surface, if revealed on stripping/striking shall be finished with neat cement by contractor, to the complete satisfaction of Engineer-in-charge of company for the work. The projecting ends of caps over abutment shall be finished with neat drip.

21.

a) The exact position of the centre line for the abutment and their functions shall be most accurately determined and adhered to using the best steel tape permanent bench mark with the centre pegs and nails and suitable accurate surveying instrument etc. by the contractor.

b) In no case the centre line pillars once fixed shall be removed or damaged till completion of the work and the contractor shall be fully responsible to keep it perfectly in position.

22. If in the opinion of the company's Engineer the work is considered of sub-standard in nature either on account of less cube strength than prescribed or on account of bad workmanship the following course of action will be taken.

- a) In case the work is classified as sub-standard on account of bad workmanship the contractor shall rectify the defects at his own cost.
- b) In the event of the work being declared sub-standard on account of less cube strength, the contractor will have to dismantle the part of the work and re-do, entirely at his own cost.

23. Superstructure: The superstructure shall consist of RCC Slab and beam and other associated device to support and carry all facilities. Any other arrangement, if suggested by the contractor shall have to be duly approved by the company.

24.

- a) All materials used in the super-structure and its fabrication and workmanship shall be in accordance with relevant I.S/I.R.S specifications and as per sound engineering practice.
- b) The contractor shall supply all labour, all power for welding and all equipment including welding machineries, cable cranes trucks, tools, false work, scaffolding, lifting and handling gear or other equipment of whatever descriptions.

25. Distortion in any structural and/or in any materials shall be removed to the entire satisfactions of the Company's Engineer before site fabrication. Any damage sustained in transit shall be made good at contractor's cost. The methods used in such repairs shall have prior approval of the Company.

26. All steels used in fabrication of the structure shall be of approved tested quality, manufactured to the relevant I.S specification or equivalent. All test reports and certificates of the structural steels used in execution of the contract shall be furnished by the contractor to the company.

27.

- a) All site welding and cutting jobs wherever necessary shall be subjected to close visual inspection by Company's Engineer as the welding/cutting progresses. Faults shall be corrected as soon as possible by the contractor at his expenses and in the event of his failure the company shall have to the right to rectify sub standard works due to bad workmanship or otherwise without prior reference to the contractor at his risk and cost. No electricity will be provided by the Company for welding purpose in case contractors planning to use the electric welding set.
- b) The responsibility of providing sound welds rests with the contractor and this responsibility shall not be qualified or waived in any way by the presence of company's Engineer while the welds are being done.
- c) Defects in the welds shall be repaired by chipping or matting out such defects from one or both sides of the joints as required and re-welding. Only such length of welded joints shall be re-welded as is necessary to correct the defects.

28. Field facilities:

- a) Water for construction shall have to be made available by the contractor at his own arrangement and cost and should be as per I.S. specification.
- b) Camp site for contractor's authorized personals shall be arranged by the Contractor at a convenient location within 10 km from the bridge site at his own cost as also sanitary facilities including Water Closet, plumbing, septic tank, drinking water etc. The contractor shall observe all safety precaution at the camp against fire etc.
- c) The contractor shall not be allowed to construct any structures (for storage or housing purpose) with thatch, bamboo or any other inflammable materials in the vicinity of protected areas of the company.

29. Progress schedule:

- a) Contractor shall submit the program of work prior to award of contract and corresponding bar chart with schedule like man power requirement, equipment list during execution.
- b) The Contractor shall furnish within the period stipulated in writing by the Engineer-in-charge of the work at the start of the work, a progress schedule in quadruplicate indicating the date of start, the monthly progress expected to be achieved & an anticipated completion date of each major item or work to be done by him, also indicating progress of procurement of materials and setting up of plant and machinery. The Contractor shall submit monthly progress of work in writing preferably in bar chart. The completion of the whole work in the time limit and of the particular item, if any, on the due dates specified in the contract shall have the approval of the Engineer-in-charge. Further, the dates for the progress in this schedule shall be kept up. In case it is absolutely found necessary to alter the schedule, the contractor shall submit in good time a revised schedule incorporating necessary modifications proposed and get the same approved by the Engineer-in-charge. No revised schedule shall be operative without such acceptance in writing. The Engineer is further empowered to ask for more detailed schedule or schedules, say, week by week for any item or items, and the contractor shall the same as & when asked for.
- c) The contractor shall provide Plant, equipment and labour and shall work such hours and shifts as may be necessary to maintain the progress schedules and as approved by Engineer-in-charge. These shall not be varied without the prior approval of the Engineer.

