1. If the Bidder/Contractor has committed a transgression through a violation of Section 2 such as to put his reliability or credibility into question, the Principal is entitled also to exclude the Bidder/Contractor from future contract award processes. - 3.1.1 Support and boost the growth of domestic manufacturing sector so as to be able to support oil and natural gas business activities and contribute added value to economy, absorb manpower as well as have national, regional and international competitiveness;
- 3.1.2 Support and boost the growth of innovation/technology of domestic manufacturing sector.

3.2 This policy shall apply to all the Public Sector Undertakings and their wholly owned subsidiaries under the Ministry of Petroleum and Natural Gas; Joint Ventures that have 51% or more equity by one or more Public Sector Undertakings under the Ministry of Petroleum and Natural Gas; attached and subordinate offices of MoPNG.

3.3 This policy shall not include goods/ services falling under Micro Small and Medium Enterprises (MSME) or Domestically Manufactured Electronic Products (DMEP), as those products/ services are already covered under specific policy. However, an option would be given in the tender for the bidder to declare preference for seeking benefit under PP-LC/MSME or DMEP.

4. Procurement

4.1 The procuring companies shall follow their own procurement procedures. Aggregation of annual requirements and such other procurement practices, which facilitate the implementation of this policy, may be adopted by procuring companies.

4.2 The producers of goods and/or providers of services shall be obliged to fulfil the requirements of quality and delivery time in accordance with the provisions of the respective contracts of goods and services.

5. Purchase Preference- Linked with Local Content (LC)

5.1 The following provisions may be considered for LC linked Purchase Preference:

5.1.1 In supporting the growth of domestic products, the target of Local Content (LC) in the oil and gas business activities shall be set as contained in **Enclosure-I.** The manufacturers/ service providers having the capability of meeting/ exceeding the local content targets shall be eligible for 10% purchase preference under the policy, i.e. LC manufacturers/ LC service providers respectively as described below.

5.1.2 Wherever the goods/ services are procured under this policy, eligible (techno-commercially qualified) LC manufacturers / LC service providers may be granted a purchase preference of 10%, i.e. where the quoted price is within 10% of the lowest price, other things being equal, purchase preference may be granted to the eligible (techno-commercially qualified) LC manufacturers /service providers concerned, at the lowest valid price bid.

- 5.1.3 Goods:** The tender for procuring goods would specify that the contract for 50% of the procured quantity would be awarded to the lowest techno-commercially qualified LC manufacturer/ supplier, subject to matching with L1, if such bidders are available. The remaining will be awarded to L1 (i.e. Non Local Content (NLC) manufacturer / supplier not meeting prescribed LC criteria).
- 5.1.3.1 However, if L1 bidder happens to be a LC manufacturer, the entire procurement value shall be awarded to such bidder;
- 5.1.3.2 If in the opinion of the procuring company, the tenders (procured quantity) cannot be divided in the prescribed ratio of 50:50, then they shall have the right to award contract to the eligible LC manufacture for quantity not less than 50%, as may be divisible.
- 5.1.3.3 In continuation to 5.1.3.2 above, if the tendered item is non divisible, (to be included in the tender document by procuring company) the contact can be awarded to the eligible LC manufacturer for the entire quantity,
- 5.1.4 Services/ EPC Contracts:** The tender for oil and gas services/ EPC contracts shall not normally be split. For such procurement the tender would specify that the entire contract would be awarded to the lowest techno-commercially qualified LC service provider, subject to matching with L1, if such bidders are available and L1 bidder is not a LC service provider. However, tender for certain oil & gas services can normally be split, in such cases, splitting shall be allowed and specified in tender document. Such services shall follow the procedure outlined for goods as described in para 5.1.3. The procuring company should clearly specify in the tender document whether the tender shall be split or not.
- 5.1.5 For para 5.1.3 and 5.1.4 above, only those LC manufacturers/ service providers whose bids are within 10% of the L1 bid would be allowed an opportunity to match L1 bid.
- 5.1.6 The tender conditions would ensure that local content in oil & gas products is encouraged. However, the procuring company may incorporate such stipulations as may be considered necessary to satisfy themselves of the production capability and product quality of the manufacturer.