30. Force majeure:

- a) In the event of either of the parties here to being rendered unable, wholly or in part, by force majeure to carry out its obligation under this agreement, it is agreed that on such party giving notice and full particulars of such force majeure in writing to the other party as soon as possible, after the occurrence of the cause relied on, the obligation of the party giving such notice shall be deemed to be fulfilled, and the company shall pay to the contractor for the full

work done including materials brought at site in transit or in process as on the date of notice after deducting all payments made provided always the contractor shall take all possible steps, and rendered all assistance to minimize the loss of the company on this account.

- b) The term "Force majeure" as employed herein shall mean acts of God (expressly excluding flood), strikes, lack outs or other industrial disturbances, agitation acts of public enemy, war whether declared or not, blockades all types insurrections, riots, landslides, lightening, earthquakes, fires, storms, washouts, arrests and restraints of Govt. and people and any other causes, whether of the kind herein enumerated or otherwise which are not within the control of the party claiming determination of the contract which renders performance of the contract by the said party impossible.

31. Arbitration: Except where otherwise provided for in the contract all questions and disputes relating to the meaning of the specifications, design, drawings and instructions herein before mentioned and as to the quality of workmanship or materials used on the work or as to any other question, claim, and right matter or thing whatsoever in any way arising out of or relating to the contract, designs, drawings, specifications, estimate, instruction orders or these conditions or otherwise concerning the works or execution of failure to execute the same whether arising during the progress of the work or after the completion or abandonment thereof shall be referred to the sole arbitration of an authority appointed by the Company mutually agreed by the parties. Subject as aforesaid the provision of the Indian Arbitration Act 1996, or any statutory modification or reenactment thereof and the rules made there under and for the time being in force shall apply to the arbitration proceeding under this clause.

It is a term of the contract that the party invoking arbitration shall specify the dispute or disputes to be referred to Arbitration under this clause together with the amount or amounts claimed in respect of each such dispute.

The Arbitrator may from time to time with the consent of the parties enlarge the time, for making and publishing the award.

The Arbitrator shall be deemed to have entered on the reference on the date he issues notice to both the parties.

The Arbitrator shall give a separate award with reasons in respect of each dispute or difference referred to him.

The venue of arbitration shall be such place as may be fixed by the Arbitrator in his sole discretion.

32. Performance guarantee: The contractor shall undertake to guarantee the stability and safety of the bridge that will have been constructed to the entire satisfaction of the company for a period of 12 (twelve) months from the date of completion and commissioning of the bridge. Any defects in construction of the bridge noticed within the guarantee period shall be rectified by the contractor forthwith at his own cost to the satisfaction of the company. In case of failure on the part of the contractor to rectify the defects found during the guarantee period,

within the time frame as notified by the company to the contractor, the company will be at liberty to get the rectification completed through other agencies without any further reference to the contractor and the cost thereof shall be recovered from the contractor's retention money as recovered from the progress in bills of the contractor. The performance security deposit submitted against the tender shall be valid up to 12 (twelve) months (defect liability period) from the date of completion and commissioning of the bridge.

The Security deposit will be refunded to the contractor only after satisfactory completion and commissioning of the bridge along with the final payment subject to deduction/adjustments, if any and without earning any interest.

33. General note:

- a) Payment of all royalties, taxes etc. and transportation to site of work and stacking/storing at site defined by the Engineer.
- b) Prior approval of the sample of materials by Engineer. Any materials found not conforming to specifications must be removed from site within 24 hours.
- c) Electricity: Electric power will not be provided to the contractor and may be arranged by the contractor, if required by them at his own cost.
- d) Insurance: The Contractor shall take out a comprehensive insurance policy for his working personals and Bridge proper at site, and he shall provide a copy of the insurance policy to the company before drawing and payment or otherwise he must satisfy the company about the required insurance coverage with proper documents/evidence.
- e) Local disturbance leading to delay, shutdown or closure of work, idle charge etc. due to troubles/strikes created by contractor's own labour/employee shall be attributable to the contractor and no extra payment will be admissible on this account.
- f) The Contractor will ensure the progress of work causing least disturbance to the flow of channel.
- g) The Contractor must not sublet any work.
- h) All labour employed shall be paid at rates of wages not less than the stipulations under the Minimum Wages Act and the payment of wages act.
- i) Cement issued to contractor by the company is meant only for the specific Company's work relating to the contract and store in a go-down at site which to be constructed as per advice of Engineer-In-Charge and security to be provided at his own cost. However if any quantity of Cement left over from the quantities issued, for any reason whatsoever, on the completion/cancellation/termination of the contract, the same shall have to be returned to the company in full within one week of completion//cancellation of the work failing which the same will be

recovered at double the prevailing market rates from the contractor without reference to him.

- j) Empty Cement bags must be returned to the Company's Go-down in good condition failing which the Company will recover the cost of ₹ 8.00 per empty bag of Cement.
- k) The Contractor is to arrange transport of the Cement to site of work from Company's stockpile (or to return the left over quantities and empty cement bags to the Company Go-down) for safe custody thereof for which no extra payment will be made. Any loss or damage to the company materials issued to the contractor for the execution of the work will have to be made good by the contractor at his own cost.
- l) All other materials issued to the contractor by the company if subsequently found to be in excess of the actual requirement will have to be returned by the contractor within two weeks of completion of the work failing which the cost of all such materials will be recovered from the Contractor at double the prevailing market rate of the materials without any reference to him.
- m) The responsibility of good and a faultless workmanship with the contractor & shall not be waived in any way by the presence of the Company's Engineer during execution.

34. Specification and instructions of road

- a) **Site clearance:** All the dismantled goods to be handed over to the Company in proper condition. Contractor will be responsible for any items missing from site and the same will be recovered from his bill.
- b) **Granular Sub-Base:** Prior to the laying of sub-base, the sub-grade shall be prepared by removing all vegetation and other extraneous matter, lightly sprinkled with water if necessary and rolled with 8 to 10 tonne capacity smooth wheeled roller. The sub-base material of specified grading shall be spread in two layers on the prepared sub grade with required slope. Immediately after laying the materials rolling to be done at the edge and proceed towards the upper edge longitudinally for portions having unidirectional cross fall and super elevation and shall commence at the edges and progress towards the centre for portions having cross fall on both sides. During rolling, the grade and cross fall (Camber) shall be checked and any high spots or depressions, which become apparent, corrected by removing or adding fresh material. The speed of the roller shall not exceed 5 km per hour. Rolling shall be continued till the density achieved is at least 98% of the maximum dry density for the materials.
- c) **Gravelled road:** Gravelled road providing at well compacted side berms with earth on either sides above final level of gravelled road, dressing sub-grade (including cutting of earth up to 75 mm deep) to required level, spreading gravel in two layers with bindage of dry earth and dry rolling each layer separately until fully compacted (Ref. to MoRTH Spec. 401).