5.1.7 The procedure for award under the policy along with some examples of typical procurement scenarios is at Enclosure-V.

6. Determination of LC

6.1 LC of goods

6.1.1 LC of goods shall be computed on the basis of the cost of domestic components in goods, compared to the whole cost of product. The whole cost of product shall be constituted of the cost spent for the production of goods, covering: direct component (material) cost; direct manpower cost, factory overhead cost and shall exclude profit, company overhead cost and taxes for the delivery of goods.

6.1.2 The criteria for determination of the local content cost in the goods shall be as follows:

- b) in the case of manpower, based on INR component; and
- c) in the case of working equipment/facility, based on the country of origin.

6.1.3 The calculation of LC of the combination of several kinds of goods shall be based on the ratio of the sum of the multiplication of LC of each of the goods with the acquisition price of each goods to the acquisition price of the combination of goods.

6.2 LC of service

6.2.1 LC of Service shall be calculated on the basis of the ratio of service cost of domestic component in service to the total cost of service.

- a) cost of component (material) which is used;
- b) manpower and consultant cost; cost of working equipment/facility; and
- c) general service cost, excluding profit, company overhead cost, taxes and duties.

6.2.3 The criteria for determination of cost of local content in the service shall be as follows:

- a) in the case of material being used to help the provision of service, based on country of origin;
- b) in the case of manpower and consultant based on INR component of the services contract;
- c) in the case of working equipment/facility, based on country of origin; and
- d) in the case of general service cost, based on the criteria as mentioned in clauses a, b, and c above.
- e) Indian flag vessels in operation as on date.

6.3 Determination of Local Content: The determination of local content of the working equipment/facility shall be based on the following provision: working equipment produced in the country is valued as 100% (one hundred percent) local content; working equipment produced abroad is valued as much as nil (0% percent) local content.

6.4 LC of the EPC Contracts:

6.4.1 LC of EPC contracts shall be the ratio of the whole cost of domestic components in the combination of goods and services to the whole combined cost of goods and services.

6.4.2 The whole combined cost of goods and services shall be the cost spent to produce the combination of goods and services, which is incurred on work site. LC of the combination of goods and services shall be counted in every activity of the combination work of goods and services.

6.4.3 The spent cost as mentioned in paragraph 6.4.2 shall include production cost in the calculation of LC of goods as mentioned in clause 6.1.1 and service cost in the calculation of LC of services as mentioned in clause 6.2.2.

6.5 Calculation of LC and Reporting

6.5.1 LC shall be calculated on the basis of verifiable data. In the case of data used in the calculation of LC being not verifiable, the value of LC of the said component shall be treated as nil.

 - The bidder shall provide break-up of "Local Component" and "Imported Component" in the price format
 - Bidder must have LC in excess of the requirement specified in **Enclosure-I.**
- b) Undertaking by the bidder:

 - The Undertaking submitted by the bidder shall be supported by a certificate from Statutory Auditor engaged by the bidder certifying that the bidder meets the mandatory local content requirements of the project.

7.1.3 After Contract Award:

- a) In the case of procurement of goods and/or services with the value less than Rs. 5 Crore (Rupees Five Crore), the LC content may be calculated (self-assessment) by the supplier of goods and/or the provider of services and certified by the Director/Authorised representative of the company.
- b) The verification of the procurement of goods, service or EPC contracts with the value Rupees Five Crore and above shall be carried out by a Statutory Auditor engaged by the bidder.

- 7.2 Each supplier shall provide the necessary local-content documentation to the statutory auditor, which shall review and determine that local content requirements have been met, and issue a local content certificate to that effect on behalf of procuring company, stating the percentage of local content in the good or service measured. The Auditor shall keep all necessary information obtained from suppliers for measurement of Local Content confidential.

**PROCEDURE FOR AWARD AND SOME EXAMPLES OF TYPICAL
PROCUREMENT SCENARIOS**

1. Procedure for award of contacts under this policy shall be as follows:

1.1. Goods:

1.1.1. For oil and gas sector goods proposed to be procured, among all technically qualified bids, the lowest quoted price will be termed as L1 and the rest of the bids shall be ranked in ascending order of price quoted, as L2, L3, L4 and so on. If L1 bid meets prescribed LC as per **Enclosure- I**, the said bidder will be awarded full value of the order.