- d) **WBM Surface:** The sub-grade/sub-base to receive the water bound macadam course shall be prepared to the specified grade and camber and made free of dust and other extraneous material. After preparation of sub-grade/sub-base, the coarse aggregate shall be spread uniformly rolling shall be started with three wheeled power roller of 8 to 10 tonne capacity the edge and proceed towards the upper edge longitudinally for portions having unidirectional cross fall and super elevation and shall commence at the edges and progress towards the centre for portions having cross fall on both sides. Rolling shall be discontinued when the aggregate are partially compacted with sufficient void space in them to permit application of binding material. During rolling a light sprinkling of water may be done. Any high spots or depressions, which become apparent, corrected by removing or adding fresh material. Screening materials shall be applied at a slow and uniform rate so as to ensure filling all voids shall be accompanied by dry rolling and brooming with mechanical or hand brooms. The screening rolling and brooming of the screenings shall be carried out in only such lengths of the road which could be completed in one day operation. After the applications of screenings have been applied, the surface shall be copiously sprinkled with water, swept and rolled. Hand brooms shall be used to sweep the wet screenings into voids and to distribute them evenly. The sprinkling, sweeping and rolling operation shall be continued with additional screenings applied as necessary, until the coarse aggregate has been thoroughly keyed, well bonded and firmly set in its full depth and a grout has been formed of screenings. After the application of screenings, the binding materials shall be applied successively in two or more thin layers at a slow and uniform rate. The surface shall be copiously sprinkled with water, the resulting slurry swept in with hand brooms or mechanical brooms to fill the voids properly and rolled during which water shall be applied to the wheels of the rollers if necessary to wash down the binding materials sticking to them. After final compaction of water bound macadam course, the road shall be allowed to dry over night. Next morning hungry spots shall be filled with screenings or binding material as directed, lightly sprinkled with water if necessary and rolled. Coarse aggregates of size 63 mm to 20 mm shall be either crushed boulder or broken stone and shall be hard and durable and free from excess of flat. Binding materials to be used for water bound macadam course shall comprise of a suitable material of loamy earth approved by Engineer-In-Charge having plasticity index value of less than 6. The quantity required of binding materials will be $0.10 \text{ m}^3/10 \text{ m}^2$.
- e) **Construction of 25 mm thick semi dense bituminous concrete:** This work shall consist of construction in a single or multiple layers of semi dense bituminous concrete on a previously prepared surface. A single layer shall be 25 mm to 100 mm in thickness. This job shall have to be carried out as per the procedure as spelt out in the Ministry of Road Transport & Highways Specifications for Road and Bridge Works Clause No.508.
- (i)Construction operations: Laying shall be suspended while free-standing water is present on the surface to be covered, or during rain, fog and dust storm. Laying of bituminous mixtures shall not be carried out when the air temperature at the surface on which it is to be laid is below 10°C or when the wind speed at any temperature exceeds 40 km/hr at 2 m height unless specifically approved by the Engineer.

(iii) Tack Coat: This work shall consist of the application of a single coat of low viscosity liquid bituminous material to an existing road surface preparatory to the superimposition of a bituminous mix, when specified in the contract or instructed by the Engineer-In-Charge.

D. This tender is floated with rates based on the existing OIL's SOR i.e. with old labour wages. The Labour Escalation as per minimum labour wages effective as on the original Bid Closing date shall be reimbursed to the bidder who is awarded the contract, for all the labour items, against which, the bidder's quoted rates are lower than the rates calculated (*to be calculated later on for payment of escalation*) on the basis of minimum labour wages as on the original bid closing date.

FOR & ON BEHALF OF CONTRACTOR

INTEGRITY PACT

Between

Oil India Limited (OIL) hereinafter referred to as "The Principal"

And

(Name of the bidder).....hereinafter referred to as "The Bidder/Contractor"

Preamble:

The Principal intends to award, under laid down organizational procedures, contract/s for **"Construction of RCC Box type Culvert (Double Cell) with Approach roads on both sides including dismantling of existing damaged bridge over rivulet Garumarajan on Digboi-Naharkatia road in the district of Dibrugarh, Assam including supply of all materials & machineries except Cement"**. The Principal values full compliance with all relevant laws and regulations, and the principles of economic use of resources, and of fairness and transparency in its relations with its Bidder/s and Contractor/s.

In order to achieve these goals, the Principal cooperates with the renowned international Non-Governmental Organisation "Transparency International" (TI). Following TI's national and international experience, the Principal will appoint an external independent Monitor who will monitor the tender process and the execution of the contract for compliance with the principles mentioned above.

Section 1 - Commitments of the Principal

(1) The Principal commits itself to take all measures necessary to prevent Corruption and to observe the following principles:-

- I. No employee of the Principal, personally or through family members, will in connection with the tender for, or the execution of a contract, demand, take a promise for or accept, for him/herself or third person, any material or immaterial benefit which he/she is not legally entitled to.
- II. The Principal will, during the tender process treat all Bidders with equity and reason. The Principal will in particular, before and during the tender process, provide to all Bidders the same information and will not provide to any Bidder confidential/ additional information through which the Bidder could obtain an advantage in relation to the tender process or the contract execution.
- III. The Principal will exclude from the process all known prejudiced persons.

(2) If the Principal obtains information on the conduct of any of its employees which is a criminal offence under the relevant Anti-Corruption Laws of India, or if there be a substantive suspicion in this regard, the Principal will inform its Vigilance Office and in addition can initiate disciplinary actions.

Contractor

Company

Section 2 - Commitments of the Bidder/Contractor

- (1) The Bidder/Contractor commits itself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the tender process and during the contract execution.
 - I. The Bidder/Contractor will not, directly or through any other person or firm, offer, promise or give to any of the Principal's employees involved in the tender process or the execution of the contract or to any third person any material or immaterial benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the tender process or during the execution of the contract.
 - II. The Bidder/Contractor will not enter with other Bidders into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to introduce cartelisation in the bidding process.
 - III. The Bidder/Contractor will not commit any offence under the relevant anticorruption Laws of India; further the Bidder/Contractor will not use improperly, for purposes of competition or personal gain, or pass on to others, any information or document provided by the Principal as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.
 - IV. The Bidder/Contractor will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the contract.
- (2) The Bidder/Contractor will not instigate third persons to commit offences outlined above or be an accessory to such offences.
- (3) The Bidder/Contractor signing Integrity Pact shall not approach the Courts while representing the matters to IEMs and he/she will await their decision in the matter.

Section 3 - Disqualification from tender process and exclusion from future Contracts

If the Bidder, before contract award has committed a transgression through a violation of Section 2 or in any other form such as to put his reliability or risibility as Bidder into question, the Principal is entitled to disqualify the Bidder from the tender process or to terminate the contract, if already signed, for such reason.

Contractor

Company

1. If the Bidder/Contractor has committed a transgression through a violation of Section 2 such as to put his reliability or credibility into question, the Principal is entitled also to exclude the Bidder/Contractor from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, in particular the number of transgressions, the position of the transgressions within the company hierarchy of the Bidder and the amount of the damage. The exclusion will be imposed for a minimum of 6 months and maximum of 3 years.
2. The Bidder accepts and undertakes to respect and uphold the Principal's Absolute right to resort to and impose such exclusion and further accepts and undertakes not to challenge or question such exclusion on any ground, including the lack of any hearing before the decision to resort to such exclusion is taken. This undertaking is given freely and after obtaining independent legal advice.
3. If the Bidder/Contractor can prove that he has restored/recouped the Damage caused by him and has installed a suitable corruption prevention system, the Principal may revoke the exclusion prematurely.
4. A transgression is considered to have occurred if in light of available evidence no reasonable doubt is possible.
5. Integrity Pact, in respect of a particular contract, shall be operative from the date Integrity Pact is signed by both the parties till the final completion of the contract **or as mentioned in Section 9- Pact Duration whichever is later**. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

Section 4 - Compensation for Damages

1. If the Principal has disqualified the Bidder from the tender process prior to the award according to Section 3, the Principal is entitled to demand and recover from the Bidder liquidated damages equivalent to Earnest Money Deposit / Bid Security.
2. If the Principal has terminated the contract according to Section 3, or if the Principal is entitled to terminate the contract according to section 3, the Principal shall be entitled to demand and recover from the Contractor liquidated damages equivalent to Security Deposit / Performance Bank Guarantee.
3. The bidder agrees and undertakes to pay the said amounts without protest or demur subject only to condition that if the Bidder/Contractor can prove and establish that the exclusion of the Bidder from the tender process or the termination of the contract after the contract award has caused no damage or less damage than the amount or the liquidated

damages, the Bidder/Contractor shall compensate the Principal only to the extent of the damage in the amount proved.

Section 5 - Previous transgression

1. The Bidder declares that no previous transgression occurred in the last 3 years with any other Company in any country conforming to the TI approach or with any other Public Sector Enterprise in India that could justify his exclusion from the tender process.
2. If the Bidder makes incorrect statement on this subject, he can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

Section 6 - Equal treatment of all Bidders/Contractor/Subcontractors

1. The Principal will enter into Pacts on identical terms with all bidders and contractors.
2. The Bidder / Contractor undertake(s) to procure from all subcontractors a commitment in conformity with this Integrity Pact. The Bidder/Contractor shall be responsible for any violation(s) of the provisions laid down in this agreement/Pact by any of its sub-contractors/sub-vendors.
3. The Principal will disqualify from the tender process all bidders who do not sign this Pact or violate its provisions.

Section 7 - Criminal charges against violating Bidders/Contractors/Subcontractors

If the Principal obtains knowledge of conduct of a Bidder, Contractor or Subcontractor, or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor, which constitutes corruption, or if the Principal has substantive suspicion in this regard, the Principal will inform the Vigilance Office.