1.1.2. If L1 bid does not meet prescribed LC as per **Enclosure-I**, the value of the order awarded to L1 bidder will be the balance of procurement value after reserving specified percentage (50%) of the total value of the order for the eligible LC manufacturer. Thereafter, the lowest bidder among the eligible LC manufacturer, whether L2, L3, L4 or higher, will be invited to match the L1 bid in order to secure the procurement value of the order earmarked for the eligible LC manufacturer. In case first eligible LC manufacturer fails to match L1 bid, the next eligible LC manufacturer will be invited to match L1 bid and so on. However, the procuring company may choose to divide the order amongst more than one successful bidder as long as all such bidders match L1 and the criteria for allocating the tender quantity amongst a number of successful bidders is clearly articulated in the tender document itself.

1.1.3. In case all eligible LC manufacturers fail to match the L1 bid, the actual bidder holding L1 bid will secure the order for full procurement value.

1.1.4. Only those LC manufacturers whose bids are within 10% of the L1 bid would be allowed an opportunity to match L1 bid.

1.1.5. Example 1 - Procurement of 50,000 MT Casing Pipes

It is intended to procure 50,000 MT casing pipes. The bid documents should specifically provide preference to LC manufacturers of casing pipes (having local content more than the prescribed level as per **Table 1**) in terms of 50% of procurement value subject to matching of L1 price and on satisfying technical specifications of the tender. Suppose there are five bids. Consider LC as the manufacturer meeting local content requirement (and within 10% of the L1 bidder) as per Table 1 (Attachment 1) and NLC as the manufacturer not meeting local content requirement.

Case 1: After opening of commercial bids, position is like L1: LC1, L2: NLC1, L3: NLC2, L4: NLC3 and L5: LC2, then work will be awarded to LC1 vendor.

Case 2A: After opening of commercial bids, position is like L1: NLC1, L2: NLC2, L3: NLC3, L4: LC1 and L5: LC2. NLC1 qualifies as L1, and LC1 is L4. Then LC1 shall have the option of providing 50% of the procurement value at L1 prices. NLC1 will get remaining 50% of the procurement value.

Case 2B: If LC1 refuses to undertake the tendered work at L1 prices, LC2 should be considered to supply at L1 prices.

Case 3: After opening of commercial bids, position is like L1: NLC1, L2: NLC2, L3: NLC3, L4: NLC4 and L5: NLC5. In this case, no vendor with prescribed local content is available, hence the full order will be awarded to NLC1.

1.2. Services/ EPC contracts:

- 1.2.1. For oil and gas services/ EPC contracts proposed to be procured, among all technically qualified bids, the lowest quoted price will be termed as L1 and the rest of the bids shall be ranked in ascending order of price quoted, as L2, L3, L4 and so on. If L1 bid meets prescribed LC as per **Enclosure- I**, the said bidder will be awarded full value of the order.
- 1.2.2. If L1 bid does not meet prescribed LC as per **Enclosure- I**, the lowest bidder among the eligible LC service provider, whether L2, L3, L4 or higher, will be invited to match the L1 bid. In case first eligible LC service provider fails to match L1 bid, the next eligible LC service

provider will be invited to match L1 bid and so on. The entire contract would be awarded to the lowest eligible service provider, subject to matching L1 bid.

1.2.3. In case all eligible LC service providers fail to match the L1 bid, the actual bidder holding L1 bid will secure the order for full procurement value.

1.2.4 Only those LC service providers whose bids are within 10% of the L1 bid would be allowed an opportunity to match L1 bid.

1.2.5 Example 2:

If for a tender where minimum specified LC is 15%, four bidders have been shortlisted for price bid opening and the status of the bidders is as below:

Sl. No	Bidder	Price quoted in Million USD	% of LC quoted
1	L1	200	10
2	L2	206	16
3	L3	210	16
4	L4	215	19

In the above case, L1 bidder has quoted lower than the minimum specified LC. L2, L3 and L4 bidders are achieving/exceeding the minimum LC as per Tender and are within 10% of quoted price of L1 bidder. Hence entire quantity shall be awarded to bidder, to L2 (or if L2 refuses, then L3, L4 in that order). Subject to matching L1 price.