Section 8 - External Independent Monitor/Monitors (three in number depending on the size of the contract) (to be decided by the Chairperson of the Principal)

1. The Principal appoints competent and credible external independent Monitor for this Pact. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.
2. The Monitor is not subject to instructions by the representatives of the parties and performs his functions neutrally and independently. He reports to the Chairperson of the Board of the Principal.
3. The Contractor accepts that the Monitor has the right to access without restriction to all Project documentation of the Principal including

that provided by the Contractor. The Contractor will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor is under contractual obligation to treat the information and documents of the Bidder/Contractor/Subcontractor with confidentiality.

4. The Principal will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the Principal and the Contractor. The parties offer to the Monitor the option to participate in such meetings.
5. As soon as the Monitor notices, or believes to notice, a violation of this agreement, he will so inform the Management of the Principal and request the Management to discontinue or heal the violation, or to take other relevant action. The monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action. However, the Independent External Monitor shall give an opportunity to the bidder / contractor to present its case before making its recommendations to the Principal.
6. The Monitor will submit a written report to the Chairperson of the Board of the Principal within 8 to 10 weeks from the date of reference or intimation to him by the 'Principal' and, should the occasion arise, submit proposals for correcting problematic situations.
7. If the Monitor has reported to the Chairperson of the Board a substantiated suspicion of an offence under relevant Anti-Corruption Laws of India, and the Chairperson has not, within reasonable time, taken visible action to proceed against such offence or reported it to the Vigilance Office, the Monitor may also transmit this information directly to the Central Vigilance Commissioner, Government of India.
8. The word 'Monitor' would include both singular and plural.

Section 9 - Pact Duration

This Pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the respective contract, and for all other Bidders 6 months after the contract has been awarded.

If any claim is made/ lodged during this time, the same shall be binding and continue to be valid despite the lapse of this pact as specified above, unless it is discharged/determined by Chairperson of the Principal.

Section 10 - Other provisions

1. This agreement is subject to Indian Law. Place of performance and jurisdiction is the Registered Office of the Principal, i.e. New Delhi. The

Contractor

Company

Arbitration clause provided in the main tender document / contract shall not be applicable for any issue / dispute arising under Integrity Pact.

2. Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.
3. If the Contractor is a partnership or a consortium, this agreement must be, signed by all partners or consortium members.
4. Should one or several provisions of this agreement turn out to be invalid, the remainder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.

This Integrity Pact proforma has been duly signed digitally by OIL's competent signatory. The proforma has to be uploaded by the bidder (along with the Un-priced Techno-Commercial Bid).—Uploading the Integrity Pact with digital signature will be construed that all pages of the Integrity Pact have been signed by the bidder's authorized signatory who sign the Bid.

2.1.6 The bidders must submit documentary evidence for BEC clause numbers 2.1.1 and 2.1.2. All the documents should be legible. The bidders **must have Encryption Certificate along with Digital Signature Certificate (DSC) of Class 3 [Organization Type]** to upload all the documents.

OIL registered 'A' & 'B' class bidders are exempted from submitting documents fulfilling their experience & turnover criteria as well as depositing the bid security amount as specified in the Clauses 2.1.1, 2.1.2 & 2.1.4 of BEC/BRC of this tender document, providing submission of his/her/their revised "One Time Security Deposit" in line with OIL's notification no.: CONT/CIV/1296/2016 dated 25.08.2016, on or before 13:30 Hrs. of Bid Closing/Opening date of this tender. Moreover, no earnest money deposit / bid security will be necessary for procurement from Central Government department and Public Sector Undertaking.

3.0 Notes to Clause no. 2.1.1 above:

(a) "Similar work" mentioned in Paragraph 2.1.1 above means the following:

Definition of similar work:

Construction of RCC leader drain/ RCC Building/ RCC framed Boundary wall/ RCC Water tank/ RCC Bridge/ RCC Machine Foundation.

(b) Non-submission of the documents as specified in all the paragraphs above will result in rejection of bids.

4.0 The bids conforming to the specifications, terms and conditions stipulated in the tender documents and considered to be responsive will be evaluated as per the procedure mentioned below:

- i. Bid will be opened on schedule date & time as specified in the NIT and all the bids where the bidders have quoted the lowest price (within the permissible percentage as per NIT) will be selected for conducting Draw of Lots (DoL). DoL will be conducted within a short period after Bid Closing Date. In the DoL, 7 (seven) numbers of bidders will be selected first, in the order of B-1 (Bidder-1), B-2 B-3, B-4, B-5, B-6 and B-7. The technical scrutiny will be carried out for these seven bidders only. If the bid of bidder B-1 is found to be technically qualified, B-1 will be the successful bidder (Priority-1 bidder) and the contract will be awarded to B-1. If B-1 is not found to be technically qualified but B-2 is technically qualified, B-2 will be awarded the contract, ---- and so on; i.e. whoever becomes the first technically qualified bidder in the order of B-1 → B-2 → B-3 → B-4 → B-5 → B-6 → B-7, will be the successful bidder (P-1). In this way, P-1 (Priority-1) and P-2 bidders will be selected. The contract will be awarded to the P-1 bidder only. However, in case the bidder P-1 is not able to carry out the job due to any reason, P-2 may be awarded the job, if the same is approved by Company's competent authority. In case, none of these seven bidders are found to be technically acceptable, the draw of Lot will be again conducted to select 7 more bidders as B-8 to B-14 and similar steps will be followed thereon as explained above. The system of conducting further draw of lots will be followed till a technically acceptable bidder is selected.
- ii. Bidder should note that deficit documents will not be sought from the bidders. The bids will be evaluated as per the documents received from the bidders at the time of bid opening. Any bid, which is not supported with the requisite documents as per the NIT, will be rejected straightway without seeking any further clarification and deficit document.

Note: The Company's Internal Estimated Rates, as indicated in Part-II, are inclusive of all overheads, taxes, duties, levies etc. except P.F. & GST.

(B). BID REJECTION CRITERIA (BRC):

1. The bids are to be submitted in single stage under composite bid system i.e. Un-priced Techno-Commercial Bid and Price Bid together. Only the Price Bid should contain the quoted price (percentage only).
2. Bid security shall be furnished as a part of the Techno Commercial Un-priced Bid. The amount of bid security should be as specified in the NIT. Any bid not accompanied by a proper bid security will be summarily rejected.
3. Bid Documents / User Id & Password for OIL's E-Tender portal are not transferable. Bid submitted by parties who have not submitted the requisite tender fees will be rejected.
4. Any bid received in the form of Physical document/ Telex/Cable/Fax/E-mail will not be accepted.
5. (C). GENERAL:

- i. Submission of Forged Documents: Bidders should note that Company may verify authenticity of all the documents /certificates / information submitted by the bidder(s) against the tender. In case at any stage of tendering process or Contract execution etc., if it is established that bidder has submitted forged documents / certificates / information towards fulfilment of any of the tender / contract conditions, Company shall immediately reject the bid of such bidder(s) or cancel / terminate the contract and forfeit EMD / SD submitted by the bidder(s), besides taking action as per OIL's Banning Policy dated 6th January 2017, available in the OIL's website.

- ii. In case bidder takes exception to any clause of bidding document not covered under BEC/BRC, then the Company has the discretion to load or reject the offer on account of such exception if the bidder does not withdraw / modify the deviation when / as advised by company. The loading so done by the Company will be final and binding on the bidders. No deviation will however be accepted in the clauses covered under BRC.
- iii. To ascertain the substantial responsiveness of the bid the Company reserves the right to ask the bidder for clarification in respect of clauses covered under BEC/BRC also and such clarifications fulfilling the BEC/BRC clauses in toto must be received on or before the deadline given by the company, failing which the offer will be evaluated based on the submission. However, mere submission of such clarification shall not make the offer responsive, unless Company is satisfied with the substantial responsiveness of the offer.
- iv. If any of the clauses in the BRC contradicts with other clauses of Bidding document elsewhere, the clauses in the BRC shall prevail.
- v. Bidder(s) must note that requisite information/financial values etc. as required in the BEC/BRC & Tender are clearly understandable from the supporting documents submitted by the Bidder(s); otherwise Bids shall be rejected.
- vi. OIL will not be responsible for delay, loss or non-receipt of applications for participating in the bid sent by mail and will not entertain any correspondence in this regard.
